Narrative

1. On November 16, 2022, at approximately 3:16 PM, Idaho State Police Investigations Lieutenant Catlin and I, interviewed [redacted] [redacted] The interview took place at his parent's house, located at [redacted] [redacted] in Boise, Ada County, Idaho. During the interview, [redacted] stated the following:

2. His residence at school was [redacted], Moscow, Idaho. His residence is approximately 200-300 feet from the location of the homicide. It had been a little nerve wracking going outside of his apartment.

3. He knew some of the homicide victims. He knew Maddi (Madison MOGEN), and Xana (Xana KERNODLE). He had met Kaylee (Kaylee GONCALVES) the night before the homicide but did not realize she was one of the victims until later. He did not know the male victim (Ethan CHAPIN).

4. At this point in the interview [redacted] mother [redacted] arrived home and was present for the remainder of the interview.

5. He had known MOGEN since their freshman year and they were in the same pledge class for the fraternities and sororities on campus. MOGEN had dated some of [redacted] friends and had positive interactions with [redacted] girlfriend in the past. [redacted] had classes with MOGEN, and they had done homework together periodically. He and MOGEN had a lot of friends in common as well. He supposed he had met GONCALVES prior to that night but did not recall specifically.

6. He had never met KERNODLE's boyfriend (Ethan CHAPIN) before. [redacted] heard CHAPIN belonged to the [redacted] fraternity. CHAPIN was also a year younger than [redacted] in school.

7. MOGEN was dating one of [redacted] fraternity brothers, [redacted] whom [redacted] believed lived in Boise. [redacted] had spoken to [redacted] earlier in the day on November 16th. [redacted] is a stand-up guy. MOGEN's previous boyfriend was also one of [redacted] friends and is also a nice guy, he and MOGEN were mostly just on and off [redacted] friends.

8. Saturday night (November 12th) and into Sunday morning (November 13th), at the end of the game day, people went out to the bars. [redacted] ran into MOGEN at the Corner Club. MOGEN and GONCALVES were going to leave the bar to go to John's Alley, and asked [redacted] if he wanted to go with them. On the way to John's Alley MOGEN and GONCALVES decided to get food at the Grub Truck instead.

9. [redacted] was at the Grub Truck with them but was hanging out in the back because he was not getting any food. Someone in a silver sedan picked up MOGEN and GONCALVES. He assumed it was one of their friends. [redacted] told MOGEN to have a good night. [redacted] designated driver's shift had already ended at approximately 2:00 AM. [redacted] had a good coat on, so he walked home. He thought it took him 20-30 minutes to walk home from the Grub Truck. [redacted] got home around 3:00 AM and went to bed. [redacted] showed on a map the way he walked home, and the way he described did not pass the residence of the homicide scene.

10. Sunday, November 13th, [redacted] woke up around 10:00 AM to watch NFL football. He left his house and went to "Floyd's", a dispensary across the border in Washington. He couldn't remember if he went to Floyd's before he started watching football, or if he started watching football, then went to Floyd's. He thought it was weird because he drove past the scene on his way to Floyd's and didn't see any police or anything out of the ordinary. [redacted] drove a [redacted]

11. During the morning people called him to see if he knew what was going on down the street at the homicide scene. [redacted] didn't believe them and walked outside to see. [redacted] had to walk down the street to see the residence/homicide scene. There was a rumor of an unconscious person, which seemed believable.

12. During the group chat between the pledge classes from the fraternities and sororities, kids realized people were missing, and something more than a person passed out might have happened. Most of his chats are via Snapchat. Some of the family members of the victims started letting people know about the homicide before the news did.

13. [redacted] heard a lot of people were packing up and leaving. [redacted] felt jumpy even leaving his apartment and walking out to his car. He would be able to do his classes online, so he packed up the next morning (Monday, November 14th) and left.

14. He had only been to the residence where the homicide took place, maybe once. When he did go there, he was pretty sure it was all different people living there. He heard there was a party there earlier that day, that some of his friends went to.

15. [redacted] went to the Corner Club by himself because he had friends who went there and worked there. [redacted] MOGEN, and GONCALVES were the only ones in their group who left the Corner Club and went to the Grub Truck. Of the victims, only MOGEN and GONCALVES were out at the bar. [redacted] believed KERNODLE and CHAPIN were still underage.

16. [redacted] thought the car in front of their house looked similar to the one who picked them up that night. It seemed like a friend that picked them up, not a random person. People usually use designated drivers from their fraternities/sororities. He thought maybe KERNODLE and CHAPIN might have picked MOGEN and GONCALVES up.

17. [redacted] doesn't usually go to parties; he usually goes to the bar. He heard a rumor there was a party at the victim's residence earlier. KERNODLE sometimes would get a little crazy with partying and [redacted]. MOGEN just uses alcohol. GONCALVES, he thought just drank alcohol only. He doesn't remember meeting GONCALVES prior to that night.

18. After the incident he heard rumors of GONCALVES having a stalker. Any girl who belonged to the [redacted] sorority should know about the stalker information. MOGEN and GONCALVES, he believed, both belonged to the [redacted] sorority.

19. [redacted] had an ex-girlfriend he was trying to get back together with. For most of the past few years, he had a girlfriend who went to a different school, so he hadn't been hanging out with a lot of people regularly.

20. [redacted] had no idea who could have committed these homicides. Usually, the craziest thing that happens are people getting MIPs and DUIs.

21. He hadn't heard any rumors about why this could have happened. He thought the only reason someone might have acted out like this is for love.

22. He heard there are videos of him at the Grub Truck with MOGEN and GONCALVES. The Grub Truck live streams video on Twitch TV. News outlets have identified him from that video and have called him.

23. [redacted] left Moscow Monday morning around noon. He travelled home by way of Ontario, Oregon instead of New Meadows, because he doesn't like driving through the mountains.

24. With consent, I collected buccal swabs from [redacted] [redacted] had no apparent injuries to his hands, forearms, head or neck areas.

25. The interview ended at approximately 4:02 PM. For complete details review audio recording of interview.

26. The buccal swabs and the audio recording of the interview were submitted into evidence under Tag# 220004140, as item 1 and item 2, respectively.

9. She described the layout of their residence, and where each of the roommates resided (paraphrased based on [redacted] description of their residence, "when you walk in, there is a door, there is downstairs with a bathroom and [redacted] bedroom; when you walk into the door, there is a hallway with her bedroom and the kitchen and the sliding door, and upstairs is Kaylee's room and a bathroom and Maddie's room; Xana is on the same floor as her bedroom").

10. Initially, she was asked to describe what the girls did on the 12th of November, but she described there was a ball on Friday night, November 11, 2022, a Pi [redacted] Sorority ball, which she briefly attended. She explained she started drinking at 4:30 p.m. on the 11th.

11. She described the individuals at the ball, including all her roommates, as well as Ethan and his [redacted] E [redacted], and their dates who were FIJI Fraternity members, [redacted], [redacted] and [redacted] date, [redacted].

12. Kaylee (Goncalves) was [redacted] date for the ball.

13. [redacted] described how she got home on Friday night, by using an Uber from the Pi [redacted] ball to their residence. She explained she and her roommates normally have [redacted] as their Uber driver, but not on the night of the 11th. She does not remember the name of the Uber driver on Friday night. This was around 8:30 p.m. She explained she and the roommates trust [redacted].

14. She advised the party initially transitioned to the [redacted], but she got bored and wanted to go home. It was she, Maddie and Xana, and Ethan regarding the roommates who attended the ball.

15. Eventually a group from the [redacted] Pi event transitioned to [redacted] and the other roommate's house, and there was a party that continued there until the early morning hours of November 12th (Saturday). She requested to look at her cell phone during this point in the interview to verify the time line. She was advised she could use her cell phone to provide times during her interview.

16. She advised the other individuals that came to the house on Friday night were [redacted], initially she said it was [redacted] but corrected herself to say it was not [redacted] but [redacted] [redacted]) who came to the house, and [redacted] as well as herself. They were consuming large amounts of alcohol and playing music. She went to bed a little after 12:10 a.m., and then added she went to bed sometime between 12:10 a.m. and 12:30 a.m. that morning (November 12th).

17. Eventually she advised Maddie (Mogen) came home, and eventually Kaylee (Goncalves), but she was not certain about where Kaylee was when she went to bed.

18. She then explained on Saturday morning (November 12th), at approximately 12:15 p.m. (she then corrected the time to 11:44 a.m.), the roommates went together to get coffee and the store to get more alcohol. They still

had champagne from the previous weekend, which was she explained was the U of I parent's weekend.

19. She explained the plans for that Saturday night included a [redacted] Kai fraternity party on campus. [redacted] explained Kaylee was not going to this function, because she was a senior and typically seniors do not attended the Fraternity functions on campus because they are old enough to go to the local clubs. [redacted] explained she was going to the [redacted] Kai party. [redacted] further explained at one point Maddie was at this function but left the function to go to the club with Kaylee.

20. They were all at the house together at 5 p.m. on Saturday (November 12th). [redacted] stated Kaylee decided to go and take a nap, and [redacted] Maddie, Xana, [redacted] and she were on the couch watching a movie.

21. [redacted] explained they all were together Saturday afternoon at the house, and they all decided to take naps and each of the girls set their alarms for 8 p.m. [redacted] believes Ethan may have come over to the house at this time but she was not certain if this is the time Ethan came over, or if he showed up at a different time.

22. [redacted] explained she had an assignment due in her Psychology 215 course, so she posted the assignment at approximately 10:12 p.m. She believes she then left the house at approximately 10:30 p.m. (Saturday night).

23. When [redacted] left the house, Kaylee was still there with one of her friends, however, [redacted] does not know the friend's name. She described the friend was female and was nice.

24. After leaving the house, she saw Maddie between their residence and the [redacted], and Maddie was holding a box of White Claws while she was walking towards their house. She advised she talked to Maddie and then [redacted] continued to the [redacted] Kai function. She believed Maddie was going back to their residence to get ready to go to the club with Kaylee. (Sgt. Blaker asked [redacted] to give more details about the route she took when she encountered Maddie and she provided those details in this interview).

25. She explained when she got to the [redacted] Kai function, she wanted to meet up with Xana and [redacted] and she called Xana on her cell phone to find out which apartment they were in, and she was told they were in Apartment [redacted] Others who were at Apartment [redacted] at this time were Ethan, [redacted] Xana,[redacted] [redacted]). [redacted] explained she and [redacted] were going in and out of the fraternity lodge together for part of the night. [redacted] explained there were not a lot of people at this function.

26. She further explained after she met up with [redacted] and the two of them then went to [redacted] apartment.

27. She was with Ethan (Chapin) and Xana during part of the night, and [redacted] explained Ethan had been trying to get in contact with his sister [redacted] because she had been upset about something and he was worried about her, but [redacted] did not know what the issue was. She remembered [redacted] told her brother she had not been answering her cell phone because she had been sleeping.

28. She described Ethan as being very protective of his sister as well as protective with all of the roommates.

29. The group of them then went to visit [redacted] who she had previously met through Xana, and [redacted] was also there, including she, [redacted] and [redacted] [redacted] [redacted] and [redacted] were also there, as well as [redacted] and [redacted] [redacted]).

30. When asked how much alcohol she had consumed, she explained she had been playing "Rage Cage," which she described was a drinking game, and when she awakened from her nap, she consumed three White Claws (with an alcoholic content of 5%). She denied there was any drug use, and stated Xana and Ethan used [redacted] She advised neither Maddie or Kaylee did drugs. She explained she nor [redacted] "never touched that stuff".

31. She described the alcohol used at [redacted] and [redacted] residence, which included [redacted] consuming a whole "borg", in which she also consumed some of the "borg" (Based on a Google search I conducted relative to writing this report, a Borg is an alcoholic beverage which requires taking an empty gallon container and filling it halfway with water, adding vodka and enough MiO to make the taste of vodka disappear. The cocktail is often referred to as a borg, but the nickname doubles as an acronym that stands for the drink's full name: black-out rage gallon).

32. She described [redacted] ([redacted]) as being extremely intoxicated, and that she had continued to

consume alcohol and because of [redacted] intoxicated condition. [redacted] advised she invited [redacted] to come back to her residence with her to watch movies, and because of [redacted] intoxicated condition, she called a Sobro, which she described is a involving a sober Freshman fraternity member who is a designated driver for fraternity and sorority members who are consuming alcohol, to drive them to their homes safely.

33. She advised it was only she and [redacted] that went back to the residence, using the Sobro. She did not believe anyone else was home.

34. When the two of them got home, which she believed was sometime between 1:15 a.m. and 1:30 a.m. (November 13th), she was intoxicated and because of that, she does not remember what time it actually was, but she beleived it was between the two times mentioned.

35. She further advised she made popcorn in the kitchen and she and [redacted] watched "Vampire Diaries" together.

36. Approximately twenty minutes later, [redacted] returned home. The three of them layed down and continued to watch Vampire Diaries. She believes [redacted] may have walked home, and then she advised she does not know what time [redacted] and [redacted] went to bed. She had already gone to bed and does not know when [redacted] may have left or when [redacted] went to bed.

37. At approximately 2:00 or 2:30 a.m., she awakened because Maddie and Kaylee arrived home with Grub Truck food, and they had Mac and Cheese, which [redacted] explained they normally got. All four of them were together, which included [redacted] [redacted] Maddie and Kaylee. [redacted] advised they were taking selfie videos. All the girls talked about getting Grub Truck food. She did not believe Xana and Ethan were home because their bedroom door was open and she did not see them, and she discussed whether she may have been mistaken about this fact, and then she said she was certain she saw their door was open and they were not home.

38. She then went to bed, which she advised was after texting [redacted] the Uber driver.

39. [redacted] looked at her phone to determine what time she had texted [redacted] the Uber driver, and said her phone said 3:10 a.m., but after further discussion, [redacted] admitted she was some confused about whether she was using Moscow time or Boise time, and [redacted] explained her time line may be off by an hour because of this issue (specifically during this interview referencing Boise time instead of providing the time it would have been in Moscow when these events were occurring on the 13th of November).

40. She explained she uses Snap Chat as well as her cell phone to communicate with her friends. She advised if there is lack of texted communications on her cell phone, it is because she had transitioned to using the Snap Chat app for her method of communication. She advised her log in information with Snap Chat is [redacted], and her password is either [redacted] She denied knowing her roommate's passwords to their cell phones.

41. While they were together, they talked about ordering Grub Truck and she then texted [redacted] the Uber driver, at approximately 3:10 a.m. She explained she texted to [redacted] "Are you driving by chance?".

42. At approximately 3:13 a.m., [redacted] texted her back. She then went to bed. She does not believe [redacted] ever came to their house because she never responded to his text about the fact that he was still driving.

43. She advised [redacted] the Uber driver, is in his 30's, is married and has one child. She advised all of the girls knew him and liked him.

44. [redacted] advised she is not certain if she stayed awake to watch more Vampire Diaries episodes, or if she went to sleep. She was not certain if she locked her bedroom door, and she was not certain if she locked the sliding door, because she was the one who usually did, but she also volunteered in her statement that she believed Moscow was a safe place so the sliding door was not always locked.

45. She does not remember if anyone locked the sliding glass door before she went to bed. She was the first to go to bed ahead of the other roommates.

46. She explained that she previously has had a lot of dreams where she had been kidnapped in her dreams, and

she further explained these types of dreams started in high school, and she knew they were dreams and she would let those things happen in her dreams because she realized they were dreams. She advised she does not suffer from anxiety and denied prior life trauma other than divorced parents.

47. [redacted] explained she was awakened to a noise sometime between 4:00 a.m. and 4:20 a.m.

48. She was asked to explain the amount of alcohol she had consumed before going to bed, and she again explained while she was playing Rage Cage, which included the White Claws, part of [redacted]Borg, and maybe two or three more drinks (White Claws) at [redacted] house. She denied drinking after she left [redacted] house. She advised she had been consuming the alcohol until approximately 1:15 to 1:30 a.m. on Sunday morning. She denied drinking anymore alcohol after she and [redacted] got back to her residence.

49. At 4:22 a.m. (she confirmed this information by looking at the texted communication on a cell phone), she texted Kaylee asking her "what's going on?" She advised her phone said 5:22 a.m., which she advised would have been 4:22 a.m. Moscow time.

50. She advised around 4:00 a.m. or 4:20 a.m., she heard Kaylee singing and playing music. She heard who she believed Kaylee walking up the stairs and [redacted] advised she heard Kaylee say "someone's here," and she sounded frantic. [redacted]described Kaylee's tone as somewhere between talking and yelling it. She believed it was Kaylee who was walking up the stairs with Murphy.

51. She said she heard who she believed to be Kaylee running down the stairs. She advised Murphy was barking at this time.

52. [redacted] advised she has been [redacted]

53. She does not believe Murphy is normally a barker.

54. She further stated she believed it was Kaylee who was running down the stairs after she heard her say "someone is here". She further explained she does not know if she actually heard this, or whether she was drunk and did not actually hear any of this. She heard the footsteps of who she believed to be Kaylee. She explained all the girls wear Doc Martens and that is what she believed she was hearing Kaylee coming down the stairs wearing her Doc Martens because of the sound of the footsteps coming down the stairs.

55. [redacted] called [redacted] at 4:19 a.m. Then Xana at 4:20 a.m., Kaylee at 4:20 a.m., and then [redacted] again at 4:20 a.m. [redacted] advised [redacted]told her about seeing fireworks. She texted [redacted] a last time at 4:27 a.m. before she went to [redacted] room.

56. [redacted] then explained when she first opened her door, and she said she did not see anyone.

57. The second time when she opened her door, she heard who she believed to be Kaylee crying and [redacted] believed Kaylee was in the second floor bathroom. She then heard a male voice, which she stated she had never heard before, say "It's okay, I'm going to help you". [redacted] believed the unidentified male was in the bathroom and with the person who was crying. She believes it was Kaylee who was the one crying. [redacted] steated that now she has gathered additional information, she now believes it was probably Xana who was crying. At the moment of hearing the crying, she stated she believed it was Kaylee who was crying. She advised she knows the male's voice was not Ethan's voice.

58. She described the last episode of Vampire Diaries and she remembered it was two males rescuing a female. She explained it was not violent. She advised the male figure in the last episode was wearing all black, but [redacted] explained that was normal for the series.

59. She is not certain whether she heard Murphy barking during the first time she opened her door, but she advised it was possible he was barking but Murphy was moving away from the house. She described Murphy was a puppy and [redacted] had just met him in August. She could not describe Murphy as being skiddish.

60. She advised she opened and closed her door a total of three times, and the fourth time is when she left her

bedroom to go downstairs to [redacted] bedroom.

61. [redacted] advised she continued to call and text her roommates but received no answers. She provided the times she called and texted her roommates, and the time span she advised would have been between 4:20 a.m. to 4:27 a.m. She advised she never thought about an intruder, and in her mind, she stated she was not processing what was occurring as threatening.

62. She advised she believed the male was directing his conversation of who she believed was Kaylee. She advised she did not believe the male was directing that statement to her.

63. In discussing why the offender did not harm her, it was discussed that it was possible the male knew her and wanted to protect her, and she said she understood that was possible, but she denied knowing who the suspect was.

64. [redacted] further explained she Snap Chatted Ethan but received no answer from Ethan. [redacted] thought Ethan was still either at [redacted] Kai or was at home, she was not certain.

65. The third time [redacted] opened her door, she said her vision was blurry, or fuzzy, but she advised she saw a figure of someone that was dressed in all black, and they were masked and he was holding an item of what she initially perceived was a vacuum, but she said that did not make sense to her. She described the suspect as not being muscular, but being skinny and toned, like a basketball player. She further described him as being taller than her 5'10" frame by at least 3", so he would have been 6' in height. She advised he had to have heard her call Kaylee and Xana and she thought he would have had to have heard her calling for them and she was confused as to why he did not come to her room.

66. She described the item the suspect was holding, which she advised was like a cylinder, and she remembered a "cop" talking about a bow, so she was trying to ascertain if what she saw was in fact shaped like a bow. [redacted] further stated she thought that maybe it was a firefighter because of what [redacted] told her about seeing a firecracker. She advised he would have been approximately 3' away from her and she believed she saw him walking out the back, sliding-glass door. He he had looked at her before walking out the back door. She was not certain if he could see her whole body or just her head.

67. At 4:22 a.m., then [redacted] corrected her time and stated at 4:23 a.m., she advised she texted [redacted] and they conversed about someone wearing all black, and [redacted] said something to the effect of "What the fuck, why is Xana wearing all black". [redacted] explained she was not certain if she had been dreaming this or if it was real.

68. [redacted] explained she saw the suspect holding something she believed to be cylinder shaped and also shaped like a triangle at the bottom of the cylinder shape. She advised the suspect was approximately 3' away from her and he looked at her but was walking out the sliding door when she saw him. She said she saw his eyebrows.

69. At approximately 4:23 a.m., she texted [redacted] to tell her she saw a masked suspect in their house.

70. [redacted] responded at approximately 4:25 a.m. telling her to come to her [redacted] bedroom and that "it's better than being alone." [redacted] then left her bedroom after opening her door the fourth time and ran to [redacted] bedroom downstairs.

71. [redacted] advised when she left her bedroom, she looked down the hallway to Xana's bedroom and could see Xana lying on her back in her underwear, but she thought at the time Xana was passed out. [redacted] stated she never went into Xana's bedroom, and she could only see Xana from the hallway as she was running to get to [redacted] bedroom. She advised she was too scared to go into Xana's room, and she knew [redacted] was awake, and she knew to go there because she was scared. She saw Xana was wearing her underwear, and she explained Xana was comfortable enough with the roommates that she would wear her underwear around them, so this was not unusual.

72. When asked about the lighting conditions inside the residence, she advised that possibly Xana's light was on, or the party lights were on and that is how she was able to see Xana because otherwise she would not have been able to see her lying on the floor without any lights being on. She was not certain if the bathroom lights were on but she was not certain what lights were on if any. She advised Xana did not say anything. [redacted] stated she did

not think anything was wrong. She later offered she may have been able to see Xana lying on the floor because they also had a Scentsy light and it could have been she was able to see Xana from the Scentsy light.

73. She explained she has been trying to determine what was real from everything that she had been talking about with Sgt. Blaker and myself. She advised she knew the time with [redacted] Kaylee, and Maddie were real because she has the video of them together. She was not certain how [redacted] ([redacted] got home that day).

74. She further explained she has been trying to piece things together because some things do not make sense to her.

75. She stated that she is being truthful, but some of what she has been discussing, she is not certain is factual. She has been working through it to try to remember what happened.

76. [redacted] was asked if the female who was crying was saying anything, and she advised no, the female was only crying and the male was the only one talking.

77. She described the item the suspect was holding was cylinder-shaped, and was also triangular-shaped. She could not remember if the lights were on or off when she encountered the male suspect. She advised she does not know if this is even something she saw or it was something she dreamed.

78. She advised the last time she saw Xana was at [redacted] house at approximately 11:04 p.m. [redacted] confirmed this by checking her cell phone). Xana had been holding a White Claw. She was at [redacted] at [redacted] at 12:49 a.m.

79. She further advised Xana and Ethan did not stay at Ethan's house with any frequency. Because of Ethan's grades, he could not reside at the fraternity. He had his own apartment, but she does not know where his apartment is because she had never been there.

80. She knows Kaylee and Maddie were home when she went to bed, and [redacted] and from when she saw Xana lying on the floor, but she was not certain about whether Ethan was home.

81. She advised she left [redacted] and [redacted] house at approximately 12:49 a.m. to return home.

82. [redacted] stated she is certain at 3:11 a.m. (which through discussion might have been 2:11 a.m. Moscow time), [redacted] Kaylee, Maddie and she were all in the house. She was not certain about Xana and Ethan because she does not know when they came home.

83. She denied perceiving a threat, even after encountering the male in the hallway. She said there were people coming in and out of their house all the time. She denied remembering what his face looked like, and said she could see that his head and mouth were covered, but she could see his eyebrows, and further advised she was not certain she could see his nose. When asked if she knew what a balaclava was, and she said no, so I asked Sgt. Blaker to show [redacted] a picture of a balaclava from his cell phone, and upon looking at a picture of a balaclava, she said it "could have been, that could have been it." She does not remember seeing his mouth or nose, but she could see his eyebrows.

84. When asked if any of her roommates told her about prior incidents involving anything that concerned them, and she advised Kaylee had told them ([redacted] and the other roommates) about an incident a month prior when she was outside with Murphy about a subject who had been watching her. This subject was in the apartments above the girls' residence.

85. [redacted] further explained that two to three weeks ago, while at Winco, Kaylee told her about a male subject who followed her from the Winco store all the way to Kaylee's car, even when Kaylee went to leave, the subject was standing by Kaylee's car.

86. Also, two to three weeks ago, all of the roommates went to Starbuck's together and when they got home, their front door was wide-open, and they do not believe it had been open when they left. She explained there were prior issues with the front door, so she said it was possible the door opened because there had been a snow storm and she explained possibly the wind caused the door to open. Also, when they got home the washer was going, which she described was not unusual, but this also concerned her. She explained because of these things, they

Narrative

went to get Ethan's golf clubs to protect themselves when they searched the house.

87. [redacted] explained weeks prior to the 13th, Kaylee told the roommates she heard a woman scream, but no one else heard it.

88. [redacted] was asked if she was telling either Sgt. Blaker or I anything to prevent us from solving this and she advised no, that she understood my question, and she advised that she knew she did not sleep through the whole incident because she has texted communications and other things that she knows would have required her to be awake. She advised she knows what she heard, especially about hearing who she believed was Kaylee crying and the male voice telling her he was there for her. She stated again she does not know how much of what she had been telling us was not factual because she is still processing the events.

89. When asked why she believes she was spared after the male suspect saw her, she said she does not know why, and she does not believe anyone ever tried to open her door during the time he was in the house, and he could have easily have done so, and why he would have passed by her room multiple times, she volunteered that to come through the sliding glass door, the person would have had to have scaled a tall wall. She advised the suspect would have known her room would have been occupied because he appeared to have known the layout of the house. She also said it could have been someone who was in the house last year when other girls were living in the house.

90. She advised there was no one she knows who would have wanted to hurt the girls, and the girls were loved by everyone. She said she had never heard even rumors which were negative about any of the victims.

91. When asked about Kaylee's ex-boyfriend, [redacted] advised the break-up was mutual and they have their dog Murphy in common, and [redacted] comes to their residence and plays with Murphy, and he and Kaylee continued to be friends. When asked if they "co-parented" Murphy, she said yes. Kaylee told her the relationship with [redacted] had run it's course. [redacted] thought [redacted] had handled the break-up well because everytime he came to their house, there did not seem to be an issue.

92. [redacted] brought up the name [redacted] but she mispronounced his last name during the interview, as someone she and the others believed might be involved, but she was reluctant to say he was a suspect because she knows how damaging to his reputation that could be if he were not involved. She advised she was told by [redacted]), Xana's best friend, that [redacted] once punched a friend of theirs, [redacted] in the stomach last year, but [redacted] did not know the circumstances as to why.

93. [redacted] advised that recently Kaylee started talking to [redacted] [redacted] seemed okay with that.

94. [redacted] offered her DNA. (Sgt. Blaker secured a swab from [redacted] at the conclusion of the interview). She advised there might be difficult to locate the offender's DNA because they had conducted a deep clean of their residence leading up to the parent's weekend. When asked about when the deep clean of the residence occurred, it would have been before the weekend of the crimes.

95. She was advised there was evidence left in the residence and she sighed and said she was glad to hear that there was evidence found at the scene.

96. She explained her [redacted] [redacted].

97. When asked if she would be able to provide a description to a police composite artist, she said she would not be able to describe enough of the suspect to be helpful. She further advised the only thing she remembered about his face was that his eyebrows were bushy.

98. She advised she was confused about why the offender would have taken the patio door out of the residence because of the drop off from the patio.

99. She advised she remembered that cars do come by their residence a lot, and she said there was a black truck driving past [redacted] window, and she further said she was not absolutely certain it was a black truck, but there was a vehicle that went by their residence and she could see the taillights but she did not remember if the headlights were on, but what drew her attention to it was the red lights on the back of the truck, and when asked if

she meant brake lights, she said yes.

100. When asked what occurred after she went into [redacted] bedroom, she said they eventually fell asleep, and when she awakened, she was lying next to [redacted] in [redacted] bed.

101. She advised a friend of theirs, [redacted] and [redacted] mother are planning a memorial event and that has helped her emotionally. She advised [redacted] is crying a lot over this, but she has not been crying and [redacted] [redacted] has explained to her why she has not been showing emotions.

102. She explained [redacted] used the word dissociate to describe her emotions.

103. When she awakened that morning, [redacted] was next to her in bed. They were both too scared to leave [redacted] room to even go to the bathroom.

104. She advised at approximately 11:23 a.m., [redacted] then corrected the time to 10:23 a.m. (Moscow time), [redacted] said she texted Maddie asking her if she was up.

105. At 11:29 a.m. (Moscow time), [redacted] texted Kaylee, "are you up?" She could tell her Snap Chats were not being read when she was texting them through Snap Chat.

106. [redacted] advised she called [redacted], one of her closest friends, about what happened that night with the masked man.

107. [redacted] then explained when she reached out to [redacted] in the text message, which [redacted] told her was at 10:50 a.m., but she thinks [redacted] was mistaken, [redacted] told her she would send [redacted] [redacted] to their house because of their concerns about what had occurred during the night. When [redacted] got to the house, which she described was before Noon, she is not certain if he came in through an unlocked front door or had to use the code to the front door to get into the residence, and when he got into the house, he asked about the location of a knife, and she directed him to a knife.

108. She advised she initially went upstairs from [redacted] bedroom with [redacted] and she advised when she saw Xana, she realized Xana had not moved since she saw her earlier. She was still thinking Xana was still passed out from being drunk. [redacted] then sent [redacted] downstairs. She advised [redacted] and [redacted] came over after [redacted] came to the house, because she had asked them to come to the house. She advised [redacted] then came downstairs and she could tell by his facial expression he had seen something, and he told them to call 911. [redacted] was the one to call 911, and [redacted] at one point said she was on the phone with Police Dispatch and the dispatcher was asking her about a defibrillator. They told Dispatch there were people unconscious. [redacted] denied seeing Xana or any of the other victim's bodies.

109. She advised they stayed in the house when the police arrived and they (the police) were putting the tape up, when they realized there had been a crime, and when they saw the ambulance arrive and leave, [redacted] told them they would not leave unless there was no reason to stay. She then advised the Vandal Alert came out, and that is when they realized their friends were actually gone.

110. She advised they all realized there had actually been a murder committed in their residence.

111. She said Kaylee had a balcony and she remembered looking at the pictures in the news, and Kaylee's curtains were all messed up. She thought the distance of the balcony to the ground may have been too much, and brought too much attention if that is how the suspect made entry into the house through Kaylee's bedroom.

112. When asked if she checked the house for anyone else when she initially came home for the night (with [redacted] and she was asked if she had to unlock the front door, and she advised she believes she had to unlock the front door to get into their residence. She advised when she first got home, she remembered the sliding door was closed, but she did not know if it was locked. She advised when she first got home, she went to Kaylee's bedroom to let Murphy out of Kaylee's room, and Kaylee's lights were on, and no one was in Kaylee's bedroom. Murphy came back into the house after going outside.

113. Sgt. Blaker asked [redacted] about the log-in and user name for the router of the WiFi at the residence, and [redacted] advised Kaylee was responsible for that bill. She further explained she nor [redacted] were responsible for

Narrative

the WiFi bill because they had just moved into the residence in August.

Narrative

1. On November 18th, 2022, at approximately 11:55 A.M., Idaho State Police Detective Chris Pohanka and I interviewed [redacted] [redacted] The interview took place at [redacted] residence, located at [redacted], Buhl ID 83316.

2. [redacted] relayed to us the following:

3. He is roommates with [redacted] [redacted]

4. He has known Kaylee since Freshman year. They were in the same pledge class. So, they've hung out together periodically over the last four years. He has visited her house in Coeur D'Alene once.

5. He knew Xana as well but not as well as Kaylee. He also knew Maddie as well but they didn't hang out a lot.

6. Kaylee and [redacted] [redacted] had been dating since high school. They're on and off and have broken up twice. They had recently broken up because she accepted a job in Dallas. So, they were settling things before she left after the semester. They broke up about two months ago.

Narrative

7. He never heard from Kaylee about anyone stalking her or giving her bad vibes.

8. He had heard there was someone following her out of Winco a couple months ago. He heard from friends she had someone follow her out of the Winco to her car. He heard that story from [redacted] [redacted] (a sorority sister of Kaylee's). [redacted] is in California right now and her phone number is [redacted].

9. He works at [redacted] in Moscow so he saw Kaylee, Maddie, and [redacted] [redacted] leave [redacted] together that night. That was the last time he saw them.

10. They said they were going to John's Alley and were trying to get some friends to go with them. They didn't end up going there though. He didn't know where they were before they showed up at [redacted].

11. He had seen Xana at some parties but didn't really know her very personally. He tried to recruit Ethan into his fraternity, but otherwise didn't really know him.

12. He doesn't know of anyone who might have wanted to hurt any of them. They were all really nice people.

13. [redacted] wouldn't have harmed Kaylee. He loves her and thought they would be married. They have a great relationship even when they were not together. He is a calm and kind person. He's into sports, not an outdoorsman. He doesn't have a knife. He has never heard [redacted] even say anything bad about Kaylee.

14. There is an apartment complex behind the victim's house that has a lot of "sketchy" people in it. There are registered sex offenders living in it. That place is behind [redacted] [redacted] apartments. There are windows facing the girls' house and it's adjacent to it. It's a brown brick apartment complex.

Narrative

1. On November 18, 2022, at approximately 12:28 P.M., Idaho State Police Detective Sergeant David Cortez and I, Detective Chris Pohanka, interviewed [redacted] [redacted] [redacted] The interview took place [redacted] in Buhl, Twin Falls County, Idaho.

2. I called and arranged with [redacted] to come speak with her about the homicide in Moscow, Idaho.

3. I asked [redacted] how she knew the victims in Moscow. [redacted] explained how Kaylee (GONCALVES, victim) belonged to the [redacted] Sorority. GONCALVES resigned from the Sorority, [redacted] and GONCALVES still remained friend. "Madi" (Madison MOGEN, victim) was one of GONCALVES best friends.

Narrative

MOGEN was in classes with [redacted] friend "[redacted] [redacted] [redacted] The girls would work on group projects at [redacted] Sorority. [redacted] knew Xana KERNODLE (victim) through mutual friends and knew Ethan CHAPIN (victim) the same way.

4. [redacted] is still in the Sorority but does not live in the Sorority house. [redacted] lives in a house which overlooks the back yard of GONCLAVES. [redacted] describes how her room looks directly to the sliding door of GONCLAVES house.

5. I asked [redacted] if she was around the victims the night of the homicide. [redacted] was with her friends [redacted] and [redacted] and began their night at John's Alley (114 E 6th Street, Moscow, Idaho). [redacted] took a phone call from GONCALVES to come down to the Corner Club (202 N. Main Street, Moscow, Idaho). [redacted] and her friends went to the club. [redacted] friends slowly left from there and went back to their houses. GONCLAVES and MOGEN were still at the club with [redacted] GONCALVES and [redacted] were planning on going to John's Alley to continue the evening. [redacted] was talking to another friend and noticed GONCALVES and MOGEN had left. [redacted] went to Grub Truck (Grub Wandering Kitchen, no set location, Moscow area), and believed she was about a half hour behind GONCALVES and MOGEN at the truck. [redacted] even had the same LYFT driver as GONCALVES and MOGEN.

6. Sergeant Cortez asked if she had any further contact with the girls and she didn't. [redacted] and [redacted] fell asleep in [redacted] room. She went to [redacted] room for the night. She thought she remembered hearing music but was not sure. She would have been able to hear if they were having a party.

7. [redacted] got a video from her friend [redacted] of [redacted] on her bed snoring. [redacted] tried to listen to the video to see if she could hear anything in the background and she couldn't.

8. Sergeant Cortez asked if she was aware of where they were before the Corner Club. [redacted] thought they might have come from their house. Thursday night GONCLAVES wanted them to go out. Saturday night everyone was out. She said the girls usually like getting ready together.

9. Sergeant Cortez asked if she was aware of where they were Friday and she remembered there was a game. She thought a couple of them went to the game but was not sure. A couple of them went out later.

10. Sergeant Cortez asked if she knew where they were Friday and [redacted] knew Thursday night was asleep over night at the [redacted] house. GONCALVES was not able to attend since she resigned from the sorority. She thought GONCALVES was in Coeur d'Alene, Idaho and she told her to come back. She thought GONCALVES came back Friday and showed people her car. She did not believe they did anything Friday night.

11. Sergeant Cortez asked is GONCALVES ever mentioned anything about a stalker. [redacted] described GONCALVES as a person who would just joke things off. She believed there could have been a time where she mentioned something. When recruitment for the sorority was over, GONCALVES went over to [redacted] house. They were talking and catching up. She thought she mentioned something, but GONCALVES pushed it off as a joke. She could not remember anything specific from the conversation since it didn't seem like a big deal. [redacted] thought if GONCALVES would tell anyone about something strange like a stalker, would be her ex-boyfriend [redacted] or MOGEN. [redacted] and GONCALVES grew up together and shared a dog, "Murphy" together.

12. Sergeant Cortez asked [redacted] if GONCAVLES said anything once her and [redacted] broke up if he would want to hurt her. GONCALVES described [redacted] to her as, "Her child" and was not a serious guy. [redacted] was in [redacted] Fraternity, and they all hung out together since they lived next door. She describes GONCLAVES and [redacted] as a "brother and sister" relationship. They shared Murphy the dog. Sergeant Cortez asked her if she thought [redacted] would do anything to hurt her and she believed he would never do anything to hurt her. [redacted] was described as, "A city guy" and she did not think he did a lot outdoors. He was from the Coeur d'Alene area and grew up with sisters.

13. Sergeant Cortez asked [redacted] if she knew anyone that might have wanted to hurt them in their circle of friends, she said, "Their circle is interesting and that's where it kinda stumps everyone...... Because this group of people would probably never have been friends if it wasn't for the housing situation". All of the roommates friends would meet each other and have friends hang out with friends.

Narrative

14. Sergeant Cortez asked if there was any mention of strangers around the house, [redacted] spoke about one of the prior tenants to the house. The house had a weird feeling to it however it was from several months ago.

15. Sergeant Cortez asked her if she heard anything the night of the homicide and she normally would. They were referred to as the "party house" and would normally hang out in the back yard and play loud music. The night of the homicide, everyone had gone elsewhere to hang out. The sliding back door was considered the front door to the people who would visit. She didn't know if the back door was locked or unlocked. [redacted] talked about how the kitchen area/ living area was the main place for them to hang out. The door was usually open for people.

16. She did not know of any large knives in the house.

17. Sergeant Cortez asked [redacted] if GONCLAVES told her about someone following her at the WinCo. She had not heard anything of the story.

18. Sergeant Cortez asked [redacted] if she knew of anyone we should talk to and she was having a hard time recalling anything. She talked how GONCLAVES and her would go out randomly and could not think of anyone to talk to.

19. Sergeant Cortez asked her if she knew of anyone GONCLAVES was romantically involved with after [redacted] [redacted] named [redacted] [redacted] and a [redacted] [redacted] who are both "[redacted] She did not have any contact information. She did not believe any of the males mentioned would have anything to do with the homicide.

20. I told her if she can think of anything to assist the investigation to call. She mentioned how she would hear the dog "Murphy" bark and she never heard him bark that night. [redacted] had the television on and thought she had gone to bed around "3:30 A.M.". She would be able to hear anything going on in the house since the windows are really thing. [redacted] could even hear conversations in the back yard.

21. Sergeant Cortez asked if the other roommates would have anyone who would want to hurt them. She thought everyone in the house were amazing people. GONCLAVES boyfriend [redacted] [redacted] was in Boise. She spoke very highly of him. KERNODLE and CHAPIN were in a newer relationship and usually partied with the [redacted] KERNODLE knew a lot of people and did not have any enemies.

22. [redacted] and her friends created Instagram accounts and have their profiles private. Lately they have been getting a lot of traffic. She added people can make a fake profile and it would be an easy way to stalk people. She mentioned a profile which had a pretty girl as the profile picture. The profile had been around for a long time. The name on the profile was [redacted] [redacted] she did not know if the profile was real or fake.

23. At approximately 12:55 P.M., we concluded the interview.

She stayed at the Corner Club until approximately 2:00 AM and arrived home at approximately 2:30 AM. She was up until approximately 3:30 AM, and did not hear anything.

6. She woke up Sunday morning at approximately 7:30 AM. She had been in a different room than her own. She and roommates made breakfast around 8:30 AM. Later when she went to her room, she could see a lot of police cars next door.

7. She spoke with [redacted] (the Uber driver), who told her he was pretty sure he had taken MOGEN and GONCALVES home that night. [redacted] drove a smaller gray sedan.

8. GONCALVES old room, was the room KERNODLE was living in. GONCALVES recently moved into the room on the 3rd floor after [redacted] [redacted] said she was not moving back in.

9. GONCALVES did not seem at all worried about a stalker, or any other dangers. She thought GONCALVES would have said something if there was a real stalker. GONCALVES would have been scared if she had a stalker, instead GONCALVES was planning events for them all the time.

10. Her bedroom window looks out onto 1122 King Road's backyard. She can usually hear anything going on in their backyard. Murphy, the dog at 1122 King Road, usually barks a little bit, and she can generally hear it, which she didn't recall happening that night.

11. She had booked tickets with GONCALVES to go to Europe together, approximately 3 weeks prior to the homicides. GONCALVES had recently sold a white Subaru sedan for approximately $6,300 to a man using Facebook Marketplace. GONCALVES had just purchased the Range Rover the previous day. GONCALVES was making good money, but a Range Rover seemed expensive. GONCALVES was recently offering to buy drinks for friends quite often.

12. GONCALVES had planned to move to Texas and had a temporary male roommate arranged down there.

13. GONCALVES had an ex-boyfriend [redacted] [redacted] who is [redacted] neighbor. GONCALVES and [redacted] dated for approximately 6 years. GONCALVES and [redacted] dated all summer while GONCALVES was up in Moscow working. GONCALVES and [redacted] were not together but were good friends. GONCALVES and [redacted] shared a dog, "Murphy" together. MOGEN had a boyfriend [redacted] [redacted] in Boise, who was friends with a lot of [redacted] friends who had graduated.

14. GONCALVES stayed in her old room while she was living in Moscow all summer. GONCALVES only had one roommate during the summer, [redacted] [redacted] GONCALVES worked for [redacted] and ended up getting a full-time offer starting February 2023. She does not think GONCALVES went out much during the summer. [redacted] had just graduated and stayed in Moscow for the summer.

15. She did not think [redacted] [redacted] had anything to do with the incident. [redacted] showed a video from a party earlier on game day, which showed what [redacted] was wearing, which appeared to be the same as a person from a video from the Grub Truck. [redacted] remembers, GONCALVES and MOGEN saying they were going

Narrative

to John's Alley, and [redacted] [redacted] was going to go with them.

16. [redacted] was not good friends with GONCALVES and MOGEN, but MOGEN is kind of friends with a lot of the people involved with the Greek houses. [redacted] is in the same pledge class year as [redacted] GONCALVES, and MOGEN, and has been in a lot of their classes.

17. [redacted] [redacted] showed a screen shot of a group message obtained by [redacted] [redacted] [redacted] [redacted] The author of the message seemed to know a lot of information regarding the homicides.

18. [redacted] [redacted] had read some creepy comments on YouTube and obtained screen shots of some of them. [redacted] [redacted] turned over a flash drive with some of the comments.

19. She did not believe there was a party at 1122 King Road on Saturday (game day).

20. People often used the sliding door as the main entrance for the house. She does not think it was usually locked.

21. GONCALVES and MOGEN didn't use drugs. She didn't know KERNODLE well enough to comment on her.

22. The neighbor's dogs behind them also did not bark at anything that night.

23. The interview ended at approximately 11:53 AM. For complete details, review audio recording of the interview. The audio recording was copied onto a flash drive and submitted into evidence under Tag# 220004195, item 1.

Narrative

1. On November 18, 2022, at approximately 11:36 AM, Homeland Security Investigations Task Force Officer (TFO) Sage Collins and I, Idaho State Police Detective Matt Wernsing, interviewed [redacted] [redacted] [redacted] (DOB [redacted]/2000) in regard to the homicide of Kaylee GONCALVES, Madison MOGEN, Xana KERNODLE, and Ethan CHAPIN. The interview took place at [redacted] home, located at [redacted] in Parma, Canyon County, Idaho. The following is summary of [redacted] statement:

2. [redacted] was a friend of GONCALVES and MOGEN and was also their neighbor across the street at [redacted] King Rd in Moscow, Latah County, Idaho. He did not know the other two victims. GONCALVES was in an on-and-off dating relationship with one of [redacted] roommates [redacted] [redacted] [redacted] and [redacted] were in the same fraternity. [redacted] also knew MOGEN's boyfriend, but he had graduated and was living in Boise. He knew GONCALVES a little more than MOGEN because she had dated [redacted] and he said their relationship remained amicable.

3. [redacted] and his girlfriend [redacted] [redacted] were at his house on Saturday, November 12. [redacted] went to the victims' house around 10:00 PM. At approximately 10:45 PM, [redacted] GONCALVES, and MOGEN got a ride to the Corner Club bar, located at 202 N Main St in Moscow. [redacted] believed they got a ride from an Uber driver named [redacted] He and his friends went to the Corner Club shortly after the girls left.

4. After approximately an hour, [redacted] spoke with GONCALVES and MOGEN briefly while at the Corner Club before they left. [redacted] told [redacted] the two girls were going to John's Alley Tavern, located at 114 E 6th St in Moscow.

5. [redacted] saw they were hanging out with another student he identified as [redacted] [redacted] and saw them leave the Corner Club with [redacted] [redacted] told [redacted] the two girls did not typically hang out with [redacted] and [redacted] thought it was odd.

6. [redacted] and [redacted] walked to [redacted] house at approximately 1:30 AM and stayed there. They woke up the next morning, Sunday, November 13, went and got breakfast, and [redacted] drove [redacted] to his house at approximately 11:45 AM. There was only one Police vehicle in front of the residence when they drove by. [redacted] went outside with [redacted] and another roommate, [redacted] [redacted] and watched more law enforcement respond to the scene. [redacted] ran to the victim's house and was there for approximately an hour and a half before returning. [redacted] was visibly upset and told [redacted] and [redacted] some of the girls had died and GONCALVES was one of them.

7. [redacted] left Moscow later on Sunday.

8. [redacted] clarified he and [redacted] went to the Grub Truck on their way from the Corner Club to [redacted] house. He also saw on social media GONCALVES and MOGEN went to the Grub Truck after he [redacted] were there. [redacted] thought they may have been at the Grub Truck between 3-3:30 AM based on when they posted to their social media. The Grub Truck broadcasted a live feed that captured the two girls at the truck.

9. [redacted] thought it was odd that [redacted] spent so much time around the two girls.

10. [redacted] had heard [redacted] may have committed the murder, but said [redacted] went home with their other roommates [redacted] and [redacted] [redacted] when he and [redacted] left the Corner Club. [redacted] fourth roommate [redacted] [redacted] worked at [redacted], but would have gone home around 4 AM after closing down [redacted] There were also two more students that lived above [redacted] [redacted] [redacted] and [redacted] [redacted] that were hanging out with [redacted] [redacted] and [redacted] before they all went to bed.

11. [redacted] told [redacted] he had been woken up between 4-4:45 AM because [redacted] and GONCALVES's dog had been barking very loudly and uncontrollably. It sounded as though the dog was outside, which was odd because of how cold it was and the dog not being an "outside dog."

12. [redacted] did not know the two roommates that were not injured and found it odd that they were sitting in their rooms and slept through the incident.

13. [redacted] was not aware of any of the victims had a stalker. He mentioned a stalker from earlier in the year

Narrative

that lived in [redacted]" apartments that had already been reported to the police.

14. The interview was concluded at 12:09 PM. For further details from [redacted] statement, see notes and listen to audio recording of interview.

Narrative

1. On November 18, 2022, at approximately 12:16 PM, Homeland Security Investigations Task Force Officer (TFO) Sage Collins and I, Idaho State Police Detective Matt Wernsing, interviewed [redacted] [redacted] (DOB [redacted]/2001) in regard to the homicide of Kaylee GONCALVES, Madison MOGEN, Xana KERNODLE, and Ethan CHAPIN. The interview took place at [redacted] boyfriend [redacted] [redacted] home, located a[redacted] [redacted]n Parma, Canyon County, Idaho. The following is a summary of [redacted] statement:

2. On Saturday, November 12, 2022, [redacted] was at [redacted] college house, located at [redacted] King Rd in Moscow, Latah County, Idaho. She called GONCALVES at approximately 10:00 PM and went over to her house. MOGEN came home from the [redacted] house shortly after.

3. GONCALVES had contacted a man by the name of [redacted] to give them a ride from their house. [redacted] did not know [redacted] last name, but provided his phone number as [redacted]. When [redacted] arrived to pick them up, GONCALVES got in the front seat and [redacted] and MOGEN got in the back seat. [redacted] had recently had a baby and [redacted] asked him "how fatherhood was." [redacted] said [redacted] was feeling down about it and let out a big sigh. He said it was harder than he'd expected and had been kind of hard on him. He also said his wife and kid were out of town and he was excited to have the house to himself for the weekend. [redacted] dropped the girls off at the Corner Club and told them he would be driving until about 3 AM.

4. [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] and [redacted] [redacted] were friends of the girls and were already at the bar. [redacted] told [redacted] he would also go to the Corner Club.

5. [redacted] and [redacted] shared a class with a guy named [redacted] [redacted] who was also at the Corner Club. [redacted] began creeping [redacted] out by staring at her and making comments to her. [redacted] also spoke to [redacted] saying he needed "to get her ([redacted] god damn phone number right now" and was being kind of aggressive. [redacted] hung around the girls at the bar for a while.

6. [redacted] said GONCALVES and MOGEN left to go to John's Alley in Moscow and heard [redacted] [redacted] went with them. She didn't see him leave with the girls, but thought it would be weird if it was true. The girls had apparently asked [redacted] [redacted] to go with them as well, but he stayed at the Corner Club.

7. [redacted] left the Corner Club with [redacted] at approximately 1:15 AM and went to the Grub Truck. They got food at the Grub Truck and went to [redacted] house at [redacted] in Moscow to eat and go to bed.

8. I asked [redacted] why it would have been odd for the girls to leave with [redacted] She said [redacted] was not someone she or the other girls hung out with because he was weird. He smoked a lot of pot, had a temper and fought a lot. The girls knew [redacted] because he was a '[redacted] or a member of the [redacted] fraternity. MOGEN's boyfriend was also a '[redacted] and the sororities would often hang out with the '[redacted]

9. GONCALVES and MOGEN had sent videos of themselves at the Grub Truck to a Snapchat group around 2 AM.

10. [redacted] had not heard of GONCALVES having a stalker. She said the victims were pretty well liked and did not know of any issues the victims had with anyone.

11. [redacted] thought [redacted] [redacted] may have been working at the [redacted] the night of the incident, as well as [redacted] [redacted] [redacted] [redacted] and [redacted] [redacted]

12. [redacted] said there were a lot of Instagram accounts that were surfacing. The accounts had few followers but were following many of the girls and making comments such as "you're next" "thank god they're gone" and "I'm going to do it again."

13. [redacted] thought [redacted] involvement with the sorority girls was odd. He would frequently drop other rides for them and gave them his personal phone number. He seemed to pay particular attention [redacted] members. This started with two sorority girls that had already graduated and had passed [redacted] phone number on to them.

14. The interview was concluded at 1:03 PM. For complete details of [redacted] statement, review audio recording of the interview.

Narrative

1. On November 18, 2022, Idaho State Police Detective Sergeant Hoxie and I, Detective Pesina, interviewed University of Idaho graduate, [redacted] [redacted] [redacted] (D.O[redacted]/2000).

2. I asked [redacted] to run me through her day. [redacted] stated the following:

3. She graduated in May and her name was still on the lease. She planned on returning to Moscow for work. [redacted] boyfriend, [redacted] [redacted] was living there as well. She would visit often. The last time she visited was Halloween weekend.

Narrative

4. Madison Mogen was her best friend. Mogen, Xana Kernodle and her, were in the same sorority. Kaylee Goncalves was Mogen's childhood best friend. [redacted] said she never hung out with Ethan Chapin.

5. The last time she spoke to Mogen was a week prior to the incident, via text.

6. I asked [redacted] if Mogen ever mentioned anything about a stalker. [redacted] said "no".

7. [redacted] asked Mogen how the "house" was doing. Mogen said the house and the roommates were great. They had a good system in place.

8. [redacted] [redacted] was Mogen's boyfriend. They had been dating for approximately two years. Their relationship was good, and they never had any arguments. She never observed any arguments between them.

9. Sgt. Hoxie asked what room she lived in when she stayed there for school. [redacted] said her room was upstairs on the left and Mogen's room was on the right.

10. Over the summer, she still had some belongings there because she planned on going back.

11. Towards the end of July, Goncalves texted [redacted] and asked if she could move into her room. [redacted] told her yes because she had decided to not go back to the house and stayed in Boise.

12. Goncalves worked from home remotely and was home most of the time. Goncalves had a roommate who was living with her for the summer, [redacted] [redacted]

13. I asked if she knew all the tenants who currently resided in the house. [redacted] said along with the three involved, [redacted] and [redacted]. [redacted] lived in Reno, NV.

14. [redacted] kept in contact with her regularly.

15. She met Mogen in 2019 and had been friends with her since. She said Mogen was the most anti-conflict person ever.

16. [redacted] told her, the Friday before the incident, the girls had a [redacted] sorority formal. The formal was kept "intimate". They only had people they knew at the formal and it did not get out of hand.

17. [redacted] described the house she lived in as an "open door policy", meaning people were constantly going in and out of the house. She was always scared of "something like that happening." She would triple check the lock on her bedroom door, because she didn't feel safe. Mogen would leave her bedroom door unlocked most of the time as well as her window. There were times she would hear footsteps in the house and would blow it off thinking someone just had a friend over.

18. Sgt. Hoxie asked while she was living there, if there were any break ins or if she heard of a stalker. There would be times she would wake up and would see the sliding glass door was unlocked. She thought it might have been from someone forgetting to lock the door after having people over the night before.

19. I asked about other times the glass door was found unlocked or opened. [redacted] told her a while back, they had all gone out. When they got back, they noticed the sliding glass door was open. The girls were usually pretty good at making sure the doors were locked. Most people would use the front door. Only their close friends would use the sliding glass door in the kitchen.

20. She had three different "run-ins" with a white male who, she described as approximately 5'5", fit build, slick back hair, clean shaved, possibly mid 20's. The first time was at the Corner Club. He approached her and called her by name. [redacted] did not know him. He told her he had come back and changed his major. A little while after that incident, during parents' weekend, [redacted] saw the same guy at a restaurant called Nectar. He was sitting at the bar with his back to her. As she was leaving, he turned and staired at her as she left. She told her boyfriend about the "weird guy" she kept seeing. The third time was walking down the street in town, the male was with a group of guys across the street. He turned and staired at her as she walked by. She told her boyfriend about "the guy". Her boyfriend was going to talk to "the guy", but she did not let him. She never figured out who the guy was but did remember what he looked like.

Narrative

21. Sgt. Hoxie asked [redacted] if Goncalves ever talked about a stalker. [redacted] told her about a time at WinCo, where Goncalves thought somebody was following her. Recently, Goncalves told [redacted] she took out the trash to the dumpster located across the parking lot and felt there was a figure standing around close by. Goncalves texted her friend, [redacted], and asked her when she would be home. Goncalves was home alone at the time.

22. Sgt. Hoxie asked if she heard about how the girl's day had gone. She heard about the days activities from [redacted] and through Snap Chat. [redacted] said they had a really good day and had fun. It sounded like they started at their house and went to the [redacted] Apartments. She believed at some point, Kernodle and her boyfriend, [redacted] and [redacted] went back to the house, because they weren't twenty-one years old. Mogen and Goncalves then went to the Corner Club.

23. [redacted] told her the last text he got from Mogen was, she just woke up from a nap and was going to the Corner Club.

24. I asked [redacted] if [redacted] had mentioned what she thought happened. It was game day, so everyone had been drinking. [redacted] told her she wasn't sure when Kernodle and Chapin got home. Kernodle was with [redacted], and they were home before Mogen and Goncalves got back. [redacted] told her she went upstairs and ate Grub Truck with Mogen and Goncalves. She went back downstairs to go to bed. I asked [redacted] if [redacted] mentioned seeing anybody else in the house or if anybody came home with Mogen and Goncalves. She said "no", it sounded like it was just the three of them eating Grub Truck.

25. [redacted] told [redacted] she woke up around 4:00 A.M. to music playing. She hoped Goncalves would turn it off soon. [redacted] had said she could hear Goncalves and their dog, Murphy, play upstairs. Shortly after that, [redacted] told [redacted] the music turned off and heard Goncalves say "I think someone is here". [redacted] told [redacted] she heard someone run upstairs and run back down. [redacted] said she peeked out of her room and did not see anything but could vaguely hear someone in the bathroom. She called [redacted] and [redacted] told her to come down to her room. After a few minutes, [redacted] told her she opened her bedroom door and saw a person standing out there and they made eye contact. [redacted] said he then walked out the sliding glass door.

26. Sgt. Hoxie asked if [redacted] had described this person to her. [redacted] told her she felt hazy and didn't remember many details. [redacted] told her she thought the person was about her height and had his face and forehead covered. [redacted] said she ran to [redacted] room and locked the door.

27. Sgt. Hoxie asked why she thought someone would want to harm her friends. She thought it was someone who was watching. She was always afraid of that. She always had an uneasy, weird feeling at the house, which is one of the reasons why she didn't want to go back. She felt the house was easy to get into and easy to watch, because they didn't have any blinds over the windows and layout of the house. [redacted] had told [redacted] the sliding glass door was broken at one point. If the door was jiggled just right, the door would unlock. If the front door was locked, you had to enter the code on the keypad but if the deadbolt wasn't locked, the door could be opened.

28. I asked [redacted] if there was anybody else we should talk to. We should talk to [redacted] [redacted]

29. The interview was concluded.

Narrative

1. On November 18, 2022, at approximately 12:53 PM, Idaho State Police Investigations Lieutenant Catlin and I, interviewed [redacted] regarding multiple homicides which took place in Moscow, Idaho. The interview took place at the [redacted] in Boise, Idaho. During the interview, [redacted] stated the following:

2. She left University of Idaho in May 2021. She belonged to the [redacted] sorority and Madison MOGEN was her best friend. She was also friends with Kaylee GONCALVES, Xana KERNODLE, Ethan CHAPIN, [redacted], [redacted], and [redacted]

3. She became close with KERNODLE the year before she left University of Idaho. She had gone up to Moscow

Narrative

and seen all of them recently for Homecoming in October 2022. She knew GONCALVES through MOGEN. She had met CHAPIN once or twice through KERNODLE. She did not know [redacted] or [redacted] as well; she had only met them a few times.

4. She received a FaceTime call from MOGEN the night of the homicides at approximately 1:50 AM, Boise time. [redacted] was drunk at the time of the call, MOGEN appeared to be also. The call only lasted approximately 1 minute. [redacted] was with [redacted] [redacted] and [redacted] [redacted] during the call at a bar in Boise. MOGEN was with GONCALVES at the Corner Club in Moscow during the call.

5. [redacted] had run into MOGEN's boyfriend, [redacted] [redacted] at a bar called "Amsterdam Lounge" in Boise. [redacted] took a picture with [redacted] at the bar at approximately 1:15 AM, [redacted] and [redacted] were also in the photo. I confirmed the date and time stamp on the photo as being from the night of the homicides.

6. She had been with [redacted] [redacted] and some of the other friends every day since the homicides. She had seen [redacted] [redacted], and others since the homicides. Monday, November 14th, [redacted], [redacted] and others had come over after they arrived back in Boise. [redacted] parents met her in Boise and [redacted] went back home with them.

7. The last social media post [redacted] had seen with any of the victims was a picture of MOGEN on GONCALVES Snapchat story. They were at the Grub Truck together.

8. She knew the person in the video at Grub Truck was [redacted] [redacted] She did not know him well. [redacted] had a girlfriend the whole time [redacted] was going to school at University of Idaho. She knew [redacted] girlfriend, [redacted] [redacted] better than him. [redacted] and that girlfriend are not dating anymore. [redacted] lived at the brown apartments near the victims. She heard a rumor that [redacted] has anger issues. She heard another rumor that [redacted] hunts.

9. When she was up in Moscow during Homecoming, she went to the victim's house, but did not go inside. The last time she was in the victim's house was December 2021. Different girls were living in the house then. She knew where each of the victim's rooms were in the house. The room near the kitchen was [redacted] The room by the bathroom upstairs, but still on the main level, was KERNODLE's. The room downstairs, when you first walk in, was [redacted]. The room next to [redacted] was vacant, but [redacted] was paying rent. The room upstairs with the sliding glass door and the balcony was GONCALVES. The tiny room upstairs with just a window to the balcony was MOGEN's. MOGEN is the only one who lived there for two years, and she stayed in that room the whole time. When she lived in Moscow, everyone used the front door to go in and out of the house.

10. [redacted] and [redacted] were called by [redacted] and [redacted] the next morning. [redacted] went upstairs and saw some of what happened. At the time of the interview, [redacted] and [redacted] were in Mexico.

11. She thought [redacted] and [redacted] called [redacted] and [redacted] because they were a little worried. Their other roommates weren't answering. [redacted] thought she had heard someone in the house the night before and wasn't sure if that person was still in the house. During [redacted] time living in Moscow, it wasn't uncommon for someone to walk into the wrong house drunk, or to hear people up and moving around, in which case you might call someone you know instead of the police.

12. [redacted] told [redacted] she heard GONCALVES playing music earlier that night at approximately 4:00 AM. She ended up going down to [redacted] room, because [redacted] was the only one who answered. They had all been drinking all day, the day before, and [redacted] was a little freaked out that someone might be in the house.

13. She does not believe any of the victims used drugs.

14. MOGEN and KERNODLE were servers at [redacted]. GONCALVES was about to finish school.

15. Since the homicides, [redacted] and [redacted] told [redacted] a story about MOGEN, GONCALVES and KERNODLE going to Winco. GONCALVES went in. GONCALVES felt like someone was following her/lurking

Narrative

around. This freaked GONCALVES out enough to go get back in the car and lock the doors immediately. A man then tried to open the car door. This happened approximately 2-3 week prior to the interview.

16. Since the homicides, [redacted] and [redacted] told [redacted] a story of GONCALVES going outside to take Murphy (GONCALVES dog), to urinate. There was a man watching her, from the dumpster near the house. GONCALVES called [redacted] to see when she was going to be home. She did not know a timeline of when this event took place, or what time of day this took place.

17. The weekend prior to the homicides, MOGEN had flown down to Boise and [redacted] and MOGEN spent time together. MOGEN never mentioned anything about this

18. She was told (she believed by GONCALVES sister), [redacted] [redacted] (GONCALVES [redacted]) woke up the morning after the homicides with 16 missed calls from GONCALVES and MOGEN, which occurred at approximately 3:00 AM. GONCALVES had called approximately 10 times, and MOGEN had called approximately 6 times. There were also text messages sent to [redacted] saying things like, "Bro, what the fuck? Wake up." GONCALVES was known for calling a lot of times consecutively when she wanted to contact someone. Neither GONCALVES nor MOGEN would call [redacted] instead of the police for help. [redacted] and GONCALVES had dated previously. They were currently broken up, but good friends, and [redacted].

19. She is frustrated by the rumors and random accusations on social media.

20. The interview ended at approximately 1:27 PM. For complete details review audio recording of the interview. The audio recording was copied onto a flash drive and submitted into evidence under Tag# 220004205, item 1.

Narrative

1. On November 18, 2022, at approximately 3:01 PM, Idaho State Police Detective Sergeant Beckner and I interviewed [redacted] [redacted] regarding multiple homicides which took place in Moscow, Idaho. The interview took place at the Idaho State Police District 3 Office, located at 700 South Stratford Drive in Meridian, Idaho. During the interview, [redacted] stated the following:

2. She lived at [redacted] Avenue in Moscow, Idaho. Her residence was in front of Madison MOGEN's house. She was no longer in a sorority, but she lived with some of the [redacted] sorority members.

3. She knew Madison MOGEN, Kaylee GONCALVES, Xana KERNODLE. She had met Ethan CHAPIN but did not know him well. She was closest with MOGEN. She lived with [redacted] [redacted] and [redacted] [redacted]

previously. She went to MOGEN and GONCALVES residence often and was with them often.

4. She did not go out during the day on game day (Saturday, November 12th). She did not attend the daytime party, but she saw them at the bar that night. She went to the Corner Club with her friend [redacted] [redacted]-[redacted] and she found MOGEN and GONCALVES while she was there. She spent most of her time at the Corner Club with MOGEN and GONCALVES. She was supposed to go home with them, but she had a weird feeling, so she got a ride home with a freshman Greek life designated driver. She left at approximately 1:15 AM.

5. There was a weird man at the bar. He was pushing her at the bar. MOGEN introduced her to the man. The man was following MOGEN, [redacted] and GONCALVES around at the bar. MOGEN told [redacted] she had classes with the man. The man kept grabbing girls butts and he grabbed [redacted] stomach. He spat at them and others and [redacted] was told the man was kicked out of the bar. He never said much, he seemed off and not just drunk.

6. When she got home, she went to her friend's apartment also in the [redacted] which was directly across from MOGEN's residence. She did not hear or see MOGEN or GONCALVES come home, but she knew they went and got food at Grub Truck after they left the Corner Club. She saw GONCALVES post on Snapchat with MOGEN at the Grub Truck.

7. She went home to her apartment at 3:30 - 3:45 AM. There were not a lot of people arriving home around that time except for a few people belonging to the [redacted] fraternity, who were staying in the apartment where she was hanging out.

8. She knew there was speculation about [redacted] [redacted] [redacted] texted [redacted] at approximately 3:04 AM, to see what she was doing. [redacted] grew up with [redacted]

9. She has heard about a stalker, but she heard it could have been for any of the girls in that house. She has heard about a man that used to follow GONCALVES on her walks with her dog, and also had been seen around the dumpster.

10. MOGEN, GONCALVES and KERNODLE did not use drugs.

11. She spent a lot of time at MOGEN, GONCALVES, and KERNODLE's house. If she needed to borrow something, MOGEN would text her the door code, but they would often leave their back door open, so [redacted] would just walk around the back and go in often. Usually, the people who went to the victim's residence were known by other people in the group.

12. [redacted] doesn't usually go to house parties anymore, but KERNODLE and CHAPIN still attended them regularly because they were underage and could not go to the bar.

13. She didn't think any of them had any enemies.

14. She went to high school with [redacted] (not in the same grade), and she knew [redacted] through Greek life. She did not know either of them well.

15. She knew MOGEN had a boyfriend, [redacted] [redacted] She knew GONCALVES had previous boyfriend, [redacted] and the current boy GONCALVES was seeing was [redacted] [redacted] [redacted] was really nice, and he and GONCALVES dated for approximately 6 years.

16. [redacted]-[redacted] left the Corner Club before [redacted]

17. She recalled from previous years, there were people on the sex offender registry in the area.

18. The interview ended at approximately 3:27 PM. For complete details, see complete audio recording. The interview audio recording was copied on a flash drive and submitted into evidence under Tag# 220004208, item 1.

[redacted]/2022

Narrative

1. On November 18, 2022, at approximately 2:17 PM, Homeland Security Investigations Task Force Officer (TFO) Sage Collins and I, Idaho State Police Detective Matt Wernsing, interviewed [redacted] [redacted] (DOB

Narrative

[redacted]/2002) in regard to the homicide of Kaylee GONCALVES, Madison MOGEN, Xana KERNODLE, and Ethan CHAPIN. The interview took place at the Idaho State Police District 3 Office, located at 700 S. Stratford Drive in Meridian, Ada County, Idaho. The following is summary of [redacted] statement:

2. KERNODLE was one of [redacted] closest friends outside her sorority, and [redacted] knew CHAPIN through his fraternity. She was not very familiar with MOGEN and had never met GONCALVES.

3. Saturday before the incident was the last home football game, but there weren't a lot of people around because it was rainy. It was also Envision Idaho so there was not supposed to be alcohol on campus and there was not supposed to be a "Lodge Party," or an organized party at the [redacted] lodge. [redacted] went to the Lodge Party and there weren't many people there. Because Lodge Parties are sanctioned by Fraternity Sorority Life (FSL), [redacted] kept a list of names of those in attendance at the party and check Vandal ID's.

4. There are apartments around the [redacted] Lodge. [redacted] went to an apartment, possibly apt.[redacted] during the Lodge Party and KERNODLE was in the apartment. [redacted] knew KERNODLE to party pretty hard and noted KERNODLE "wasn't super drunk that night." Another friend of [redacted] took a photo of KERNODLE in the apartment playing guitar and posted it to her Snapchat story around 2 AM. [redacted] took a screenshot of the post. [redacted] recalled later in the interview also seeing KERNODLE's other roommate [redacted] at the [redacted] house.

5. The last [redacted] spoke to KERNODLE at the [redacted] house was approximately 12:45 AM. When everyone was leaving, KERNODLE and CHAPIN walked away and [redacted] believed they went right home and did not go anywhere else. [redacted] got a ride home from a [redacted] "sober bro" named [redacted] [redacted] at approximately 2 AM. [redacted] said [redacted] also picked GONCALVES and MOGEN up from the Grub Truck and can be seen on the Grub Truck's live Twitch feed doing so. [redacted] provided [redacted] phone as [redacted]

6. [redacted] went home at the [redacted] house and was hanging out with some friends. The group went to the [redacted] [redacted] Pi house next door until approximately 4 AM before returning home and going to bed.

7. [redacted] woke up at approximately 11 AM on Sunday to go study at the [redacted] House.

8. [redacted] said KERNODLE and CHAPIN were not big drug people and said she had not seen them use[redacted] She stated KERNODLE [redacted].

9. [redacted] suspected someone would have been going after GONCALVES or MOGEN and "ran into" KERNODLE and CHAPIN. KERNODLE was one of the most popular girls in Greek Row and everyone knew and liked her. [redacted] had heard GONCALVES had a stalker but did not know the validity of that rumor.

10. [redacted] thought the Twitch broadcast didn't sit well with her. She said GONCALVES and MOGEN look really uncomfortable in the video. There is a male subject behind them that looked really nervous but [redacted] did not know who the male was.

11. [redacted] said KERNOBLE's friend [redacted] [redacted] may know more about possible drama or conflict involving any of the victims.

12. [redacted] said [redacted] may be a primary source of [redacted]on U of I campus and dated KERNODLE at some point. [redacted] had also been kicked out of [redacted] [redacted] [redacted] and was not currently attending U of I.

13. The interview was concluded at 3:00 PM. For complete details from [redacted] statement, review notes and audio recording of interview.

14. I transferred the audio recording of the interview to a CD and submitted it into ISP Evidence under Tag #22000

15. On November 19, 2022, I received a text message from [redacted] She told me a man by the name of [redacted] [redacted] [redacted] had been stabbed in October in Kooskia, Idaho. No one was arrested for the stabbing and she made note of Kooskia's proximity to Moscow.

Narrative

On November 28, 2022, at approximately 3:14 p.m., I took digital photographs of the victim's vehicles located at 1122 King Road, in Moscow, Latah County, Idaho.

All of the vehicles were unlocked except for the red Jeep Sahara Wrangler. Wearing nitrile gloves, I breached the evidence tape seal on the front door of the residence, retrieved the keys to the Jeep which were sitting on the stairs, and unlocked the Jeep. Once complete, I returned the Jeep keys to the residence and resealed the front door with evidence tape marked with my name and the date.

Copies of the photographs were provided to the Federal Bureau of Investigation to be used to determine what, if any, methods could be employed to download data from the vehicles' onboard computer hardware and/or software.

The photographs were subsequently downloaded onto a compact disc (CD) and entered into evidence.

Narrative

1. On November 13, 2022, at about 12:22 p.m., MPD requested ISP District 2 Investigations to assist with multiple homicides at 1122 King Rd., Moscow, Latah County, Idaho. At about 12:34 p.m., ISP Sergeant (Sgt.) Darren Gilbertson advised me of the request. I was assigned as the ISP lead crime scene investigator.

2. At about 2:41 p.m., I arrived on the scene. Already on scene were MPD Cpt. Roger Lanier, MPD Sgt. Dustin Blaker, Det. Payne, and multiple other MPD officers providing scene security. Det. Blaker provided me with the following verbal briefing:

A. At about noon MPD was dispatched to an unconscious person inside the residence. When they arrived, two household occupants, identified as [redacted] [redacted] and [redacted] along with two other females and one male were outside the residence. The male, identified as [redacted] stated when he had entered the house he grabbed a knife from the kitchen and cleared the 1st and 2nd floors, and then placed the knife on a table inside the living room. When officers entered the house they found two deceased residents (KERNODLE and CHAPIN) inside a bedroom on the 2nd floor. The officers also found two more deceased residents (GONCALVES and MOGEN) in a bedroom on the 3rd floor. All the victims appeared to have multiple stab wounds. The sliding glass door located in the kitchen (2nd floor, rear of house) was open and there was a set of footprints in the melting snow leading into and away from the residence. There was one shoeprint near the western edge of the property leading west into a neighbor's yard. In front of the residence (north) were five vehicles belonging to the deceased residents.

B. Sometime in the early morning hours, [redacted] was awoken and opened her room door [redacted] and heard a male say "It's ok Kaylee, I'm here for you" and crying. She then shut her door. A short while later she opened her door again and saw someone approximately 5'10" tall, dressed all in black with a ski-mask standing in the kitchen. She made eye contact with the person and could see they were caucasian through the cut-outs for the eyes. She shut her door again and texted [redacted], whose bedroom is on the [redacted] [redacted] told her to join her in her room and [redacted] ran down the stairs to [redacted] room where they fell asleep.

3. At about 5 p.m., after a search warrant was signed, Sgt. Blaker, Det. Payne, Latah County Prosecuting Attorney (LCPA) Bill Thompson, LCPA Ashley Jennings, and I entered the scene and conducted a walk-through. As we entered the front (north-facing) 1st-floor door I observed the following:

A. As you entered the residence from the front door there is a bathroom in front of you (south). There is a bedroom to the right (west). It appeared to be unlived in. To the left (east) was a staircase to the 2nd floor and a small hallway. As you walk east down the hallway a small mechanical room was to the right (south). The hallway ended in a bedroom [redacted]. [redacted] bedroom had clothing on the floor and the bed was disheveled. Her dresser against the north wall had a broken door and a drawer was partially opened. There didn't appear to be any blood inside the room.

B. As you go up the stairs to the second floor you enter a small living room area. There was a folding table set up on the west side of the area, partially blocking the entry to the west hallway. The table had multiple red solo cups on it in game formation (Beer Pong) along with a small steak knife. There were multiple areas of red liquid on the table that appeared to be blood. As I walked west from the living room there was a half wall to my right. I could see multiple drops and runs of red liquid along the entire half-wall. Across the half wall (north) I saw more red stains on the wall (above the 1st and 2nd-floor staircase). The stains and liquid were consistent with cast-off and appeared to be blood. Continuing west down the hallway there was a bathroom to the left (south) with the hallway ending at a bedroom. On the north wall of the hallway, near the bedroom door, there appeared to be a red-colored transfer mark at approximately my shoulder height.

C. From the living room, looking into the west bedroom I could see a female (KERNODLE) lying near the center of the room. Her legs and arms appeared to be covered in blood. As I entered the bedroom I saw multiple drops of red liquid near the entrance and multiple red-colored drips on the door above and below the doorknob. A male (CHAPIN) was laying in the bed partially covered by a blanket and comforter. His neck and chest were heavily covered in a red liquid. Multiple walls appeared to have red-colored cast-off and there were multiple areas on the floor with pools of red-colored liquid. All the red-colored liquids appeared to be blood. KENODLE appeared to have multiple cuts to her hands, arms, and face. CHAPIN appeared to have a deep cut to the outer portion of his right knee and neck area. On a desk against the north wall of the bedroom was KERNODLE's University of Idaho (U of I) identification along with a rolled-up Two-Dollar bill and a [redacted] consistent with a [redacted].

D. Exiting the bedroom and walking east there wasn't anything visible of interest in the bathroom. Outside the bathroom door there appeared to be small drops of red liquid near the baseboard, a small smear of a red-colored liquid on the south wall, and a hair stuck to the wall.

E. South out of the living room was a small step down and a bedroom immediately to the left (east, [redacted] room). South was a staircase to the 3rd floor and a small storage area under the stairs. To the right (west) was the kitchen.

F. [redacted] room was messy with multiple items of clothing on the floor and a notebook in disarray on the floor near her desk along the north wall. Her bed was unmade and her U of I identification was on the floor near the south wall under her makeup desk. There was no apparent blood inside her room.

G. The storage closet was tidy with nothing of interest noted.

H. The kitchen counters were cluttered with dirty dishes, orange containers and a fast food bag from Jack in the Box labeled Xana near the sink. The sliding glass door was just over halfway opened. On the outside of the window on the south wall were two handprints and a possible faceprint on the glass. There were also red-colored drips on the north side cabinets near the sink and a red-colored liquid drop on the floor. The red-colored marks appeared to possibly be blood.

I. As I walked south up the stairs they switched back to the north. On the center-wall banister were red-colored liquid smears. They appeared to be blood smears. At the top of the stairs was a small hallway. Directly to the left (west) was a bedroom (GONCALVES). The bedroom was clean with the bed unmade and a black colored coat laying on the ground next to the bed on the left side (when looking from the foot of the bed). Partially behind the door, on the north wall was a wire dog kennel. There didn't appear to be any blood inside the room.

J. On the right side (east) of the hallway, it ended with a bathroom. To the south of the bathroom was a small bedroom (MOGEN's). There didn't appear to be anything of interest in the bathroom.

K. As I entered the bedroom there was a bed directly to the left (east). On the bed were GONCALVES and MOGEN. They were covered by a beige-colored comforter with a large pool of red liquid near the center of the comforter. Multiple walls and the ceiling had multiple areas of red-colored cast-off. MOGEN had multiple visible cuts on her face. GONCALVES had severe trauma to her face and visible cuts with a large amount of dried red-colored liquid on her face. There appeared to be aspirated blood coming from her mouth. Near MOGEN's left

Narrative

hip was a tan-colored leather sheath partially covered by the comforter. On the door edge, I saw multiple red-colored transfer smears. The upper mark was at approximately my shoulder height. All the red-colored liquids in the room were consistent with blood.

4. At about 5:24 p.m., I assigned ISP Det. Jake Schwecke to start a pre-evidence processed video. I directed ISP Det. Gideon Roberts to start scene overview photographs. I directed ISP Det. Hugh Powell to complete a scene sketch. After the vehicles were videoed and photographed, I directed ISP Sgt. Darren Gilbertson to search them. The vehicles were a blue-colored Honda Civic, Arizona registration [redacted] a silver-colored Range Rover, Washington trip permit [redacted] a white-colored Chevrolet Cruze, Idaho registration [redacted] a red-colored Jeep Wrangler, Washington registration [redacted] and a black-colored Ford Explorer, Washington registration [redacted] The interiors were photographed, with nothing seized as evidence.

5. At about 6:30 p.m., I started 3D scans of KERNODLE and MOGEN's rooms.

6. At about 7:05 p.m., Det. Powell, Det. Schwecke and I started marking the evidence with numbered placards while Det. Roberts photographed the exhibits. The following evidence was recorded and/or collected:

Narrative

1. On December 6, 2022, ISP Sergeant Tim Hopkins and I interviewed [redacted] ([redacted] [redacted] reference the November 13th quadruple homicide in Moscow, Idaho, at the Idaho State Police District 3 Office. The interview began at approximately 11:00 a.m. and [redacted] was accompanied by his mother, [redacted] [redacted] [redacted] reported the following:

2. The interview began with [redacted] [redacted] and [redacted] himself discussing the on-line and social media harassment their family has been dealing with since Sunday. [redacted] [redacted] informed me their family friends and

even her medical practice is now being pulled into the on-line rumors.

3. I informed [redacted] I wanted to focus on the days prior to the homicide. [redacted] described the days prior as the usual. He went out to the bars on Thursday night for "early weekend", then stayed home Friday to recover from a hangover and complete some school assignments. He then went out and drank on Saturday and stayed home to recover and watch football on Sunday. It was a typical weekend, and he can't remember that weekend being any different.

4. I asked [redacted] if he knew about the sorority formal on Friday. [redacted] said maybe, but he really does not pay attention to such activities. He stated there is always something happening on campus, and he does not follow all the activities.

5. I asked [redacted] if he was aware there was a party at the house where the homicide occurred (1122 King St., Moscow, Idaho) on Friday night. [redacted] said he was unaware of a party on Friday but thought there was a party at the house on game day, Saturday. However, he was not sure there was a party at that house because there were 6-7 houses on King Street on that Saturday having parties. [redacted] only went to the parties at the '[redacted] [redacted] building on game day (Saturday). [redacted] rarely attended such parties because many times there are freshmen and sophomores at such parties, and he does not like partying with the younger underclassmen. [redacted] usually stayed at his own apartment, attended functions at his fraternity, [redacted] [redacted] [redacted] or went to the bars. Therefore, [redacted] does not pay a lot of attention to parties off campus.

6. I asked [redacted] to walk me through his entire day on Saturday, November 12, 2022. [redacted] informed us it was difficult since he was drinking all day that day. He did not attend the game but did go to the party at the '[redacted] He went back to his apartment then later out to the bars. [redacted] claimed he did not remember a lot of specifics but there were people everywhere. He knew some of the people many he did not know.

7. [redacted] explained for the first three years of college he had a girlfriend and was in a relationship. He did not really party and meet a lot of people during that time, he spent most of his time working on the relationship. As a result, [redacted] does not know the number of people other seniors do and he does not talk to the individuals he does not know. [redacted] believed since he does not know a lot of people and does not talk to a lot of people, he has a "sus" (suspect) reputation. [redacted] preferred to hang out with friends, if he does not know someone, he does not talk to them.

8. I then asked [redacted] if he was with [redacted] [redacted] on Saturday. [redacted] said yes and described [redacted] as his good friend. [redacted] could not recall when he met up with [redacted] that day, but he believed [redacted] and [redacted] [redacted] came to his apartment then they all went to the party at the [redacted]

9. [redacted] then looked at his phone and found a text message string between he and [redacted] (Same text message string FBI Agent O'Neal photographed on [redacted] phone) The first text was sent by [redacted] on Saturday at 4:16 p.m. to [redacted] It simply said, "YO". [redacted] replied "Wasssup", and [redacted] asked if [redacted] was still at the [redacted] [redacted] informed him he was, and he was going to get some food. [redacted] asked where [redacted] was, and [redacted] informed him he was back at his apartment getting ibuprofen for his back. [redacted] asked [redacted] to grab him a couple of beers if there were any left. (This was the last text message between [redacted] and [redacted] on Saturday)

10. After reviewing the text string, I informed [redacted] it appeared he and [redacted] had been at the party prior to the start of the text string. [redacted] believed they went to the party at the [redacted] around 1-2 p.m. but he could not recall the exact time. He did recall seeing Maddi Mogen and Kaylee Goncalves and all the residents of 1122 King St. going outside and taking the photograph everyone sees now.

11. [redacted] knew Maddi the best. He had known her since his freshman year because they had classes together and she would hang out at the [redacted] [redacted] [redacted] fraternity house.

12. [redacted] said while attending the party at the [redacted] he made several trips to his apartment to stretch and deal with his sore back. [redacted] claimed after the text string with [redacted] began, he did not return

to the party at the [redacted]

13. I asked [redacted] if he remembered going to the [redacted] house with [redacted] [redacted] replied not really, then said that is why he agreed to go to the other bar with Kaylee and Maddi when they asked. He does the same thing every weekend and it is hard to remember.

14. I confronted [redacted] with the information we had gathered reference he and [redacted] had been picked up by a fraternity "DD" (designated driver), driven to get food and beer then dropped off at the [redacted] [redacted] fraternity house. [redacted] responded, that would not be out of the normal, but did specifically recall.

15. Sergeant Hopkins asked [redacted] about purchasing a 30 pack of beer and splitting the beers between himself and [redacted] [redacted] did not recall if they purchased a 30 pack on Saturday, but it was normal for him and [redacted] to purchase beer and split it up between the two of them. He could not remember if they did it that Saturday because they were drinking all day. Sergeant Hopkins asked what type of beer they typically purchased, and [redacted] informed us it was usually Keystone, Natural Ice, or any cheap lager beer.

16. I instructed [redacted] to refer to the text string between himself and [redacted] and look at some of the communications on Monday, specifically where he was asking [redacted] if he wanted the bag back. [redacted] read the text string, then remembered he did borrow a bag from [redacted] that Saturday. He and [redacted] were at the [redacted] house and [redacted] had passed out. [redacted] took a bag from [redacted] and filled it with approximately 15 beers. He believed he went back to his apartment because the bag was at his apartment, and he had to return the bag to [redacted]

17. [redacted] did not see [redacted] again that day or night because [redacted] went to the bars and [redacted] did not.

18. I asked [redacted] how he got from his apartment to the Corner Club. [redacted] responded probably a "DD" (Designated Driver).

19. [redacted] did not recall the clothing [redacted] was wearing Saturday the 12th.

20. The next contact [redacted] had with [redacted] was Sunday morning sometime. [redacted] [redacted] was with [redacted] driving to get some food. [redacted] called [redacted] and asked what was going on at the house down the street from [redacted] apartment. [redacted] indicated he already told us what happened after that in his previous interview.

21. [redacted] could not remember anything out of the normal that weekend. He had said goodbye to Maddi and thought he would see her in class after they got picked up at the food truck.

22. [redacted] described [redacted] as laid back and quiet, if people don't know him well, they would view him as an "outsider". [redacted] is very quiet and will not open up unless he knows you. [redacted] said, '[redacted] is a great guy and knows he would not have done this shit for sure". They have been friends since the 7th grade, they attended [redacted], [redacted], and U of I together. [redacted] has always had [redacted] back and [redacted] described [redacted] as a "ride or die" buddy.

23. [redacted] informed us Maddi cared about [redacted] because they used to be close. [redacted] and Maddi had an on again off again [redacted] relationship in the past. It worked for [redacted] because [redacted] did not want a girlfriend, but [redacted] claimed it was difficult to describe because [redacted] did not really talk about "those things" or brag about girls.

24. [redacted] knew [redacted] and Maddi had gone on a trip to Cabo, Mexico with a large group of U of I students during spring break last year. [redacted] did not go but the trip which was arranged by a guy in the [redacted] fraternity.

25. [redacted] did not have a sexual relationship with anyone else living in the 1122 King Street house.

26. Xana Kernodle had been in past relationships with [redacted] [redacted] and another guy [redacted] did not know but she appeared happy with Ethan Chapin. [redacted] did not know Kaylee and didn't know she used to date the '[redacted] [redacted] (Known to be [redacted] [redacted] [redacted] did not know [redacted] or

[redacted]. He indicated he may recognize them if he saw a photograph, but he does not know them. The only individual he really knew from the house was Maddi due to mutual classes together.

27. [redacted] did not know the number of times [redacted] had been inside the 1122 King Street residence. Especially since [redacted] had been banned from the Corner Club for a while and [redacted] did not know what [redacted] was doing while [redacted] continued to frequent the bar.

28. [redacted] expanded on [redacted] ban at the Corner Club. He indicated there was a two-strike system at the bar and after you had two strikes, you were banned by the bar for a period of time. [redacted] admitted it was his fault for [redacted] being banned and, they both should only have one strike. [redacted] admitted he and [redacted] are "hot heads" and will hold their ground. [redacted] said [redacted] already had one strike at the Corner Club for arguing with the bartender, when [redacted] got drunk at the bar and began arguing with the boyfriend of a girl he liked. The argument escalated and [redacted] pushed the boyfriend. The bartenders broke up the argument and blamed [redacted] As a result, [redacted] received his second strike and was banned from the Corner Club until February.

29. [redacted] admitted he and [redacted] have gotten into fights with other individuals. He explained they don't look to hurt people; they are generally drunken arguments and most of the time they involve individuals from other fraternities.

30. I asked [redacted] if he noticed any strange alumni or strangers while attending the party at the [redacted] [redacted] did not recall seeing anyone out of place while he was at the party or at the Corner Club.

31. [redacted] said after the girls were picked up from the food truck, he did not want to wait for a ride and did not even know if his "DD" (designated driver) was even still accepting calls, so he walked home. [redacted] informed us it was no big deal to walk home. When they were at the food truck, he believed he and the girls were going to another bar, but they were drunk and got a ride home he presumed.

32. Due to the homicides and the rumor circulating around campus that classes could go on-line, he made the decision to return to Boise. On his way out of town he stopped and saw [redacted] [redacted] returned the bag he had taken to transport the beer on Saturday and a HDMI cable he had borrowed to watch football.

33. [redacted] was active in the [redacted] fraternity. [redacted] lived at the fraternity house, paid rent, and his dues. [redacted] was also the [redacted] for the [redacted] fraternity. [redacted] is also a [redacted] [redacted] member and has been since his freshman year. [redacted] only pays his dues which gives him access to the fraternity and one meal a week. [redacted] usually eats at the fraternity house on Mondays because the house chapter meetings are conducted every Monday.

34. Sergeant Hopkins and I asked about the house known as [redacted] located at [redacted] [redacted] informed us [redacted] is an off-campus house associated with the [redacted] [redacted] [redacted] fraternity. Upper classmen often transition out of the fraternity house and move into [redacted] Sometimes other individuals will rent a room at the house, at one time a football player was living there and even a professor stayed there for a while.

35. I asked [redacted] if he had any knowledge about Kaylee having a [redacted] relationship with a [redacted] [redacted] stated he had heard rumors but thought they were weird because the rumor he had heard was Kaylee was involved with a [redacted] [redacted] or [redacted] and he understood Kaylee was '[redacted] [redacted] believed it to be an outlandish rumor and it would be more believable if it was a [redacted] [redacted]

36. [redacted] again informed us he did not really know Kaylee and did not know if she had a job. His only connection to Kaylee was due to knowing Maddi. [redacted] did not even initially know Kaylee was the girl with Maddi at the Corner Club on Saturday night. It was a chance encounter seeing Maddi at the bar and he had been talking with only Maddi. It was Maddi that invited him to go with them to Johns Alley to get some food, but they decided to get food at the food truck.

37. Since returning to Boise, [redacted] has been hanging out at home playing X-Box. He has gone out to the bars with [redacted] a couple of times but has been staying at his house most of the time. [redacted] did inform [redacted] someone had called a tip into the police pretending to be his mother.

Narrative

38. [redacted] discussed some of the internet rumors accusing him of the homicides. Everyone continues to ask him what happened that night and he informs them he has no idea. He has always thought the students would figure out who committed the homicides before the police because they know the community better than the police. Now that the homicides have not been solved and the students do not know who committed the crime, everyone is scared.

39. Sergeant Hopkins and I asked [redacted] about the most recent issues resulting in [redacted] for [redacted] [redacted] [redacted] [redacted] informed us a video of freshman hazing other freshman was the most recent issue. A parent had seen a video of freshmen throwing another freshman's bed out of the fraternity house second floor window. Sergeant Hopkins asked about issues at a sorority function. According to [redacted] there were two issues at the sororities off campus function. The first involved [redacted] and [redacted] [redacted] was picking on a guy at the party calling him Kermit the frog. Eventually a scuffle broke out and [redacted] was just backing up [redacted] once the scuffle started. The other incident at the same party involved a couple of [redacted] freshmen throwing hangers and causing damage to the facility. These issues did not cause trouble for the [redacted] [redacted]fraternity since it was not a [redacted]function, but the individuals involved are in trouble themselves.

4o. At the end of the interview, I asked [redacted] if he would consent to us getting a set of major crime fingerprints from him before he left. [redacted] agreed and ISP Forensics printed [redacted] At approximately 1:32 p.m., the major crime prints were completed, and [redacted] left the District 3 Office.

Narrative

1. On November 20, 2022, I, Detective Andy Hodl of the Idaho State Police received phone tip number 391 and conducted follow up. The tip stated that [redacted] [redacted] (DOB: [redacted]/1969) had called in and reported that an intruder had entered her [redacted] house in Pullman, Washington in October of 2021 with a knife and wearing a mask. The tip referenced Pullman Police case number [redacted]. Attached to tip 391 was email tip 73. This tip was from [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] and referenced the same case number.

2. At 1550 hours, I, along with ISP Detective Hugh Powell, conducted an interview with [redacted] [redacted] over the phone. I originally called [redacted] at [redacted] which was the phone number from the tip. She called me back from [redacted]

3. [redacted] said that her [redacted] who was later identified as [redacted] [redacted] (DOB[redacted]/2001), lived in Pullman, Washington just off of the Washington State University Campus in a house with two units in it. The address of this residence was [redacted], Pullman, Washington. One night, [redacted] left to pick up a friend at around 0230 hours. When they got home, they noticed their back door was open and their roommates had locked themselves in a bedroom. One roommate said she woke up to a male wearing a mask holding a knife standing over her. She kicked him and he fell backwards then ran out of the house. [redacted] said the police responded, then eventually questioned the male who lived in the second unit of the house, but he was never charged. [redacted] would not tell me the name of the victim but told me the victim's mother's name is [redacted] [redacted] and gave me her phone number [redacted]

4. [redacted] then gave [redacted] the phone. [redacted] said all of the girls that lived with her were members of a sorority and she was a junior during last school year. [redacted] said that the neighbor who was questioned did not cause any problems prior to or after this incident. [redacted] said she is living in the same house this year and has not seen the neighbor since March 2022 when his lease was not renewed. [redacted] said she did not associate with any of the sororities at University of Idaho and did not know any of the individuals who were killed. [redacted] said she had parked her car outside the back door and had left it unlocked when she left to pick up her friend who was nearby. She said the door was normally locked other than when one of the residents was making a quick trip away from the house.

5. At approximately 1611 hours, Detective Powell and I contacted [redacted] [redacted] (DOB: [redacted]/[redacted]/1963) by phone at [redacted]. [redacted] told me her daughter's name is [redacted] [redacted] (DOB[redacted]/2001) and gave me her phone number [redacted]. [redacted] told me she had called Moscow Police on November 16, 2022, and the Pullman Police Department on November 17, 2022. She was told they could not initially find the report then later told her it had been sent to Moscow Police. [redacted] told me Officer Banks was the investigating officer who communicated with her and [redacted] during their investigation.

6. I received a copy of the Pullman Police report, and the suspect was identified as [redacted] [redacted] [redacted] (DOB: [redacted]/1981).

7. At approximately 1657 hours, ISP Detective Cody Herman and I contacted [redacted] [redacted] at [redacted]. [redacted] said the night of October 9, 2021, she had gone to bed early because she had to work early. At approximately 0300 hours on October 10, 2021, she heard her bedroom door open. She said she rolled over and saw a male walking into her room wearing a ski mask and holding a knife. [redacted] said she turned on her bed and kicked the male hard enough to knock him back to the wall. She said the male stared at her for a few seconds before running

Narrative

up the stairs and out of the house. [redacted] said she was completely sober and aware of what had happened. [redacted] said one of her roommates was home but was watching TV loudly and did not hear anything. [redacted] had unenrolled from Washington State University and was just working, and she was no longer a member of any sororities. [redacted] described the male as smaller and very short, she estimated 5'4 to 5'6. Due to the mask, she could not see his face at all. The male did not say anything to her. [redacted] described the second unit of the house as a small studio apartment that occupied half of the basement and has a separate exterior staircase and entrance. [redacted] was the male who lived in that apartment and matched the description, but police did not talk to him until a few days later. Pullman Police eventually interviewed [redacted] but he was never charged. [redacted] said where [redacted] smoked was right outside her bedroom window and she felt he might have been able to look into her bedroom. [redacted] said she and her roommates never had any issues with [redacted] other than he was sort of awkward sometimes, but nothing really concerned them until this incident. [redacted] said she never went to parties in Moscow and did not know any of the victims in this case.

8. All of these interviews were digitally recorded. The recordings were saved to a thumb drive and turned over to the Moscow Police Department.

9. At approximately 2300 hours, I spoke to Pullman Police Officer Banks about this incident. Officer Banks said that [redacted] was the only suspect because he matched the description and had a prior incident in 2017 where a female woke up to him watching her sleep. [redacted] did not have a mask on or a weapon at that time. Officer Banks said a search warrant was conducted at [redacted] residence after the incident with [redacted] but no evidence was recovered linking him to the incident.

10. All of this information was turned over to the case agent for further review.

11. The investigation continues.

Narrative

1. On 11/19/2022, at approximately 1500 hours, I, Idaho State Police (ISP) Detective Brady Walker, along with ISP Detective Gideon Roberts, began a canvass of Conestoga Drive, Colt Road, Shetland Court, Lenter Street, Levick Street, and Lauder Avenue for home security cameras that may have captured footage around the time of the incident.

2. Other investigators had assigned areas in the neighborhood near the crime scene. ISP Detectives Jacob Schweke and Hugh Powell had previously briefly canvassed Conestoga Drive and talked to several occupants with visible doorbell/surveillance cameras. We were provided the addresses of the homes on Conestoga Drive that they contacted.

3. A male who identified himself as [redacted] [redacted] answered the door at [redacted]. He checked the footage of his Ring camera, and nothing was captured during the morning of 11/13/2022.

4. The residents of [redacted] were not home when they attempted contact about their doorbell camera. I contacted the residents of [redacted], who identified themselves as [redacted] and [redacted] [redacted] I reviewed the footage their Ring doorbell camera captured on the morning of 11/13/2022. There were no recorded videos during the early morning hours of 11/13/2022.

5. No other residences on Conestoga Drive had visible cameras (other than where other detectives had previously checked). We attempted contact at [redacted] as there were two visible cameras. Nobody answered the door. The occupants of that house later located ISP Detectives Andy Hodl and Matthew Heinle. They had no useful video footage.

6. We contacted the upstairs left apartment at [redacted] [redacted] with a visible camera over the door. They did not have relevant footage of Levick Street near the relevant timeframe.

7. We attempted contact at the upstairs apartment of [redacted] with a Ring doorbell camera. The camera appeared inoperable as it did not light up or sound a ringtone when I rang it. Nobody came to the door.

8. A camera was located on the northeast corner of an apartment building at [redacted]. This faced Lenter Street. Moscow PD in-house records indicated [redacted] [redacted] managed the building. When I later contacted the assigned number, I was informed the building was managed by [redacted] and [redacted] [redacted]. The phone number that was provided was [redacted]. I left a voicemail, and [redacted] [redacted] called me back on 11/22/2022 at 1634 hours. She informed me the camera was fake and only placed there as a deterrent.

9. End of report.

In the follow-up call, [redacted] told me there was a homeless man with a beard and a limp that lived in the area of [redacted] where Goncalves and Mogen were spotted. She said the male in [redacted] surveillance video appeared to have a beard and a limp as well. [redacted] also told me she had heard through a friend that Kernodle commented on someone's TikTok video around 0400 hours the night of the incident. I asked [redacted] to find out where that information had come from and to relay that to me. She said she would try to find the source of the information.

6. With the previous information, I contacted [redacted] [redacted] **(unknown complete or DOB)** on 11/18/2022 at 1101 hours at [redacted] [redacted] informed me she had surveillance video of a male leaving the area. I had previously received information from another source that Goncalves potentially had a "stalker", or someone interested in her without reciprocation. [redacted] operates [redacted] [redacted] [redacted] [redacted] Moscow) where Goncalves was employed 06/03/2022 until 07/16/2022. [redacted] said that a male named [redacted] [redacted] [redacted] (born in 1998) had asked for a highlighter on 08/22/2022. When he was provided one by restaurant staff, he said he wanted to "destroy his face" and began drawing on himself. He was trespassed by police on 08/26/2022. On the night of November 12,

He was friends with all of them but was closest with Kernodle. In fact, [redacted] met his girlfriend, [redacted] [redacted] [redacted] through Kernodle. Narrative

1. On November 18, 2022, at approximately 1806 hours, I, Idaho State Police (ISP) Detective Brady Walker, interviewed [redacted] by phone at [redacted] ISP Trooper Kristin Noah was present during the phone call. The phone call was recorded. This report details the phone interview with [redacted] This report also contains summaries from interviews with [redacted] [redacted] and [redacted] [redacted] who were with [redacted] on the night of 11/12/2022. Those summaries are also documented in Supplement 52.

[redacted] specifically said he was "off doing his own thing" and hanging out with his girlfriend. When I asked who his girlfriend was, [redacted] paused, and said, "Um, I don't really feel comfortable answering these questions. I don't know." I asked [redacted] if there was any reason why. He replied, "I, I just, I don't know, like out of respect of Ethan. I don't know, like, ok, [redacted] [redacted] is my girlfriend. I'll just answer the questions." After that, [redacted] seemed more forthcoming with information.

4. [redacted] and [redacted] were at [redacted] most of the night. [redacted] went to bed early, and then he went to the[redacted] apartments. 5. [redacted] said he did not text or have any other electronic communication with Chapin that night. He did not know when Chapin left the [redacted] party.

6. [redacted] knew Chapin and Kernodle had been dating since before the previous school year ended. He estimated it was about seven months. Chapin stayed with Kernodle about six days per week. [redacted] said he knew Kernodle fairly well, but did not know Goncalves or Mogen as well. [redacted] would see Goncalves and Mogen "here and there", but they would not sit down and have a conversation or spend time together.

7. [redacted] went to 1122 King Road once every week or two weeks. He said a party was hosted there about weekly. A typical party would be attended by fifty or sixty people. He described the dynamic of the house as "fine" and stated they all seemed to get along really well.

Narrative

1. On November 17, 2022, at approximately 0952 hours, I, Idaho State Police (ISP) Detective Brady Walker, called [redacted] ([redacted]/2001) at [redacted] regarding this case. ISP Detective Matthew Heinle was present during this phone call. [redacted] had previously called into the tip line with information, and this report summarizes the facts she provided during the follow-up call.

2. [redacted] has known Madison Mogen and Kaylee Goncalves since the senior year of high school, and they have attended the University of Idaho since then. [redacted] was in a relationship with [redacted] [redacted] [redacted] (DOB [redacted]/2000). [redacted] was roommates with [redacted] [redacted] who was the [redacted] of Kaylee Goncalves. [redacted] hung out with Mogen and Goncalves infrequently and they have stayed in touch during their attendance at University of Idaho. Outside of class, she estimated they socialized (such as attending weekend parties together) about once every two weeks although the frequency varied.

3. On the late evening of Saturday, November 12, [redacted] was at [redacted] house, which is a [redacted] from 1122 King Road. [redacted] and his friends were watching sports and [redacted] was getting bored. [redacted] contacted Goncalves about wanting to hang out, and they made plans to go to the bar. [redacted] went to 1122 King Road but couldn't remember the door code. She called Goncalves at approximately 2220 hours, got the door code, and went inside. [redacted] saw Goncalves and [redacted] in the house. About five minutes after [redacted] got to the house, Madison Mogen arrived.

4. Mogen, Goncalves, and [redacted] got a ride to the Corner Club from a male named [redacted] [redacted] last name was not provided, but his phone number was: [redacted] [redacted] noted several things about [redacted] [redacted] was an Uber driver, and she [redacted] had been getting rides from him since April 2022. [redacted] believed Goncalves and Mogen had been getting rides from [redacted] since January 2022. [redacted] was described as a white male having [redacted] hair, a voice that was not deep, and was believed to be shorter in stature since he scooted his seat close to the steering wheel. [redacted] drove a light gray [redacted].

5. [redacted] originally met Goncalves and Mogen, and several other women, through driving for [redacted]. He provided his personal phone cell phone number as contact for rides. [redacted] Goncalves, and Mogen commonly called [redacted] for rides. Sometimes, he would not charge them for the rides. [redacted] was never unable to provide a ride for [redacted] Sometimes, it seemed that [redacted] was not working for [redacted] when he would give rides, and that he had left his personal life to accommodate the ride. [redacted] began carrying "airplane shooters" of alcohol in his vehicle in the console and had offered them to [redacted] [redacted] knew that two women, [redacted] [redacted] and [redacted] [redacted]

[redacted] (DOB [redacted]/2000), had finished college and left after spring 2022. They had both stayed in touch with [redacted]

6. [redacted] initially thought [redacted] was a nice guy who helped women get to their preferred locations safely. She did not think [redacted] behavior was odd until [redacted] pointed out that he thought so. After considering the circumstances and all she had learned, she agreed with [redacted] that it was odd for [redacted] to provide his personal phone number and be so accommodating to all the women, considering he was married with a child.

7. [redacted] had recently become a father. This seemed to be common knowledge. On November 12th, after [redacted] picked them up, [redacted] asked [redacted] how it was going being a father. [redacted] did not seem as joyful as she expected. He sighed and pointed out that it was a lot more difficult and stressful than anticipated. [redacted] made a point to tell them his wife and baby were out of town for the weekend, and he was looking forward to having the house to himself over the weekend and watch football. [redacted] did not really talk to him after that and Goncalves or Mogen continued conversation until they got dropped off at the Corner Club.

8. [redacted] did not remember a time that [redacted] had made her feel uncomfortable or unsafe in the time she had known him.

9. At the Corner Club, [redacted] remembered the core group of friends hanging out as herself, Mogen, Goncalves, [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] and [redacted] (her boyfriend). [redacted] recounted an interaction between [redacted] and [redacted] [redacted] [redacted] was attracted to [redacted] and kept trying to get her phone number. [redacted] did not give it and did not want to interact with him. [redacted] was staring at her to the point [redacted] noted it was uncomfortable. [redacted] tried to convince [redacted] to give him [redacted] phone number, but she refused. [redacted] and her friends essentially worked on keeping [redacted] and [redacted] apart since he was making her so uncomfortable. Eventually, [redacted] was removed from the bar.

9. [redacted] spoke of what she described as "a weird interaction" among Goncalves, Mogen, and [redacted] [redacted] [redacted] described [redacted] as a "weird" person who was fairly aggressive and got into a lot of fights. [redacted] was not a person that she, Goncalves, or Mogen would typically associate with. Goncalves and Mogen left the Corner Club with [redacted] and it was [redacted] understanding they were going to John's Alley. [redacted] almost went with them, but his friends convinced him to stay at the Corner Club. [redacted] did not see them leave so she was not exactly sure what time that was. [redacted] thought it was strange that Goncalves and Mogen would both leave with [redacted] since he was not their "type" of people.

10. [redacted] could not remember what time she and [redacted] left but took a video of [redacted] drinking a beer. The timestamp of that video was approximately 0100 hours on Sunday, November 13. After that, they left the Corner Club on foot.

11. [redacted] was part of a group on Snapchat that included herself, Goncalves, Mogen, and several others. It was a group of friends and classmates. When [redacted] got home, she went to bed. She woke up on Sunday morning and saw a notification that a video had been sent from either Goncalves or Mogen. The video was of Goncalves and Mogen outside a food truck. [redacted] described them as "acting goofy" while taking the video and enjoying themselves.

12. [redacted] was somewhat emotional during the interview. I told [redacted] that other investigators would possibly be in touch with her.

13. Investigation continues. End of report.

Narrative

D. The only time he had contact with Goncalves outside of their professional relationship was when he took his three daughters and wife to Goncalves' sorority house so his daughter could sell chocolate bars to the sorority as a fundraising event for an international trip.

E. The only communications he had with Goncalves was regarding her role as a [redacted] and was typically via text message.

F. He will periodically take [redacted] to get coffee after they successfully complete their [redacted] [redacted], but he couldn't remember definitively if he had taken Goncalves to coffee during her time in [redacted] [redacted]

G. He couldn't remember the exact dates but knew Goncalves was a [redacted] from January to March, 2022.

H. On the night of November 12, and into the early morning hours of November 13, 2022, he was at home with his family. He was with his three daughters at home while his wife, [redacted] was at a "Ladies Night" from about 6:00 p.m. until 10:00 p.m. He put his children to bed at about 9:00 p.m. and then he went to bed shortly after. When his wife arrived home around 10:00 p.m., he was already asleep in bed. [[redacted] called his wife while we were speaking and placed it on speaker phone. She provided the same information as [redacted] previously provided.]

2. [redacted] was initially agreeable to providing a deoxyribonucleic acid (DNA) exclusionary sample but was hesitant to allow his cellular telephone (cell phone) to be forensically extracted. [redacted] had to leave to [redacted] but agreed to provide the DNA sample later that evening, after discussing the matter of the cell phone extraction with his wife.

3. At about 5:00 p.m., [redacted] contacted me by phone and told me he intended to seek legal council before providing a DNA sample or allow his cell phone to be forensically extracted. [redacted] told me he would contact me on December 12, 2022 to finalize his decision.

4. On December 12, 2022, I processed the audio recording of the interview into evidence at the Moscow Police Department (MPD) and transferred the recording to MPD Evidence Technician Tim Smallridge.

5. On December 13, 2022, at about 5:00 p.m., I contacted [redacted] by phone after he failed to contact me the previous day. [redacted] told me he did not believe he had done anything wrong, he had been a "...good Samaritan..." by allowing Goncalves to be [redacted], and he didn't understand why he was on the contact list in the first place, therefore he was declining to provide a DNA sample or his phone for extraction.

Narrative

1. On November 19, 2022, at approximately 1119 hours, I, Idaho State Police (ISP) Detective Brady Walker, called [redacted] (DOB [redacted]/2002) at [redacted] from my ISP issued cell phone while at the Moscow Police Department. ISP Detective Andy Hodl was present. The intent was to set up a time for an interview, but I learned [redacted] was out of town. Detective Hodl started an audio recording shortly after [redacted] informed us she was out of the area, and I began the interview.

2. [redacted] started at the University of Idaho (U of I) the year before and met Madison MOGEN and Xana KERNODLE through her sorority ([redacted] She grew close with KERNODLE. She met Kaylee GONCALVES around the middle of August (2022). She met [redacted] and [redacted] through her [redacted] the year before and their relationship grew closer after the start of the school year August 2022.

3. [redacted] visited 1122 King Road at least once every weekend and described it as a "party house". She would usually arrive at the house before other guests. The parties consisted of playing games and drinking. [redacted] described the parties as people mingling with each other and playing beer pong and being more relaxed than rowdy or rambunctious. There were only a few occasions where [redacted] would go there to simply watch a movie or do something other than party. The parties occurred about once a week on Friday or Saturday and were normally attended by twenty to thirty people.

4. The parties were normally attended by the same twenty or thirty people. If a person showed up randomly to the party without being invited, they would not be allowed to stay. [redacted] had not been there when that had happened. She knew of a house close by where KERNODLE had lived the year before where athletes would show up at a party if they heard about it. However, they were not welcome and were asked to leave. [redacted] later texted me a picture of a map of the neighborhood and circled the residence where KERNODLE lived previously. That address for the house she pointed out was [redacted].

5. [redacted] said [redacted] was dating a male named [redacted] who lived in Boise, and thought they had dated for a couple of years. She had not met [redacted] and did not believe he had visited Moscow. [redacted] would usually visit [redacted] during school breaks. The only complaint [redacted] had about [redacted] was how much he played video games. [redacted] did not believe [redacted] had a relationship with another male during this time.

6. [redacted] did not have a boyfriend at the time. She somewhat dated a male named [redacted] [redacted] and they [redacted]

[redacted] at least once, but the relationship did not really develop.

7. Ethan CHAPIN stayed with KERNODLE almost every night. [redacted] did not see CHAPIN and KERNODLE on Saturday night (November 12th) but had seen them on Friday (November 11th) and described their relationship as good. She described CHAPIN as helpful to the other girls and said he seemed to fit in the house without any issues.

8. [redacted] had met MOGEN's boyfriend a couple times and had last seen him at Homecoming at the beginning of October. She didn't know MOGEN that well, and they did not have deep personal discussions.

9. [redacted] had not met GONCALVES' boyfriend. When [redacted] was at the house, GONCALVES was usually gone or upstairs in her room.

10. On the night of November 12th, [redacted] was at another house party with some other friends. [redacted] later sent me a picture of the location of the other house party which was [redacted]. [redacted] listed the attendees of that party as [redacted] [redacted] (female), [redacted] [redacted] (male), [redacted] [redacted] [redacted] [redacted] and eventually [redacted]. There were potentially other attendees, but she did not know everyone so she could not remember. All attendees were students. At this time, [redacted] thought CHAPIN and KERNODLE were still at the [redacted] party.

11. When [redacted] left [redacted], she and [redacted] got a ride from a sober freshman in a fraternity to 1122 King Road. She could not remember the make of his car.

12. [redacted] could not remember exact times that she left the party and went to 1122 King Road. She had taken videos and photographs that night, and said the time stamp from the last video at [redacted] was at 11:54 p.m. The time stamp from the first video at 1122 King Road was 12:43 a.m.

13. When [redacted] arrived with [redacted] at 1122 King Road, she went straight to the bathroom on the main floor. They entered through the front door with the keypad lock. Several other people have the front door code, and the sliding door on the main level had not been locked when she was there. She believed [redacted] got home right after she and [redacted] but knew they all arrived around the same time. She was not aware of anybody else being home and stayed on the main floor the entire time she was there.

14. After [redacted] went to the bathroom, they went to the kitchen where [redacted] made popcorn. [redacted] sat on the floor and played with Murph, GONCALVES' dog. She thought that [redacted] had let Murph out. After the popcorn was made, they went to the living room and started watching Vampire Diaries. They didn't have much conversation while watching the movie. [redacted] took several "selfies" and videos. After leaving, [redacted] walked back to her sorority house ([redacted]. The time stamp on the last photograph she took at 1122 King Road was 1:33 a.m., and the first time stamp from media at her sorority was 2:19 a.m. She estimated it took about fifteen minutes for her to walk home.

15. While [redacted] was at 1122 King Road, she was only aware of [redacted] and [redacted] being present and did not see or know of anyone else being at the house. She left through the front door and did not see anything of note while walking home. After leaving 1122 King Road, she did not hear from [redacted] or [redacted] until after receiving the Vandal Alert the next day.

16. [redacted] could not think of anyone who would be capable or involved in this incident. She also could not remember any instance of one of the victims mentioning a stalker or anything of that nature.

17. [redacted] sent me several screenshots of social media contacts and contact cards for some of the people she mentioned. She also sent pictures and videos she took that night at [redacted] and 1122 King Road, as well as the previously mentioned map screenshots. The audio recording of the interview, as well as the photographs sent, were saved with this report, Supplement 62, and will be submitted to evidence at the Moscow Police Department.

18. End of report.

She had been at a party at [redacted] with [redacted] and several other people before going to 1122 King Road. I had [redacted] show me the videos and photographs again so I could verify the timestamps and confirm when her last media at [redacted] and the first media at 1122 King Road was captured.

3. [redacted] estimated that when she and [redacted] arrived at 1122 King Road, on a scale of 1 to 10 with 10 being "passed-out drunk", they were both a "6 or 7". [redacted] thought she might have been more intoxicated than [redacted] was.

4. The first video [redacted] said was captured at 1122 King Road had a timestamp of 11/13/2022 at 0043 hours. She and [redacted] arrived together and nobody else was home. [redacted] said when she got to 1122 King Road, she went immediately to the bathroom on the second floor and used it. The video begins close-up of [redacted] using the rear-facing camera. [redacted] switches to the main camera and zooms in on a pile of clothes in the bathroom. There was a pair of Calvin Klein boxer briefs among them and [redacted] believed the clothing to be CHAPIN's.

5. The next video was 0048 hours and depicted [redacted] sitting on the floor of the kitchen petting Murph (GONCALVES' dog). [redacted] had previously told me that [redacted] had made popcorn before they watched a movie, and that she could not remember exactly when [redacted] arrived home. In this interview, [redacted] remembered that she and [redacted] were already on the couch watching Vampire Diaries when [redacted] arrived home.

6. [redacted] had several photographs and videos taken while she was watching Vampire Diaries in the living room with [redacted] and [redacted]. At 0124, she took a selfie with [redacted]. At 0124, she then took a selfie with [redacted] and [redacted]. At 0128, she took a selfie with [redacted]. These pictures appeared to be taken on the couch.

7. The last picture taken at 1122 King Road had a timestamp of 0133 hours. The picture was of [redacted] asleep under a blanket. [redacted] had been dozing off during the movie.

8. The first level of 1122 King Road had an unoccupied bedroom with a bed in it. [redacted] and [redacted] offered the bed to [redacted] if she just wanted to stay the night there. [redacted] considered it but decided to go home. [redacted] had previously stayed in the spare bedroom and knew the bed was not very comfortable. [redacted] stated she didn't pass any of the other four roommates on her way home.

9. The first picture [redacted] had back at her sorority [redacted]) was taken at 0219 hours. The picture was of a partial bagel on the floor. [redacted] estimated it takes about fifteen minutes for her to walk from 1122 King Road back to her sorority. She went immediately to her room on the third floor, got a bagel, prepared it, and ate part of it before she dropped it. [redacted] best guess was that she had left 1122 King Road at approximately 0200 hours.

10. The only drug use [redacted] could recall of the four victims was that CHAPIN and KERNODLE was occasionally [redacted].

11. We had received a tip that an incident had occurred during parent's weekend at University of Idaho in [redacted] and [redacted] travel trailer. After speaking with [redacted] we spoke to [redacted] and [redacted] regarding it. They told us that a male named [redacted] [redacted] (believed DOB of [redacted]/2002) had hit a student's mother in the head with a water bottle. [redacted] removed [redacted] from the trailer, dragged him across the parking lot, told him he was never welcome in the trailer again, and sent him away with a sober driver. In their opinion, he was extremely intoxicated, and that was the only contributing factor in the incident.

12. The audio recording of the interview was saved with the supplement number of this report and will be submitted to evidence at the Moscow Police Department.

13. End of report.

Narrative

1. On December 6, 2022, at approximately 1630 hours, I, Idaho State Police (ISP) Detective Brady Walker, along with ISP Detective Gary Tolleson, interviewed [redacted] [redacted] [redacted] (DOB [redacted]/2002) at the Moscow Police Department. [redacted] had been in the [redacted] [redacted] as Goncalves and initially contacted the tip line regarding a potential stalker situation. [redacted] completed a written Adult Victim Background Questionnaire and was subsequently interviewed. Detective Tolleson recorded the interview.

2. The following is a summary of the information discussed. For exact details, refer to the questionnaire, the audio recording, and the media provided by [redacted]

3. [redacted] did not know Goncalves' mother's name, but Goncalves spoke to [redacted] about the fights she and [redacted] [redacted] had. [redacted] described them as "average" [redacted] fights, such as Goncalves needing to pay for her own phone. When Goncalves was in her freshman year, she did not get along with [redacted]. [redacted] had not met Goncalves' [redacted].

4. Goncalves and her boyfriend [redacted] had a very positive relationship. Whenever they broke up, it was always her (Goncalves). When she would break up with [redacted] she never seemed mad about it, and would hang out with the sorority sisters more. [redacted] described [redacted] as shy.

5. [redacted] described Goncalves as the most "down to earth person" with a contagious smile. After Goncalves dropped from the sorority, she started hanging out with [redacted] more, but their relationship would pick up where it left off when they would see each other.

6. [redacted] could not recall any significant events prior to Goncalves' death. Goncalves drank "the normal average" for a college student and was not into drugs. She did not engage in abnormally risky behavior. When [redacted] saw Goncalves, she was frequently doing homework.

7. Goncalves was closest to Madison Mogen, but [redacted] listed several people in her sorority she was also close to. [redacted] listed them as [redacted] (believed to be [redacted], DOB [redacted]/2001), [redacted] (unknown further), and [redacted] (believed to be [redacted], DOB [redacted]/2001). [redacted] was Goncalves' [redacted] which was described as a [redacted]

8. [redacted] did not recall an instance where Goncalves expressed discomfort or fear about anyone. When she and [redacted] would break up, Goncalves wouldn't be upset. [redacted] believed Goncalves was always the one that ended things due to her being bored with the relationship. At one point when she and [redacted] broke up, she had an interest in [redacted] [redacted] who is a U of I student and lives in Coeur d'Alene. This is believed to be [redacted] [redacted] [redacted] [redacted] (DOB [redacted]/2002). [redacted] did not know anyone who disliked any of the victims.

9. [redacted] described an incident involving [redacted] (DOB [redacted]/2000) when she lived at [redacted] [redacted] which is directly below 1122 King Road, and the [redacted] [redacted] [redacted] phone number is [redacted]. Once at the [redacted] [redacted] [redacted] and her roommates came out to the kitchen to find the dishwater clean/dirty sign changed to "fuck off -Jeff" with a steak knife bent in half next to it. None of the occupants had any idea who "Jeff" would be.

10. While [redacted] was living at [redacted] [redacted] she had returned from Boise and left her suitcase in the car. When she came out in the morning, someone had moved the personal effects from the front of her car (such as lip gloss and other accessories) had been moved into her suitcase. Her suitcase was removed from the vehicle and left in the middle of the cul-de-sac. Nothing was taken except for her underwear. A footprint was found on the seat of her car. [redacted] reported the incident to Moscow Police. The night after the car burglary, [redacted] and her roommate were the only ones home, but heard someone walking around upstairs very slowly.

11. [redacted] sent two screenshots of the text conversation with [redacted] The screenshots were saved on a USB drive under Supplement 065.

12. [redacted] described [redacted] [redacted] as more strict for party attendance, as in you had to be invited or be part of the

function to attend. 1122 King Road was more lax in that respect.

13. [redacted] recounted several instances where she believed she was being watched by a male who went by [redacted] [redacted] believed [redacted] lived in the [redacted] [redacted] [redacted] [redacted] described [redacted] as a white male in his thirties with a [redacted] beginning to bald on top. He was about [redacted] and had a large, but not muscular, stature. [redacted] saw [redacted] walking around the sorority house several times. When she would return from going on a run, [redacted] would appear behind her.

14. [redacted] would have to walk in front of these apartments on the way to her sorority and began getting messages on Instagram from username [redacted] as she was passing by. From September 1 to September 15, 2020, this user sent several messages. The user seemed to believe that [redacted] would smile and wave at them. [redacted] blocked the user on September 15, 2020. [redacted] sent screenshots of the conversation and of a picture of a male on the profile. [redacted] said the profile had since been removed from Instagram.

15. The audio recording of the interview will be saved under a folder associated with Supplement 065 and submitted to evidence at Moscow Police Department. The tip information, as well as the adult victim background questionnaire, was scanned and attached to this supplement.

16. End of report.

Narrative

1. On November 19, 2022, at approximately 1500 hours, I, Idaho State Police Detective Matthew Heinle along with Detective Andy Hodl conducted a canvass of the neighborhoods of Ridge Road and Paradise Drive in Moscow, Idaho. The purpose of the area canvass was to identify houses with doorbell or external cameras and collect footage during the early morning hours of Sunday, November 13, 2022.

2. The houses in the area with cameras were as follows:

Narrative

a. [redacted] - Residence had a doorbell camera, but it did not appear to be working. House was under construction and did not appear to be occupied. A neighbor ([redacted] [redacted] told Detective Hodl and I the house had been crashed into by cars on two separate occasions recently.

b. [redacted] - Residence had external cameras, but the homeowners were not home/did not answer the door. A business card was left at the front door. No footage was collected.

c. [redacted] - Residence had an external camera but is live-feed only and does not record. Detective Hodl and I spoke with homeowner [redacted] [redacted] who said she was home on Sunday morning but did not hear or see anything noteworthy. No footage was collected.

d. [redacted] - Residence had no cameras but spoke with homeowners. They were home on Sunday morning but did not hear or see anything noteworthy.

e. [redacted] - Residence had a doorbell camera, but homeowner told Detective Hodl and I it was not functioning on Sunday. No footage was collected.

f. [redacted] - Residence had a doorbell camera. Homeowner answered the door through the camera and stated they were in Spokane, Washington but would be home the following day (Sunday, November 20). Homeowner said they would be available to meet after 1400 hours. On November 20th at approximately 1400 hours, I went back and meet with [redacted]-[redacted] ([redacted], to review/collect footage. I reviewed [redacted]-[redacted] doorbell camera footage and it did not record or store any events or footage prior to, during or after the timeframe of the incident.

g. [redacted] - Residence had external cameras but homeowner [redacted] [redacted] [redacted], did not pay for a cloud storage service so his cameras only have enough memory to hold 2 - 3 days before being overwritten. Via a Wyze app on his iPhone, [redacted] was able to review video sent to the cloud but could not download or email it. [redacted] took a screen recording of the videos and Air Dropped it to my work phone. That footage was later downloaded by Moscow Police Detective Lawrence Mowery at the Moscow Police Department. Later that evening, at approximately 2141 hours, [redacted] texted me another video date and time stamped 11/13/2022 at 0413 hours. Detective Heinle sent Detective Mowery the additional video.

h. [redacted] - Residence had a doorbell camera, but the lens was cracked and broken. The camera does work but video is distorted. Homeowner [redacted] does not pay for storage service and there were no historic videos available. No footage was collected.

i. [redacted] - Residents of this address saw the police canvassing through their doorbell camera but did not answer the door. When they realized it was the police, they drove around the neighborhood to find the police and speak with them. They had cameras but nothing of note was captured. No footage was collected.

11. End of report.

Narrative

1. On Wednesday, November 30, 2022, I, Idaho State Police (ISP) Senior Detective Gary Tolleson, was assigned by ISP Detective Gideon Roberts to investigate the purchase of a 2015 Range Rover by Kaylee J. Goncalves (DOB [redacted]/2001) from the [redacted] in Spokane Valley, Washington.

2. Detective Roberts sent me an email with the following, "Kaylee Goncalves purchased a silver 2015 Range Rover from [redacted]in Spokane Valley on 11/10/2022, according to her father. We'd like to have the salesman (unknown) interviewed for the details of the sale i.e., cash or loan, who was with her, anything unusual."

3. I telephoned Washington State Patrol in Spokane, Washington and asked for a law enforcement (LE) contact with Washington State Department of Motor vehicles. I was given several telephone numbers. I made telephone contact with [redacted] [redacted] who is a [redacted] [redacted] She assisted me with registering into a DMV portal and then helped me add my request for the title history of the Range Rover.

4. I received the Range Rover title information, which showed the vehicle being owned by a [redacted] [redacted] [redacted] who lived in Spokane, Washington. The lien holder on the vehicle showed [redacted] [redacted] [redacted] of Spokane, Washington. The previous owner to [redacted] showed as [redacted] and [redacted] [redacted] of Graham, Washington.

5. A release of interest in the vehicle was signed by [redacted] [redacted] [redacted] on [redacted]/2022 to [redacted] [redacted] Spokane Valley, Washington.

6. On December 8, 2022, I sent an email to [redacted] [redacted] [redacted] asking for him help on the Range Rover Kaylee Goncalves purchased in Spokane Valley. It was apparent that there was either a mistake in who owned the vehicle or there was a delay while the vehicle was being transferred from the auto dealer to Kaylee Goncalves.

7. On December 12, 2022, I received and email for [redacted] [redacted] The Range Rover now showed purchased by Kaylee Goncalves on **11/10/2022** from [redacted] [redacted] Spokane Valley @ ([redacted]; [redacted] [redacted] is listed on the sale documents representing [redacted] [redacted] of Spokane Valley. I telephoned [redacted] [redacted] and confirmed the purchase of the vehicle. (Copies of the Washington and Idaho DMV and title paperwork placed into evidence with Moscow Police Department by me.)

8. On Thursday, December 15, 2022, I drove to [redacted] [redacted] in Spokane Valley, Washington. I spoke to the salesman who sold the Range Rover to Kaylee Goncalves, [redacted] **(DOB [redacted]/1994).** [redacted] [redacted] told me that Kaylee came to the car dealership twice to look at the Range Rover. The first time she showed up with her two grandmothers, the second time she came with her mother [redacted] and her grandmother [redacted] [redacted] [redacted] told me he saw no drama or conflicts between Kaylee and her mother or grandmothers during the sale.

9. Kaylee bought the Range Rover for $24, 423. She put down $6,500 cash and her [redacted] [redacted] put in $1,000.00 on a credit card, a total of $7,500 down payment. (A copy of the [redacted] [redacted] advertisement offering the vehicle for $24,423 was placed into Moscow Police Department evidence by me.)

10. Sometime after Kaylee purchased the Range Rover, the "check engine light" came on. She called and texted [redacted] [redacted] to complain about this. He told her they would come get the car from her if the light did not go off. [redacted] [redacted] explained to me that the light could come on for many reasons, but they were unable to figure this out.

11. [redacted] [redacted] forwarded me copies of the text messages between he and Kaylee about the car problem. (The text messages are also placed into Moscow Police Department evidence by me.)

Narrative

12. After the murders, [redacted] [redacted] contacted [redacted] [redacted] [redacted] and wanted to return the Rover. Later she contacted them and told them that her husband did not want to return the vehicle.

13. I also spoke with the finance manager, [redacted] [redacted], who confirmed the price of the vehicle as $24, 423. He also confirmed that Kaylee put down $6,500 in cash and the grandmother put $1,000 on a credit card. Kaylee put in her credit application that she made $3,200 a month as an [redacted] for [redacted] and had been working for them for five months at that time.

14. According to [redacted] [redacted] Kaylee was a first-time buyer, so her credit was good, she received the car loan without having to have a co-signer.

15. When [redacted] [redacted] contacted them about returning the car, the dealership put $1,000 back into the [redacted] credit card. Then when they found out the family was keeping the car, they took $1,000 back out.

16. [redacted] [redacted] saw nothing unusual during the sale. He told me he did try to sell Kaylee an extended warranty, but she declined. [redacted] said the vehicle has a three-month warranty by [redacted] after sale. [redacted] [redacted] is now waiting for the Rover to be returned to the family. Then it can be brought into the dealership to work on the check engine light problem.

15. Case continues.

Summary Narrative

On November 13, 2022, at about 5:40 p.m., I, Idaho State Police (ISP) Detective (Det.) and Federal Bureau of Investigation (FBI) Task Force Officer (TFO) Gideon Roberts assisted with the processing of a quadruple homicide scene, located at 1122 King Street Moscow, Idaho. The victims were identified as Kaylee Goncalves, Madison Mogen, Xana Kernodle, and Ethan Chapin. I was assigned by ISP Det. Jeff Talbott to photograph the scene.

Narrative

1. On November 13, 2022, at about 5:40 p.m., I assisted with the processing of a quadruple homicide scene, located at 1122 King Street Moscow, Idaho. I was assigned by Det. Talbott to photograph the scene.

2. While photographing the scene, I deleted photographs (photos) that were completely washed-out, expecting the deleted photos serial number to be reassigned to the next photo captured, and the photo serial numbers to continue in sequential order. Later, as I was completing the photo log, I discovered that each photo I deleted also deleted the associated serial number instead of reassigning it, causing a gap in the sequential order i.e., ISP_4639, ISP_4641.

3. I completed the photo log and included it in the case file. The photos were transferred to the Moscow Police Department.

Narrative

1. On November 19, 2022, I, Idaho State Police Detective Leslie Lehman conducted a phone interview with [redacted] [redacted] member [redacted] [redacted] [redacted] [redacted] was identified as the [redacted] of the [redacted] [redacted] [redacted] at the University of Idaho campus.

2. [redacted] was located at home in Tri-Cities, Washington when I called him. I asked [redacted] about the [redacted] [redacted] party the night of November 12, 2022. [redacted] confirmed there was a party at the [redacted] house and there was a guest list for the party. [redacted] said there was a ratio of two guests allowed for every [redacted] member. [redacted] explained the security measures the fraternity uses to avoid people being able to sneak into the party. The [redacted] is the area in the fraternity house where events are held. [redacted] said the party went from 09:30 p.m.

until 01:00 a.m. and he said the party went well.

3. [redacted] said he has spoken to members of the fraternity who saw Ethan Chapin and Xana Kernodle at the party. [redacted] believes [redacted] [redacted] was the last person to see Ethan and Xana at the [redacted] house. [redacted] recalled speaking to [redacted] about Xana having never been to [redacted] ([redacted]), [redacted] [redacted] neighboring fraternity. [redacted] planned to take Xana to visit the neighboring fraternity at the conclusion of the [redacted] party, but Xana and Ethan did not make it.

4. [redacted] was at the [redacted] party but did not remember seeing Ethan and Xana. [redacted] said house members who remembered seeing Ethan and Xana also included [redacted] [redacted] who may have had phone contact with Ethan at 01:30 a.m.

5. [redacted] confirmed there was no surveillance video in the [redacted] house. [redacted] said personal videos taken in the house are not supposed to be posted on the internet.

6. [redacted] confirmed the [redacted] [redacted] of the [redacted] [redacted] [redacted] is [redacted] [redacted] and he would also have a copy of the list of those in attendance at the party on November 12, 2022.

7. [redacted] had Ethan on Snap Chat and said many other fraternity brothers would have his Snap Chat.

8. [redacted] said Ethan's closest friends in the fraternity would be [redacted], [redacted] [redacted] [redacted] ([redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] [redacted] and [redacted] [redacted] ([redacted] roommate).

9. [redacted] believed the [redacted] party was the last party of the night at the campus. There may have been after parties at different fraternities or at the [redacted].

10. [redacted] last saw Ethan and Xana at the [redacted] on November 11, 2022 and remembered having a conversation with Xana.

11. Xana has never spoken to [redacted] about anything that was troubling her or having issues with people at her apartment.

12. [redacted] has never interacted with Kaylee Goncalves or Madison Mogen and believed the people he has listed would have known them because of their friendship with Ethan and Xana. Xana would bring her house mate [redacted] with her to hang out at [redacted] [redacted] did not remember ever meeting Xana's house mate [redacted]

13. At 1122 hours, I conducted a phone interview with [redacted] [redacted] at [redacted]. ISP Trooper Kristen Noah was present for the interview.

14. [redacted] was with Ethan and Xana at the [redacted] party, which ended at 0100 hours on November 13, 2022. Following the end of the party, Ethan and Xana went to [redacted] [redacted] ([redacted] #[redacted] in the [redacted] house. After Ethan and Xana gathered some items in [redacted] [redacted] the group, including [redacted] girlfriend, [redacted] [redacted] returned to [redacted] within the [redacted] house. [redacted] believed the couple packed up a couple of beers and Ethan's black dress jacket, possible into a bag carried by Xana. This was the last time [redacted] saw Ethan and Xana. Ethan and Xana did not tell [redacted] where they were going to after leaving [redacted]. [redacted] can only assume that Ethan and Xana left on foot and returned to 1122 King Street.

15. [redacted] said he and a group went over to [redacted] ([redacted]) following the [redacted] party, but he did not see Ethan and Xana at [redacted].

16. [redacted] said he and Ethan attended a formal at [redacted] prior to the [redacted] party. [redacted] said the theme at the [redacted] party was sports oriented, but [redacted] could not recall exactly what Ethan and Xana were wearing during the parties.

17. [redacted] had a photo of Ethan at the formal party but did not have any other photos of the evening.

18. [redacted] interacted with Ethan almost every day as both were in [redacted] and close friends. [redacted] said Ethan did not have any enemies and did not have any problems with anyone.

Narrative

19. [redacted] said the same about Xana regarding her being a happy person without enemies. [redacted] has known Xana since his freshman year.

20. [redacted] could not speak to issues with Xana's security around the area or her apartment. [redacted] felt Ethan would spend the night at Xana's due to the distance to his own apartment and not because she was experiencing security issues at her apartment.

21. [redacted] has met Kaylee Goncalves and Madison Mogen but did not know them well. [redacted] said the same for [redacted] and [redacted].

22. [redacted] was last at the 1122 King Street address on the Friday prior to the homicide. He spent fifteen to twenty minutes there playing "Pong" then went to the [redacted].

23. [redacted] emailed me the [redacted] party attendance list and a timeline he had established regarding the night of November 12, 2022, and the interaction with Ethan and Xana and the [redacted] members. The documents were forwarded to ISP Detective Ryan O'Harra for further investigation.

24. The audio of the interviews conducted, the emails exchanged with [redacted] and the screen shots of the text messages exchanged with [redacted] have been saved to disc and will be given to Moscow Police Department as an attachment to this supplement.

Narrative

1. On November 15, 2022, ISP Det. Hugh Powell and I conducted an interview with [redacted] at the Moscow Police Department, located at 155 Southview in the city of Moscow, Latah County, Idaho. Reference the video/audio interview recording for full details. [redacted] provided the following information:

A. He left his apartment at approximately 8:00 p.m. on November 12, 2022, with a female friend named [redacted] They went to Mingles, a bar in Moscow, ended up meeting another female friend there, and the three of them left for Corner Club between approximately midnight and 1:00 a.m.

B. At the Corner Club he really noticed a girl who "couldn't stand", was touching everyone, and he stated, "I thought she was on something. So I was like this chick is just your classic like college girl that took a pill and didn't know what it was or something, you know." This female was later identified Madison Mogen (Mogen).

C. [redacted] [redacted] and another male left Corner Club at approximate closing time and went to the Grub Truck, a food truck located in Moscow, Idaho. After they got to the Grub Truck, he noticed Mogen arrive with another female, who was later identified as Kaylee Goncalves (Goncalves). Mogen appeared extremely intoxicated, to the point she was falling against the Grub Truck repeatedly. He noticed a male standing near Mogen and Goncalves and believed he was there with them. This male was later identified as [redacted] [redacted] ([redacted]

D. He had a conversation with [redacted] at the Grub Truck. [redacted] said he was there just to make sure the girls got home safe. [redacted] asked him how he felt about being recorded and then pointed out the livestream recording on the Grub Truck. They continued talking about inconsequential topics, like cars, the weather, how their night was going, etc.

E. It seemed like [redacted] knew a group of fraternity guys who were waiting at the Grub Truck. Mogen and Goncalves were whispering to each other, looking at [redacted] and giggling. He thought [redacted] was in the "Friendzone", when describing the dynamic between the three. He felt like [redacted] was annoyed with the girls, saying he kept shaking his head at them, taking deep breaths, and sighing.

F. A blue car, possibly a Honda, eventually pulled up near the Grub Truck and he saw Mogen and Goncalves get

into it and leave. He was unaware of [redacted] location or actions until he reviewed the recorded livestream footage later but had initially thought he left with them in the car.

2. The audio/video interview was downloaded and turned over to Moscow Police Department evidence.

2. [redacted] was a graduate student and [redacted] at [redacted] working in the [redacted] program. She was a fellow colleague of KOHBERGER and had an [redacted] [redacted] to his. She also working on a project with KOHBERGER in a limited capacity. The project was a part of the Division of Governmental Studies and

Services (DGSS).

3. She had limited interactions with KOHBERGER while working with the DGSS. One interaction was on a zoom call. The other was a follow up question concerning the project.

4. She first met KOHBERGER August in her office, two other graduate students were present. He told her he was from Pennsylvania, and he enjoyed hiking. They also spoke about his field of study, offender decision making. He was particularly interested in how emotion played a role in how offenders make decisions.

5. Troughout the semester, she would routinely discuss criminal justice topics with KOHBERGER.

6. They discussed the use of alcohol and the effects of marijuana on society. He told her he was not a drinker and did not understand why people drank.

7. She said KOHBERGER really liked to discuss research and he liked to dominate the conversations. She described him standing in the doorway and hovering. She never felt uncomfortable around him. He had a macho demeanor about him and would appear to be puffed up. The only thing she felt was off about KOHBERGER was his intense stare. He would intensely stare at people even when he wasn't having a conversation with that person.

8. She described having a conversation with him in her office she tried to end, and he would not stop talking. She told him she was leaving because she wanted to avoid getting a parking violation. She walked out and he continued to talk to her while she was walking to her car.

14. She did recall one other staff pulled her aside and made her aware of a possible issue with him stalking another member of the staff. An incident took place where he asked out the other staff member and had followed that individual outside to her car. A report was filled with the office of civil rights. The [redacted] he asked out was [redacted]

15. She was shocked the homicides happened. In her hindsight, the homicides may have taken place because he had been rejected by someone. She had no knowledge of KOHBERGER talking about the homicides.

16. At approximately 2:22 p.m. the interview concluded.

17. For further detail refer to the audio recording of this interview.

18. A copy of this interview was downloaded to a CD and transferred to the Moscow Police Department.

7. She described KOHBERGER as weird, but he had never threatened her. In one instance after class, KOHBERGER and her were alone. When she was trying to leave the classroom, he blocked her exit. She described him blocking her with his physical stance. KOHBERGER said they should meet up sometime and talk about her professional career. She felt like he just wanted to keep the discussion going even though class was over.

The weather did not really call for a heavy coat.

10. She described KOHBERGER engaging regularly in classroom discussions. After the homicides, the topic was discussed during class. She thought it was odd that KOHBERGER never participated in the discussions about the Moscow homicides. KOHBERGER continued to engage in other discussions and appeared to be more cheerful.

Summary Narrative

During the period of November 16, 2022, through January 7, 2023, I, Idaho State Police (ISP) Detective (Det.) Joe Lake performed telephonic triage interviews of people associated to the victims and survivors of the November 13, 2022, quadruple murder in Moscow, Latah County, Idaho. These triage interviews were to determine if an in-person interview would be required. The full interviews conducted were documents in ISP reports and Federal Bureau of Investigation (FBI) reports, see reports for full details.

Narrative

1. From November 16, 2022, through January 7, 2023, I conducted telephone triage interviews with people associated to the victim and survivors of the quadruple murder in Moscow, Latah County, Idaho. The triage telephone interview determined the extent of information the person possessed and if an in-person interview should be conducted. The following is a summary of the triage interviews:

A. On December 7, 2022, I telephoned [redacted] claimed she knows victim Ethan Chapin and "others" and was present at the [redacted] party with her best friend, [redacted]. She believed Ethan wasn't acting like himself and keeping to himself. [redacted] she later stated she may have mistaken the identity of the person she believed was Ethan. She provided via email a vague video from the party; no evidentiary value was obtained in the video. The provided video is added to evidence data of this report.

B. On December 14, 2022, I telephonically interviewed [redacted]explained she has known Kaylee from Coeur d'Alene, Idaho. Although [redacted]was a couple years ahead of Kaylee in school, they were friends. [redacted] sorority [redacted], [redacted] Kaylee's [redacted] within the sorority. Kaylee had two sorority[redacted]and [redacted]has worked for [redacted] for the last couple years and at the beginning of the 2022 school year, [redacted]helped Kaylee obtain an internship with [redacted]. [redacted] is a small company and during Kaylee's internship she worked within several elements of the company, sales, marketing, etc. Her boss was [redacted]who is based out of Canada. Kaylee was in the pipeline for a full-time position, but the official offer had not yet been presented. It was known to [redacted] that Kaylee would be moving to Austin, Texas and working for the company based out of Texas. [redacted] had not had regular or routine contact with Kaylee, but they did periodically talk over the past couple years. [redacted] is unaware of any issues related to Kaylee or the murders.

C. On December 15, 2022, I spoke with [redacted]. [redacted] facilitated victim Kaylee Goncalves' knowledge about salary negotiations but did not directly negotiate her salary with [redacted]. [redacted]believed Kaylee was in a "full-time" paid intern program at [redacted] and being paid $20 to $27 per hour, she leaned toward the $27 per hour.

D. During mid December 2022, I telephoned [redacted] [redacted] [redacted] [redacted] had graduated college and currently lives in Tacoma, WA, she is a close friend to Madison, Xana, and Kaylee. [redacted] boyfriend is [redacted]

Narrative

[redacted] from [redacted], [redacted] is close friend to [redacted]. She believes [redacted] is a violent person and provided her version of an incident at a Halloween party when [redacted] was making rude comments about other people and [redacted] [redacted] (close friend) corrected him. [redacted] boyfriend, [redacted] stepped in and was struck by [redacted]. [redacted] then grabbed [redacted] by the hair and threw her to the ground. They later reconciled the differences. It was rumored that [redacted] and [redacted] had hooked-up in a sexual relationship. She feels [redacted] objectifies women and is a violent person. See Federal Bureau of Investigation report for interview of [redacted]

E. On December 16, 2022, I received a tip from Latah County Sheriff Richie Skiles. I telephoned Sheriff Skiles and discussed the tip and the source. The tip stated [redacted], a former [redacted] Department [redacted] could be responsible for the quadruple murder. I conducted follow-up with Moscow Police Department and obtained telephone information from the MPD [redacted] who had maintained communications with [redacted] [redacted] had moved to [redacted] prior to the murders and telephone communications confirmed [redacted] travels and location. [redacted] is not a person of interest for this investigation.

F. On December 21, 2022, I telephoned [redacted]. [redacted] is a [redacted] and friends with victims Ethan Chapin and Xana Kernodle. [redacted] knew victim Kaylee Goncalves as a previous neighbor, but were never close. She did not have contact or a relationship with victim Madison Mogen or the surviving victims [redacted] or [redacted] [redacted] recalled Ethan always being the "funny guy" in the room and Xana knew and was liked by everyone. [redacted] had attended the [redacted] party with [redacted] and ran into both Ethan and Xana, they were both in good spirits. [redacted] believed Ethan's best friends were [redacted] (LNU), [redacted] [redacted] and [redacted] believed Xana's best friends were [redacted] (LNU). [redacted] had never been to the 1122 King Road, Moscow, ID residence and doesn't know anyone who would want to hurt the victims.

G. On December 29, 2022, I contacted [redacted]. [redacted] stated she has two children who attend Washington State University and were at the "house" (1122 King Rd, Moscow, ID) the night prior to the murders. [redacted] would not put me in touch with her children nor would she provide their full names. The primary communications with [redacted] were collected via text messages which were downloaded and entered into evidence data of this report.

H. An informal in-person interview of [redacted] H[redacted], the [redacted] to first person on scene of the murders, [redacted] [redacted] was conducted at Moscow Police Department in late December 2022. [redacted] expressed concern for repeated media inquiries and on-line threats. [redacted] was provided contact information for threats.

2. I had received other "tips" and triaged those tips without any connection to the murders or investigation, those tips were closed without further action.

Narrative

1. On January 10, 2023, at approximately 1040 hours, I, Idaho State Police (ISP) Detective Timothy Snell, and ISP Detective Leslie Lehman interviewed [redacted] (DOB [redacted]/1996). [redacted] provided information regarding her interactions with fellow Washington State University classmate Bryan C. KOHBERGER (DOB [redacted]/1994). The interview was recorded, and [redacted] consented to the recording of the interview. [redacted] provided a number of [redacted] and said she drives a white [redacted]

2. [redacted] stated she first met KOHBERGER on campus at a meet and greet for the PhD program cohort. [redacted] would later clarify that the event date was August 17, 2022. [redacted] explained she and [redacted] who both came from the [redacted] together, attended the event together. [redacted] provided a phone number of [redacted] for [redacted] After the event, [redacted] said she and [redacted] talked about KOHBERGER and did not really like him based on their interactions with him. [redacted] said she tried to give KOHBERGER the benefit of the doubt as he appeared to be trying to overly impress both of them.

3. [redacted] said she invited the whole cohort to her apartment during the second or third week of school. [redacted] said it was the University of Iowa vs. Iowa State game. KOHBERGER attended the event but was about two and a half hours late. About a week after the event, KOHBERGER began to tell others [redacted] takes [redacted] for [redacted]. [redacted] suspected KOHBERGER may have looked in her bathroom cabinet and observed her prescriptions because she does not openly share with others about her [redacted].

4. [redacted] said after her interactions with KOHBERGER, she began to distance herself from him and heard complaints from other female graduate students about how KOHBERGER would make them uncomfortable. [redacted] said as the semester progressed, there were numerous interactions with KOHBERGER staring at students weirdly during class and "spatially trapping" fellow students in the student offices. [redacted] stated when she was not around, KOHBERGER would spatially trap [redacted] in their offices for long periods of time. [redacted] provided a phone number of [redacted] for [redacted].

5[redacted] stated there was a "spiff" during class between [redacted] and KOHBERGER in which KOHBERGER was "mansplaining" to [redacted] said as the disagreement progressed, [redacted] had the class move on from the topic. During follow-up questioning, [redacted] provided the general context of the disagreement and reported that KOHBERGER said mansplaining did not exist.

6. [redacted] said her closest friends were [redacted] When Detective Lehman asked [redacted] if KOHBERGER had any friends, she was unaware of anyone. [redacted] stated KOHBERGER would have been the closest with his office mates, [redacted] who were international students. [redacted] stated she assumed

Narrative

KOHBERGER was helping [redacted] learn English and prepare for the "TOEFL" (Test of English as a Foreign Language).

7. During questioning about KOHBERGER's overall performance in school, [redacted] stated she did not think KOHBERGER was doing very well as they could get a general idea of everyone's grades through a process of elimination. [redacted] said she heard rumors KOHBERGER stated [redacted] was inadequate to grade his papers because she was too foreign. [redacted] further stated while she did not know his specific grades, [redacted] said she did know KOHBERGER was not doing well as a "TA" (Teaching Assistant) because [redacted] complained about not getting enough help from both KOHBERGER and [redacted] said about halfway through the semester, [redacted] put out a request for graders, which both she and [redacted] applied for and began performing. [redacted] said from her limited experience at the college, she thought it was rather unusual for a professor to request additional graders halfway through a semester.

8. When asked about KOHBERGER's demeanor after November 13, 2022, [redacted] said KOHBERGER's demeanor did change; however, she attributed it to being called out about not being a good TA. [redacted] recalled KOHBERGER smiling at her more and being more respectful towards her. [redacted] said she thought this was occurring because KOHBERGER was not part of the tight cohort group. When asked, [redacted] said she fully anticipated KOHBERGER returning to school after the end of the semester.

9. During additional follow-up questioning of [redacted], she said KOHBERGER always wore a puffy coat to class, both prior to and after the homicide. [redacted] told us there was a tally board in her office documenting how often KOHBERGER was late for class, and she and fellow students were tracking his tardiness, comparing it to female versus male professors. [redacted] later provided photographs of the tally board. [redacted] provided examples of KOHBERGER arriving late to class and her negative perception of KOHBERGER being late to graduate-level courses. [redacted] said KOHBERGER never missed a class except for once, which she believed might have been the Thursday after the homicide which was their methods class. [redacted] said KOHBERGER attended the Tuesday and Wednesday classes prior to being gone for Thursday class. [redacted] admittedly said she and her fellow classmates talked a lot of "shit" about KOHBERGER via a group text message thread.

10. When asked, [redacted] said she had never been to KOHBERGER's apartment. [redacted] said she lives at [redacted] [redacted] in Pullman, Washington.

11. [redacted] provided additional examples regarding KOHBERGER blocking fellow students in the offices. [redacted] showed us an email from [redacted] that said, "Help me this convo is weird," dated October 28, 2022. [redacted] said KOHBERGER would stand in doorways and not leave when it was clear, based on the social cues the person in the office was packing up and wanting to leave. [redacted] said she was aware of a formal complaint to "HR" human resources by [redacted] for statements KOHBERGER made to her after [redacted] had stepped away. As a result of the complaint, a meeting took place regarding discrimination and harassment as a department. [redacted] thought the meeting occurred sometime in October or November and could not retrieve the exact date. [redacted] said [redacted] is hard of hearing and has two interpreters; however, the interpreters are only present in the classroom setting.

12. I asked [redacted] if KOHBERGER had a girlfriend or other acquaintances; she was unaware KOHBERGER consistently interacted with anyone. [redacted] said KOHBERGER was only around when classes were happening and rarely saw him when they did not have classes. [redacted] said KOHBERGER did not discuss his social plans with her and only knew he was interested in baseball. [redacted] said he told [redacted] he liked to spend time alone in the woods. When asked, [redacted] said KOHBERGER told her he had no social media accounts.

13. [redacted] said she did notice injuries to KOHBERGER's hands in October and had joked that he must have been punching drywall in anger. [redacted] reported KOHBERGER told fellow students he had been boxing when explaining why his hands were injured.

14. [redacted] said during two extensive student presentations on sexual victimization on college campuses and staking, KOHBERGER sat through them and did not interject himself into the conversation. Regarding the death penalty, [redacted] reported KOHBERGER previously appeared to be in support of the death penalty and made statements that the victim's family should have a say as to whether or not the death penalty is imposed.

Narrative

15. [redacted] stated she did not know any of the victims and was not aware of anyone in her social circle who knew the victims.

16. For full details of the interview, refer to the audio recording. The recording and photographs were turned over to the Moscow police department labeled D22000030_0102.

Narrative

1. On November 21st, 2022, I, Detective William G. Adams of the Idaho State Police (ISP) was conducting surveillance on a residence identified by a tip from the tip line regarding the murders which occurred in Moscow Idaho (ISP case number D22000030). The tip number was Tip 391 and Tip 73. The person identified in the tip was [redacted] (date of birth [redacted]/1981). His residence was identified as [redacted] Pullman, Washington.

2. I, along with ISP Detectives Herman, Heinle, Walker, and ISP Sergeant Stennett, conducted surveillance of the residence. While conducting surveillance, we observed a male who appeared to be [redacted]. The male would come out every few hours to smoke cigarettes on the west facing steps to the entrance of the building. At approximately 1512 hours, I observed [redacted] put out his cigarette between his feet. [redacted] then began smoking a second cigarette. When he was done, he again put the cigarette out between his feet. I could see two cigarette butts between his feet. A few moments later, [redacted] stood up and went back inside. After he got up, the cigarette butts were not in the location where I saw him leave them.

3. [redacted] was sitting on steps leading to a community entrance door where multiple people use it to enter the building and then go to whichever apartment they were going to. The steps [redacted] was on, faced west. There is

Narrative

another set of steps on the east side leading to the landing where both sets of steps give access to the landing where the door is located. There are paved walkways leading from sidewalks to the entrance of the building.

4. Detective Herman contacted a local officer and asked about obtaining the cigarette butts from the walkway of the building. That officer contacted a local prosecutor who advised us that if the butts were in a common walkway and a walkway leading from a public sidewalk to the entrance, then we could walk up, grab the discarded cigarette butts and leave without a warrant.

5. At approximately 1600 hours, I exited my vehicle and went to the area where the cigarette butts were seen. While at the bottom of the steps, where [redacted] had been seen smoking, I saw two cigarette butts in the area where [redacted] feet were located. One cigarette butt was to the right of where [redacted] right foot had been located and the other cigarette butt was near the stair behind where [redacted] left foot had been located. Both cigarette butts appeared to be fresh. I also noticed a can near the stairs full of cigarette butts. I did not retrieve any of those cigarette butts and only collected the two cigarette butts that appeared fresh in close proximity to where I had seen [redacted] drop cigarette butts.

6. After collecting the cigarette butts, I placed them in a paper envelope and transported them to the Moscow Police Department where they were booked into evidence by Moscow Police Officer J. Rosinsky. The cigarette butts were placed into separate evidence envelopes and booked into evidence under Moscow Police Department case number 22-M09903, Item 252 and Item 253.

7. End of report.

Narrative

1. On January 10, 2023, at approximately 1356 hours, I, Idaho State Police (ISP) Detective Timothy Snell, and ISP Detective Leslie Lehman interviewed [redacted] (DOB [redacted]/1997). [redacted] provided information regarding her interactions with fellow Washington State University classmate Bryan C. KOHBERGER (DOB [redacted]1994). The interview was recorded, and [redacted] consented to the recording of the interview.

2. [redacted] stated she first met KOHBERGER during orientation as they were both first-year Ph.D. students at the University of Washington (WSU). [redacted] said she attended classes with KOHBERGER, which she further explained as attending class together twice on Tuesday, one on Wednesday, and one on Thursday.

3. [redacted] said the only social event she had previously attended with KOHBERGER was a barbeque [redacted] hosted at his residence. [redacted] said her only day-to-day interaction with KOHBERGER occurred in the classroom because she worked upstairs in a secure area as part of her internship with the [redacted] and KOHBERGER's office was downstairs.

4. Richardson provided a brief overview of KOHBERGER's demeanor in the classroom and the need to assert upon fellow students his knowledge. [redacted] said KOHBERGER liked to overexplain offender decision-making and was doing his final research paper on burglary. [redacted] said during introductions, KOHBERGER said his reason for attending WSU was for the internship with [redacted] in [redacted], which is the position [redacted] had been chosen for over KOHBERGER. [redacted] obtained the position in the spring and conducted onboarding training over the summer.

5. [redacted] stated she was sick the week following the homicide, then was gone for Thanksgiving break; after returning to class after Thanksgiving, [redacted] said KOHBERGER had cuts on his hands. [redacted] described the cuts on his hands as cat scratches with Band-Aids over the cuts. [redacted] did not ask KOHBERGER about the cuts on his hands because of his general over-engagement in conversation. [redacted] said the dates she would have seen the cuts were November 29 and 30, 2022.

6. [redacted] said they had harassment training on November 8, 2022, and it was rumored the training was because of KOHBERGER; however, [redacted] could not confirm that information. [redacted] said KOHBERGER's behavior changed after the meeting, and she assumed his behavior change was in response to what they discussed in training. [redacted] described KOHBERGER becoming quieter and not speaking up in class. [redacted] said on Wednesday, November 9, 2022, KOHBERGER arrived late, then left class after ten minutes to go and get coffee, which [redacted] described as highly unusual.

7. [redacted] described an interaction with KOHBERGER after leaving one evening when she was with [redacted] and KOHBERGER trapped her into conversation with him. [redacted] stated she was not aware of KOHBERGER having any social media. [redacted] said KOHBERGER showed her pictures of him hiking in the area of Moscow Mountain, and he appeared to be alone. [redacted] said she had never been to KOHBERGER's apartment or in his vehicle. [redacted] stated she did not know the victims and was unaware of anyone who knew them.

8. On December 4, 2022, [redacted] found snow footprints leading to the back window of her apartment. Whoever had left the footprints had backtracked within the tracks. [redacted] and her fiancé installed security cameras in response to finding the footprints. [redacted] forwarded the photographs of the footprints to Detective Lehman. [redacted] provided her address of [redacted] Pullman, Washington.

9. Near the interview's conclusion, [redacted] requested we speak with [redacted] [redacted] by phone about an incident at the apartment. [redacted] said he was playing video games when someone jiggled the door handle to the apartment, and after getting up and looking outside, no one was there. [redacted] said the incident occurred between October 26 and December 9, 2022.

10. For full details of the interview, refer to the audio recording. The recording and photographs were turned over to the Moscow police department labeled D22000030_0106.

Narrative

1. On January 10, 2023, Idaho State Police (ISP) Detective Leslie Lehman along with ISP Detective Tim Snell conducted an interview with [redacted] (DOB [redacted]/2000). [redacted] was in the [redacted] program in Criminal Justice at Washington State University (WSU). [redacted] was in the same cohort as PhD student Bryan C. KOHBERGER (DOB [redacted]/1994). The interview was held at the [redacted] campus in a private office.

2. [redacted] confirmed her residence at [redacted] Pullman, Washington. [redacted] drives a 2014 [redacted] (WA) [redacted] and confirmed her cellphone number [redacted]

3. [redacted] mostly interacts in classes shared for three hours per day with KOHBERGER and explained KOHBERGER's interactions in her office shared with [redacted], [redacted] and [redacted].

4. [redacted] said KOHBERGER seemed to focus his attention toward her office mate, [redacted] which made [redacted] uncomfortable. The office mates tried to keep their office door closed to keep KOHBERGER out.

5. [redacted] said she tried to remain civil when speaking to KOHBERGER, but felt he tended to be, "aggressive and upfront," specifically with female colleagues. [redacted] said KOHBERGER engaged in unsolicited debates and arguments regarding topics she felt were not up for debate.

6. [redacted] explained an incident in class where the topic of eyewitness misidentification was being discussed. [redacted] was explaining her viewpoints due to her background in the topic. KOHBERGER was agitated and argumentative because he did not agree with her explanation. Classmate [redacted] defended [redacted] to KOHBERGER and tried to stop the debate. [redacted] told KOHBERGER his arguing was "mansplaining" when speaking to [redacted]. [redacted] said KOHBERGER did not understand what mansplaining meant but disagreed that he was engaging in that fashion. [redacted] said the exchange made her upset and uncomfortable and left her not wanting to interact any further with KOHBERGER.

7. [redacted] would explain she filed a written email complaint to the WSU Civil Rights and Compliance group regarding the mansplaining incident. [redacted] said her goal was to create documentation of the incident should further issues arise. [redacted] knew [redacted] spoke to KOHBERGER about his behavior, but nothing further came of the incident.

8. [redacted] said she did not interact with KOHBERGER outside the campus setting with exception of a party at [redacted] apartment he attended for an hour. [redacted] recalled another department gathering at Paradise Creek Brewery. [redacted] said KOHBERGER had a bottle of wine to himself and seemed to focus his attention on the female server.

9. [redacted] did not share any social media with KOHBERGER but said KOHBERGER often referred to the WAZZU Reddit page.

10. [redacted] never had direct texts with KOHBERGER, just the "group me" chat group for the cohort.

11. [redacted] recognized a change in behavior by KOHBERGER by getting up and leaving class more often in the week leading up to Thanksgiving break. KOHBERGER would get up to get a cup of coffee which [redacted] explained was highly inappropriate for a graduate student to behave this way.

12. [redacted] spoke of KOHBERGER constantly wearing a puffy, down coat including during classes lasting several hours.

13. [redacted] never saw KOHBERGER with anyone she believed was his friend. [redacted] stated

Narrative

KOHBERGER never made friends. KOHBERGER confided in [redacted] in November that he wished he was in a relationship. [redacted] said KOHBERGER expressed interest in female members of the cohort, but nothing materialized. [redacted] said KOHBERGER flirted with [redacted] until he learned she was married.

14. [redacted] said there was a tally board in her office memorializing the number of times KOHBERGER was late to class, and one to show the number of times KOHBERGER makes discriminatory comments and behaviors to the cohort members.

15. [redacted] noticed that following Thanksgiving break, KOHBERGER was very quiet. [redacted] felt KOHBERGER must have realized his behavior was being accounted for and this was causing his lack of engagement.

16. In the week leading up to Christmas break, the department held a Christmas party. [redacted] held the party and a conversation with KOHBERGER regarding classes [redacted] was taking left [redacted] with the impression he would be returning for Spring semester.

17. [redacted] said she saw KOHBERGER with injuries to his left hand while in class. [redacted] sat to KOHBERGER's left, three feet away from him, and during a class following Thanksgiving break she had clear vision of his left hand. [redacted] described the injury as bruised knuckles. The redness was halfway up the back of the left hand from his knuckles, and he had a cut in his ring finger knuckle. KOHBERGER had told [redacted] he was a boxer. [redacted] said KOHBERGER did not try to hide the injured hand.

18. [redacted] has never been in KOHBERGER's apartment or car.

19. [redacted] said KOHBERGER had told the cohorts he wanted to be a university professor. [redacted] stated with a chuckle, "He really liked to teach people things."

20. [redacted] said KOHBERGER genuinely tried and wanted to be friends with people, but he did not know how. [redacted] explained KOHBERGER was argumentative and she was not, furthering the distance between them.

21. [redacted] reiterated KOHBERGER's uninvited visits to her office to include KOHBERGER sitting at a seat directly next to her desk leaving her, "stuck talking to him."

22. [redacted] said KOHBERGER did not share information about his personal life.

23. The audio recording of the interview was saved to a disc and will be given to the Moscow Police Department to be attached to the case report under this supplement.

4. [redacted] first met KOHBERGER at the beginning of the Fall 2022 semester, sometime around August 15, 2022, in Crim [redacted]. [redacted] described the layout of the classroom, [redacted], as a 45-50 person classroom which would be rearranged for the Crim [redacted] class by putting desks in a circle to encourage discussion. [redacted] estimated the class consisted of 10-15 graduate students. The class was held on Wednesdays from 2:00 p.m. - 5:00 p.m. [redacted] estimated the semester was over and classes finished around December 9, 2022.

5. [redacted] stated the seating was not arranged, but once students established a seat at the beginning of the semester they would usually sit in the same seats. [redacted] described the incident as [redacted] and KOHBERGER bickering and debating that turned very tense.

9. On one occasion [redacted] and KOHBERGER had a conversation just outside the classroom which was about the classroom topics. During that discussion [redacted] mentioned he needed to get heading home to make dinner for his fiancé. KOHBERGER replied something to the effect of "you look really happy to be doing that. Most guys I know hate making food for their women." [redacted] found this to be "weird".

10. [redacted] described KOHBERGER as the "Black Sheep" of the cohort and "very to himself". [redacted] described his relationship with KOHBERGER `as more than acquaintances, but less than friends. [redacted] stated he did not talk to KOHBERGER about many personal topics. [redacted] did not have much information about KOHBERGER's personal life.

Narrative

1. On 11th January, 2023, I, Idaho State Police (ISP) Detective Sean Prosser along with ISP Detective Gary Tolleson conducted an interview with [redacted] (w/m [redacted]/91) regarding his knowledge and/or interactions with Bryan C. KOHBERGER (w/m [redacted] 1994). The interview took place at the [redacted] campus in Pullman, Washington. The interview began at about 1031 hours and concluded at about 1130 hours.

2. [redacted] agreed to the interview being recorded; the recording was downloaded to CD and provided to Moscow Police Department's evidence section.

3. [redacted] is a graduate student at WSU in the Criminal Justice Program; he is a [redacted]/classmate of KOHBERGER. Initially [redacted] noted he did not interact with KOHBERGER outside of the academic setting but as the interview progressed, he elaborated in greater detail these interactions.

4. [redacted] referred to a specific time in late October or early November 2022 where after a class KOHBERGER offered to give [redacted] a ride home in his white [redacted]. [redacted] noted this event as he spent nearly three hours

Narrative

in conversation with KOHBERGER. [redacted] stated he was cautious when forming friendships or relationships with fellow students; he was concerned to ensure he was able to work closely with someone over the time of the graduate program. As a result of this caution, he took time to observe and analyze interactions with others.

5. [redacted] commented he noted KOHBERGER would deliberately socially engineer his conversation and talking points to ingratiate himself within a group. He specifically noted this with regard to KOHBERGER discussing sports. When [redacted] indicated he had no interest in sports, KOHBERGER moved to stating he had little interest in sports either.

6. During this conversation, which was conducted in KOHBERGER's car in the parking lot and the parking space outside [redacted] home, KOHBERGER said he had no one to really have "guy talks" with; he briefly talked about women and dating noting KOHBERGER said he could pick up any woman he wanted in bars and clubs; [redacted] noted he felt the inference was KOHBERGER did not view value in women and saw them more as articles. [redacted] said he felt like he was 'verbally kidnapped' as KOHBERGER continued to want to talk, describing the scenario as a three-hour conversation in a five-minute journey.

7. KOHBERGER moved the conversation to social media, and its impact on societal issues. To this end they discussed how people aligned themselves within social media bubbles which became "echo chambers".

8. KOHBERGER discussed politics and indicated he had predominantly conservative household values wherein traditional gender roles applied.

9. [redacted] said in his interactions with KOHBERGER, he never discussed his home, family, or friends, but did discuss his educational experiences at his previous college, [redacted]. [redacted] recalled KOHBERGER indicated a desire to work with [redacted], a professor of forensic psychology and criminal justice at [redacted] who has written many notable books and articles on the serial killer "BTK".

10. [redacted] described KOHBERGER as focused but arrogant; he wanted all his classmates to know he was 'the smartest guy in the room' and wanted to highlight his academic prowess. [redacted] said the female members of the class had an innate ability to see things like character traits, in people not often recognized by men. They voiced that KOHBERGER made them uncomfortable, felt unsafe and that he was 'creepy'.

11. [redacted] said he was close to filing a report to the university regarding KOHBERGER's behavior in the latter part of November 2022, but did not because the report is not anonymous. He further commented on KOHBERGER's lack of sleep which [redacted] said was very apparent; he was late to lectures and would frequently get up and leave mid-lecture and come back with coffee.

12. Further details of the interview are available on the recording.

13. Case continues.

5. Because of these complaints Ms. [redacted] spent a lot of time, she thought at least once a week, speaking about KOHBERGER during different disciplinary meetings. The meetings focused around KOHBERGER's interactions with fellow Postgraduate students, in and out of the classroom, along with his behavior around some of the Criminal Justice Professors.

He would also stare at people and stand uncomfortably close or "lean" over women, making them very uncomfortable.

7. Ms. [redacted] brought KOHBERGER to her office to speak to him about the complaints and attempted to get him to correct his behavior. KOHBERGER's response to this was his deflection of personal responsibility saying that his comments had been misunderstood etc.

Narrative

1. On December 5, 2022, at approximately 1722 hours, I, Idaho State Police (ISP) Detective Matthew Heinle along with Detective William Adams followed up with Tip #6008.

2. The tip expressed concern about an online photograph taken from what appeared to be a Halloween party where members of the [redacted] fraternity were in attendance. In the photo, a male, believed to be a member of the fraternity can be seen wearing a military-style body armor carrier, also known as a "plate carrier". Attached to the front of the carrier is what appeared to be a large Ka-Bar style knife.

3. The tipster read online that a Ka-Bar knife may have been the type of weapon used in the murders and wanted to pass it on to police. Detective Adams and I called [redacted] [redacted] at [redacted] and asked to meet.

4. At approximately 1732 hours, Detective Adams and I arrived at the [redacted] house located at [redacted] on the University of Idaho campus in Moscow, Idaho. We met with [redacted] and showed him the photo from the tip. [redacted] recognized the male as [redacted] and informed us he was a member of [redacted] and was currently in the house.

5. Detective Adams and I met with [redacted] (DOB: [redacted]/2002) phone number [redacted]. [redacted] agreed to speak with Detective Adams and me. [redacted] confirmed he was in the photo from the tip indeed and that he still had the knife he was pictured with.

6. [redacted] explained his actives on the evening of November 12, 2022, as follows:

a. [redacted] had an event called Colony Days that started at 8:00 p.m. held at the Beef Pavilion.

b. [redacted] his date, and other friends went to the Mystic Café in Lewiston, Idaho for dinner before the event.

c. [redacted] left Colony Days and went to the [redacted] house around 10:00 p.m.

d. [redacted] and friends later left the house and went to a party at [redacted] and was there until around 1:30 a.m.

e. [redacted] and friends walked back to the [redacted] house and arrived at approximately 1:45 a.m. [redacted] hung out in [redacted] room.

f. Sometime later, [redacted] walked his date back to [redacted] then returned to the [redacted] house.

g. Once back home, [redacted] hung out with other fraternity members then went to bed.

Narrative

7. [redacted] told us he had been to the victims' house about two months prior with a female named [redacted] [redacted] a member of the [redacted] sorority and the [redacted] for [redacted]. [redacted] said he met Kaylee Goncalves briefly that night and one other time, also at the victims' house, with his friend named [redacted] [redacted] claimed he had only briefly met Goncalves and did not know her or the other victims well at all. [redacted] claimed this was his only interaction with any of the victims.

8. [redacted] consented to providing a DNA sample via buccal swab which Detective Adams collected. [redacted] sample was later booked into evidence at the Moscow Police Department. Photos of the knife from the photo were also collected.

9. While speaking with [redacted] he mentioned he and his friend, [redacted] (DOB: [redacted]/2003) [redacted], bought the knives together at a sporting goods store in Lewiston, Idaho around Christmas time 2021. [redacted] told us [redacted] was there at the [redacted] house.

10. Detective Adams and I spoke with [redacted] [redacted] confirmed [redacted] claim of buying the knives together. [redacted] still had the knife and consented to showing Detective Adams and me. Photos were collected of [redacted] knife.

11. [redacted] told us he had previously met Ethan Chapin, [redacted] [redacted] and [redacted] [redacted] at the [redacted] [redacted] formal. [redacted] said he and his date, [redacted] went out with them to Hunga Dunga. [redacted] stated he remained there for about an hour and then left. [redacted] claimed he had no other contact with any of the victims.

12. End of report.

Narrative

1. On December 1st, 2022, I, Detective William G. Adams Jr., of the Idaho State Police (ISP) along with ISP Detectives T. Barrett and Detective Sergeant T. Hopkins, contacted with [redacted] A. [redacted] (date of birth [redacted] 2001) at his residence. [redacted] residence is located at [redacted] Moscow, Idaho. [redacted] was identified in Tip #5013 regarding his recent purchase of a Ka-Bar knife. The knife had not been delivered to [redacted] home yet.

2. When the other detectives and I knocked on [redacted] door, he initially did not come to the door. We knew [redacted] to be home because we had watched him walk to his door, and a neighbor across the walkway told us

they observed him looking out an upstairs window while we were knocking. Ultimately [redacted] answered the door and asked, in a very low sounding voice, who we were. We called him by his first name [redacted] and told him we needed to talk to him. He asked what we wanted to talk about. I told him we were law enforcement and asked if he was looking at us through the peep hole in the door. He told me he was, and I showed him my ISP issued badge through the peep hole. Instantly, [redacted] voice changed to a higher pitched voice, the door unlocked, and [redacted] invited us in.

3. We went into the living room of his apartment. [redacted] was the only person in the apartment. We asked [redacted] if he knew why we were at his apartment. He told us he figured it was because of the murders. [redacted] initially did not admit to ordering a Ka-Bar knife. When asked what kinds of things he ordered recently, he told us he ordered a ski-mask. I observed his order information on his Amazon account. [redacted] voluntarily provided me his phone and allowed me to look at his account. In his recent purchases was a ski-mask and commercial grade cleaning gloves. I asked if [redacted] had an email address and if so, did he receive email confirmations on orders. We had been given information regarding an email used to confirm purchase of the Ka-Bar knife.

4. I asked [redacted] if I could look at his email to see if he had a confirmation email and what his email was. He provided me a different email address than the one used to purchase the Ka-Bar Knife. [redacted] again voluntarily gave me his phone and allowed me to look at his emails. While doing that, I clicked on his email account icon and noticed another email address including the email address used to confirm purchase of the Ka-Bar Knife. That email address was [redacted]

5. As I began to look at the emails in his inbox, [redacted] studded and then said, "I know why you're here." Sergeant Hopkins asked [redacted] to tell us why we were there. [redacted] told us it was because he ordered two knives. [redacted] admitted he had purchased two knives from "Ka Bar." This was consistent with the tip we received, and the confirmation email I found in [redacted] emails.

6. We asked him why he ordered those knives. He told us it was because he did not have a gun and ordered them for protection. He said he didn't feel like he was in imminent danger. After talking for a bit, [redacted], on his own, asked if we would like to do a "room inspection or something". We told him we would like to if he was okay with it. He agreed and Sergeant Hopkins and Detective Barrett searched [redacted] room while I talked with him.

7. While talking with [redacted] I asked why he chose that particular knife. He told me he saw on the news the killer had used a Ka-Bar style knife and he wanted to "match it". After talking it through, [redacted] said he would have a gun instead if he knew how to buy one. [redacted] appeared to realize it sounded unrealistic for him to buy a knife to match the killer if they were ever to get into a fight.

8. [redacted] told us he did not know any of the victims of the murder that had occurred. [redacted] voluntarily provided a DNA sample via buccal swab. I seized the buccal swabs and placed them in a paper envelope. Nothing of note other than the ski-mask and commercial grade cleaning gloves were found in the apartment. Nothing else was seized other than the DNA sample.

9. I transported the DNA sample to the Moscow Police Department where it was booked in by Moscow Police Officer Corporal Snyder. The DNA sample was booked in under Case Number 22-M09903 Item Number 276.

10. End of report.

Narrative

1. On January 10, 2023, at approximately 1504 hours, I, Idaho State Police (ISP) Detective Brady Walker, interviewed [redacted] (DOB [redacted]/2003) at the [redacted] Campus in Pullman, Washington. ISP Detective Matthew Heinle was present, as well as [redacted] [redacted] girlfriend, [redacted] (DOB [redacted]/2002). I recorded the interview with my ISP-issued cell phone. I informed [redacted] and [redacted] of this before I began the recording.

2. I learned the following during the interview:

3. [redacted] was a sophomore at WSU. She has also been a [redacted] at [redacted] since the previous year. The office in which she works is located on the [redacted] Her desk is near the entrance to that section of the building. She mostly works for [redacted], [redacted], and [redacted], the [redacted]. It was common for graduate students to meet with [redacted] and discuss their education and future plans.

Narrative

4. [redacted] first met Bryan C. KOHBERGER (DOB [redacted]/1994) when he came into the office to meet with [redacted]. Shortly thereafter, KOHBERGER began coming into the office nearly every day to talk. This occurred during business hours. KOHBERGER 's conversations became personal instead of focused on his studies or work as a teacher's assistant. KOHBERGER had an office downstairs but did not really have a reason to be in [redacted] office area.

5. On some days, [redacted] would be working alone from 3:00 p.m. to 5:00 p.m., which was normal closing hours. KOHBERGER began coming in there seemingly to talk to [redacted]. She would try to focus on her work, but KOHBERGER would remain whether or not she interacted heavily with him.

6. On one occasion, [redacted] was downstairs and came back to the office to lock up. KOHBERGER was in the office. [redacted] informed him that she was closing the office and KOHBERGER walked outside with her. KOHBERGER asked her if she wanted to get coffee. [redacted] declined, saying her girlfriend was here to pick her up, and walked away. [redacted] thought this was inappropriate as they were both students. This was her first uncomfortable or strange interaction with KOHBERGER.

7. [redacted] told her bosses about the incident. They told [redacted] they did not want her alone with him, and informed her of several resources she could use, such as having a security escort or simply leaving. They also told [redacted] she was not the first person to have problems with KOHBERGER.

8. KOHBERGER continued to come to the office when [redacted] was there alone. On one occasion, he would stand directly behind her chair as she was working. KOHBERGER remained directly behind her for awhile and did not move until another advisor came into the room. Only then did KOHBERGER move away.

9. [redacted] was informed staff had talked to KOHBERGER as many as five times about his behavior. After about the third meeting, KOHBERGER did not come into the office as much to socialize. [redacted] would see KOHBERGER in the hallway, and said he would "corner" her and attempt to conversate. [redacted] would try to not engage, but KOHBERGER would attempt to force a conversation. [redacted] clarified that KOHBERGER physically cornered her, standing in a manner where she could not leave without running into him. She described this as "scary" especially when she was alone.

10. [redacted] recounted another incident where she saw KOHBERGER walking outside as she was locking up. KOHBERGER made eye contact with her when she looked out, which seemed strange because you would have to be looking directly at the window where she worked to make eye contact. KOHBERGER entered the building as she was leaving. [redacted] hurried into the bathroom to hide and avoid contact with KOHBERGER. When she thought about it later, she hid as if on instinct; due to how uncomfortable contact with KOHBERGER had become.

11. KOHBERGER had a reputation for being very homophobic.

12. Sometimes, [redacted] boss would take her home so she would not have to walk by herself or take the bus. [redacted] became concerned because of how many precautions she perceived were being taken because of KOHBERGER.

13. [redacted] recounted an incident in which her neighbor saw someone very close outside her window and told [redacted] to make sure to lock the door. [redacted] did not know who that person was, but learned she lived fairly close to KOHBERGER. [redacted] learned from professors that KOHBERGER was fired as a teacher's assistant after the fall 2022 semester was over.

14. [redacted] described all the interactions she had with KOHBERGER as uncomfortable, except for the very first time she saw him. [redacted] saw KOHBERGER almost daily until winter break. The conversations KOHBERGER would start with [redacted] were not necessary in an educational or professional context. [redacted] perceived the conversations happened only for KOHBERGER to be around her.

15. [redacted] only knew of one time where KOHBERGER behaved differently than he normally did. KOHBERGER needed to talk to [redacted], who was in the office with [redacted], [redacted], and [redacted]. [redacted] was speaking with [redacted] and KOHBERGER was waiting near the door. [redacted] told [redacted] she thought KOHBERGER wanted to speak to him. He declined this and

continued speaking with [redacted]. KOHBERGER came into the room and sat in a chair, but nobody acknowledged him. When he realized this, he became angry and stormed out. [redacted] described KOHBERGER as very angry, as if he had built up a fury or rage. It was her opinion that KOHBERGER became angry because he was ignored, and nobody acknowledged him.

16. I asked [redacted] if KOHBERGER acted any differently after the homicides in Moscow. After thinking about it, [redacted] said it was right around the same time that KOHBERGER stopped coming into the office as much. Prior to that time, [redacted] had described KOHBERGER as somewhat arrogant, and held her head up high when describing him. After that time, [redacted] said KOHBERGER kept to himself more and seemed to be less interactive. When she described KOHBERGER after the homicides, [redacted] kept her head down.

17. KOHBERGER did not disclose personal details or anything about himself when he would talk to [redacted] There was one instance where he may have placed a hand on her shoulder, but it was during conversation, and not to physically control or assault her.

18. Specifically, [redacted] thought it was strange that KOHBERGER seemed to know her schedule and intentionally encountered her. [redacted] described herself as a gay woman, and thought it was also strange because she had previously told KOHBERGER that she had a girlfriend. This did not seem to deter him.

19. Of all the students [redacted] had interacted with, KOHBERGER was the only one that made her feel uncomfortable.

20. This report is a summary of the interview. For further details, refer to the audio recording. The audio recording will be saved in a storage device under Supplement 118 and will be submitted to evidence at Moscow Police Department.

21. End of report.

Narrative

Tip #'s 0196 and 0648:

1. On November 22, 2022, I, ISP Det. Ryan O'Harra was assigned Tip numbers 0196 and 0648 by ISP Det. Joe Lake. These are both phone tips, called in by [redacted] an [redacted] and [redacted] at the [redacted]

2. I contacted [redacted] via phone on November 22, 2022, at 2:46 PM and 3:23 PM. The following is a summary of the information [redacted] provided:

A. He saw a student with a gash between his eyebrows in the College of Education building on the third floor. He could not remember the date but believed it was the 16th of November. The student was a white male, approximately six feet tall and 190 pounds. His head was shaved on the sides with bushy hair on top and he was wearing a red sweater. He requested the camera footage at this time and location not be overwritten.

B. Ethan Chapin (Chapin) was a sophomore. He was Chapin's [redacted] throughout his enrollment. His last contact with Chapin was approximately one month before the incident. They talked about W.U.E. (a scholarship program for out-of-state students). The previous year, he saw Chapin weekly to check in on how he was doing with his courses. Chapin was very relaxed and social. The focus of the weekly meetings was to increase Chapin's grades while he was on academic probation.

C. He is [redacted] ([redacted] [redacted] and had seen her in person approximately three to four times. His last contact with her was an email on November 1 regarding coursework about a week before the incident.

D. He is [redacted] ([redacted] [redacted] and had seen her in person approximately three times. His last contact with her was over the summer regarding her classes and schedule. She had come in from the College of Natural Resources with Wilderness and Fishing majors.

E. He was previously [redacted] [redacted] ([redacted] [redacted]. [redacted] is in the graduate program and still reaches out to [redacted] for questions.

F. He is [redacted] ([redacted] [redacted]. His last contact with her before the incident was an in-person meeting on November 2 regarding coursework. He called [redacted] after the incident. [redacted] told him [redacted] went into the crime scene house and told her not to go in.

G. [redacted] and [redacted] reached out to [redacted] via text message on November 14 for guidance on what to say to their teachers. They stated they were traumatized and may not be returning for classes. [redacted] stated she was staying with [redacted] at his family's home.

H. Records of the deceased victims have been removed from the "Vandal Star" system. This system is used to make appointments and keep appointment notes between U of I staff and students. It is standard practice for the records of deceased students to be immediately removed from this system.

I. [redacted] and [redacted] are both [redacted] students, as was Chapin.

J. [redacted] and [redacted] are both "bubbly and sweet" girls. Nothing stood out to him about either of them.

3. [redacted] was cooperative and eager to answer any questions and help in any way possible. He was agreeable to being recontacted for any reason.

4. On December 6, 2022, Moscow Police Department Sergeant Dustin Blaker viewed the camera footage recorded on November 16, 2022 on the third floor of the College of Education building in search of the individual [redacted] described. Sergeant Blaker was not able to locate the individual.

Tip #'s 4715 and 4719:

1. On December 1, 2022, I, ISP Det. Ryan O'Harra was assigned Tip numbers 4715 and 4719 by ISP Det. Gideon Roberts. These tips came in from Federal Bureau of Investigation (FBI) Forensic Accountant (FA) Mike Douglass. FA Douglass requested copies of receipts for Kaylee Goncalves' (Goncalves) purchases at Taj Grocery on November 12, 2022, and Grub Wandering Kitchen on November 13, 2022.

2. Goncalves' bank statement showed two purchases at Taj Grocery on November 12, 2022. The purchases totaled $18.01 and $37.08. Her bank statement also showed a purchase at Grub Wandering Kitchen on November 13, 2022. This purchase totaled $11.00.

3. I went to Taj Grocery and requested the clerk search their system for the purchases on November 12, 2022, using the last four digits of Goncalves' credit card number, [redacted]. This search returned no results. I requested the clerk search the transaction history using the dollar amounts of the purchases. There were three purchases totaling $18.01 and one purchase totaling $37.08. The last four digits of the card number (2474) used in the transaction totaling $37.08 at 11:06:33 AM matched those of one of the transactions totaling $18.01 at 11:08:38 AM. Each of these receipts showed the card entry method as "Contactless EMV". I collected duplicate receipts of these transactions as evidence pending further investigation.

4. Grub Wandering Kitchen is a mobile food truck with the following hours: Wednesday & Thursday 10:00 PM - 2:00 AM Friday & Saturday 10:00 PM - 2:30 AM. I contacted the owner via phone and requested he search his system for the purchase using the last four digits of Goncalves' credit card number, [redacted]. This search did not provide any results on November 13, 2022. I requested he search his system for the purchase using the last four digits of [redacted] This search provided a transaction at 1:42 AM of $11.00. A portion of the text near the bottom of the receipt read "Visa [redacted] (Contactless)".

5. I contacted FA Douglass via phone and provided the information with the card number ending in [redacted]. Moscow Police Department (MPD) Det. Dani Vargas showed me a video of surveillance from Grub Wandering Kitchen that showed Goncalves using her phone to pay for her order in the appropriate time frame.

6. FA Douglass later sent me an email explaining information he received from Goncalves' financial institution, [redacted]. [redacted] explained the transactions were processed using IPhone app - Apple Pay. Apple Pay token [redacted] is linked to Kaylee Goncalves account [redacted] Transactions using this IPhone will then link to token number [redacted] that is why this token number is on receipts.

7. I processed a printed copy of the emailed receipt I received from Grub Wandering Kitchen and the duplicate receipts I received from Taj Grocery into evidence.

Narrative

1. On January 11, 2023, at approximately 1237 hours, I, Idaho State Police Detective Matthew Heinle and Detective Brady Walker conducted a follow-up interview with [redacted] [redacted]-[redacted] (DOB: [redacted]/1985) at [redacted] located on the Washington State University Pullman Campus at [redacted] phone number was [redacted] and residential address was listed as [redacted] in Pullman, Washington.

2. On December 30, 2022, at approximately 2131 hours eastern time, [redacted] called the FBI National Threat Operations Center to report information on the Moscow, Idaho quadruple homicide suspect. [redacted] told us she was an [redacted] [redacted] on her last semester and was currently on the job market. [redacted] said her responsibilities were assisting teachers with curriculums, grading, and managing classes. also said she was a [redacted] in-person and on-line.

3. [redacted] told us she first met Bryan C. KOHBERGER (DOB [redacted]/1994) a week before the start of the semester during her department's orientation. Her first impression of KOHBERGER was he spoke in a weird cadence with a robotic tone. [redacted] stated her first actual conversation with KOHBERGER was at a [redacted] barbeque held at [redacted] house in Pullman, Washington on August 28, 2022. [redacted] said all the faculty, staff and grad students were invited, no undergrads. [redacted] explained KOHBERGER introduced himself as Bryan and asked what she was researching. [redacted] said KOHBERGER was instantly off-putting as he attempted to explain the subject of her research to her. [redacted] said she was immediately done listening to him and that he rubbed her the wrong way with the conversation.

4. [redacted] explained she did not have regular contact or conversations with KOHBERGER and would only occasionally exchange pleasantries with him in the hallway since their offices were close to each other's. [redacted] explained a lot of the things she knew about KOHBERGER was second and third hand as she was kind of the "mom" of the group and people would come to her with their problems.[redacted] said she could tell by her interaction with KOHBERGER at the barbeque she was not going to attempt to "take him under her wing," as she put it.

5. [redacted] stated she was not a [redacted] for any of KOHBERGER's classes nor did she grade his papers or assignments. [redacted] said she was asked by [redacted] (unknown spelling) to be a guest lecturer for one of her professional development classes sometime in September. KOHBERGER was a student in that class at the time. [redacted] said she talked to the class about being a teacher's assistant, how to grade, and how to build rapport with their students. During her class, [redacted] said KOHBERGER asked her how to build rapport with students. [redacted] explained her method of building rapport and stated that was the only interaction she had with him during or after the class.

6. When asked to describe, her professional relationship with KOHBERGER, she said they did not have one nor did she want one based on her initial interaction with him and the rumors she heard. [redacted] said, "Pretty early on, I started leaving my office door open when he was in his office, especially if there was ever a student in there, because I just wanted to make sure that nothing was inappropriate. Like, I felt way early on that this guy was going to do something inappropriate with a student." [redacted] said she even spoke to her mom about KOHBERGER and referred to him as, "the creepy guy." [redacted] said she did not overhear any conversations in KOHBERGER's office.

7. Outside of the two previously mentioned interactions with KOHBERGER, [redacted] had no other dealings or meetings with KOHBERGER other than exchanging pleasantries in passing. [redacted] was unaware of any personal information about KOHBERGER, if he had any outside employment, and had heard he did not drink.

8. [redacted] said she had a conversation with [redacted] (unknown spelling), [redacted], where she was asked how KOHBERGER was. [redacted] explained to [redacted] she did not really know him. [redacted] then told [redacted] KOHBERGER was doing some weird things and described a few encounters:

a. [redacted] mentioned confronting KOHBERGER about stealing water out of the communal fridge.

b. [redacted] mentioned KOHBERGER had an inappropriate encounter, like asking her out on a date, with a work study student that worked in the office next to [redacted].

c. [redacted] mentioned instances of KOHBERGER just hanging around in the office by the work study student and an instance of KOHBERGER following the work study student out of the building.

d. [redacted] mentioned incidences of KOHBERGER hanging out doing nothing while the work student was working.

9. [redacted] said there was another time, approximately September/October time frame, where [redacted] (unknown spelling) came to her office and asked her to monitor KOHBERGER's behavior because they wanted to track it. [redacted] was instructed to right down anything she saw and to notify [redacted]. [redacted] explained to [redacted] all the rumors she had heard about KOHBERGER being aggressive with the faculty in conversations like cornering them in hallways and offices, asking out people inappropriately, and "mansplaining things". [redacted] told [redacted] they could not give KOHBERGER a PHD and give him authority.

10. [redacted] told us about her friend [redacted] (unknown spelling) who was another [redacted] and had the office next to hers. [redacted] told [redacted] about an incident in [redacted] (unknown spelling) class where a student named [redacted] (unknown last name) left during the class due to an exchange, she had with KOHBERGER that made her mad to the point of tears. A couple of days after the incident, [redacted] ran into [redacted] and asked if she was ok. [redacted] said [redacted] knew she was refering to her incident with KOHBERGER without actually saying that specifically.

11. [redacted] said [redacted] (unknown spelling) overheard a confrontation in the hallway between KOHBERGER and [redacted]. [redacted] told [redacted] KOHBERGER was questioning [redacted] participation points system and teaching methods in a manner that was very public and did not allow [redacted] to disengage. [redacted] said she had never heard of any other student having those issues with [redacted] and referred to [redacted] as one of the best professors.

12. [redacted] told us about an incident involving [redacted] (unknown spelling), who teaches multicultural. [redacted] said outside of the Wilson Short building at the bottom of the steps, there was a confrontation between KOHBERGER and [redacted] that made her uncomfortable and had trouble walking away from him as he wouldn't let her disengage. [redacted] stated it was to the point another student named [redacted] had to intervene. [redacted] said she did not know what the confrontation was about.

13. [redacted] told us about another incident with [redacted] where she told [redacted] about a student who was presenting in her class and the presentation was going long. [redacted] told her she interrupted and stopped the student's presentation because they needed to move on. After class, the student who was interrupted confronted [redacted] about being stopped and how that was not right, and they should have been able to finish their presentation. [redacted] said [redacted] never told her it was KOHBERGER but that she could connect the dots because it was only one person causing problems in all these classes.

14. [redacted] stated it was circulating through the multicultural class that KOHBERGER was a traditional person who believes in traditional marriage. [redacted] told us there was quite a diverse group of students who are not traditional students. [redacted] told us about a student [redacted] (unknown spelling) who was pacing around her office and near KOHBERGER's office. When [redacted] asked [redacted] what she was doing, [redacted] told her she wanted to put an Ally sticker on KOHBERGER's office door. [redacted] explained to [redacted] that KOHBERGER did a presentation in the multicultural class and asked the class a question he did not get to hear the answer to. [redacted] claimed KOHBERGER gave his answer to the class and said something to the effect of, "I already have my answer. It's wrong." [redacted] said whatever the question was, it led the class to believe KOHBERGER was homophobic, transphobic, or both. [redacted] said she personally placed the Ally sticker on KOHBERGER's door. [redacted] said KOHBERGER quickly complained about the sticker and she removed it.

15. [redacted] described KOHBERGER as very flat affect, seemed to stare into nothing, talked through you not with you, always geared up for a debate, and never relaxed in the limited times she had seen him. [redacted] said she had never heard KOHBERGER laugh. In the few times [redacted] and KOHBERGER were both in their offices at the same time, [redacted] had only seen approximately two female students in KOHBERGER's office, and all appeared to be appropriate behavior.

16. [redacted] brought up another incident [redacted] told her about KOHBERGER and his mentor [redacted] (unknown spelling) who was a juris doctorate (JD) and an instructor. KOHBERGER was [redacted] teacher assistant. [redacted] said KOHBERGER and [redacted] had a disagreement in [redacted] office. [redacted] explained the disagreement escalated to the point of shouting and [redacted] telling KOHBERGER to leave. KOHBERGER refused to leave, and [redacted] ended up leaving instead. [redacted] said she did not know what the argument was about but was surprised because it was the first time this had happened with KOHBERGER and a male that she knew about.

17. [redacted] could not remember seeing KOHBERGER after the murders and could not speak to any behavior changes. [redacted] stated even though she had weird thoughts about KOHBERGER, she did not think he was behind the murders. [redacted] said she pegged him as a stalker or sexual assaulter type. [redacted] had no idea about KOHBERGER's social media presence. [redacted] described KOHBERGER's office as sterile with nothing in it.

18. Audio of the interview was submitted into evidence at the Moscow Police Department.

19. End of report.

Narrative

Narrative

1. On Friday, 25, 2022, I, Idaho State Police (ISP) Senior Detective Gary Tolleson, and ISP Detective Leslie Lehman where at the ISP offices in Coeur d'Alene, Idaho when [redacted] (DOB: [redacted]1984) came in to report a photograph she found on Facebook Market Place of a white vehicle with what appeared to be "blood" smeared on it.

2. Ms. [redacted] thought this was unusual enough to report it to the police and thought it might somehow be related to the homicides in Moscow, Idaho.

3. The advertised vehicle, a 2007 White Chevrolet Impala 4-door, was for sale by the owner, [redacted] (DOB: [redacted]/2002), who lives at [redacted] in Coeur d'Alene, Idaho. After interviewing Ms. [redacted], Detective Lehman and I went to [redacted] to look at the vehicle, which we found parked on the street in front of [redacted].

4. I knocked on the door and rang the doorbell at [redacted] but no one answered. I then went next door and knocked on the neighbor's door. [redacted] neighbor answered the door. I explained why I wanted to talk to [redacted] and the neighbor gave me his telephone number, saying [redacted] was at work.

5. I telephoned [redacted] and explained why we were calling and looking at his vehicle. He told me it was fake blood he had applied to the vehicle for Halloween. I asked for permission to take swabs of the areas the "fake" blood had been applied to the vehicle. He told me that it was ok with him.

6. I swabbed all four sides of the vehicle and packaged the swabs in paper. The swabs were given to the Moscow Police Department with a request to have the swabs sent to the lab for testing to see if it was, in fact, blood.

7. The interview with [redacted] was transfered to a compact disk (CD) and this was also given to the Moscow Police Department as evidence.

8. Case continues.

Narrative

1. On January 5, 2023, at approximately 12:56 p.m., ISP Det. Schwecke and I interviewed [redacted] at MPD. [redacted] is the [redacted] at the [redacted] in Pullman, WA. [redacted] provided receipts and documentation regarding **KOHBERGER's** stay at the [redacted] from June 30, 2022 - July 1, 2022. [redacted] called a tip into the FBI tip line on December 30, 2022, however, the interview took place after the Probable Cause (PC) Affidavit for **KOHBERGER's** arrest was released to the public on January 5, 2023. The following is a summary of our interview, for full details review the audio recording:

A. **KOHBERGER** checked in on June 30, 2022 at approximately 4:52 p.m. The reservation was made in [redacted] Kohberger's name through Expedia, but only **KOHBERGER** was seen. [redacted] was training as a new front desk clerk and checked **KOHBERGER** in.

B. [redacted] overcharged **KOHBERGER** during the check-in process. **KOHBERGER** became upset due to the mistakes made on his bill during check-in, the room had already been paid for through Expedia but he was charged again. [redacted] corrected the mistakes on the billing, and he became nice once everything became corrected.

C. **KOHBERGER** later came down to the front desk and asked her to make a set of key cards for his room and leave them for someone named [redacted].

D. The following morning she went upstairs to see if **KOHBERGER** was going to check out at the appointed noon checkout time. As she approached his room to contact him, he was standing in the doorway leaving. As they walked down to the front desk they talked about sheaths and collecting knives. Once at the front desk, they talked about self-defense weapons and their knife collections. The key cards for [redacted] were still at the front desk when he was checking out.

E. Her night auditor [redacted] and [redacted] [redacted] remembered seeing the key card that was left for [redacted] at the front desk.

F. [redacted] said she was unable to fix the mistakes in the billing during check-in and they had to be fixed the next day by her [redacted] [redacted]

* Note: During the interview, [redacted] changed her story every time we would circle back to clarify her timeline, and confirm her role and the actions she took during KOHBERGER's stay.

2. On January 5, 2023, at approximately 4:06 p.m., Det. Schwecke and I interviewed [redacted] via telephone. The following is a summary of our interview, for full details review the audio recording:

A. During the summer of 2022, [redacted] worked at the [redacted] [redacted] hotel in Pullman Washington. She worked the front desk at the hotel. She quit sometime before October.

B. [redacted] was her manager and called to tell her that she had checked in the suspect of the Moscow Homicide (**KOHBERGER**) . [redacted] told her that she had double-charged him and he became really upset, but then he became nice and kept coming downstairs flirting with her.

C. She did not see anyone else checking in with him, nor did she remember **KOHBERGER** requesting a key to be made for a visiting guest.

D. She normally worked the front desk from 3:30 p.m. - 11:30 p.m.

3. On January 5, 2023, at approximately 3:27 p.m., Det. Schwecke and I interviewed [redacted] via telephone. The following is a summary of our interview, for full details review the audio recording:

A. [redacted] has worked for the [redacted] [redacted] for over two years, and primarily works the front desk and night audit. He worked the evening of July 1, 2022, at the front desk, and started around 3:30 p.m. after **KOHBERGER** would have checked out.

B. He remembered seeing some spare key cards that were left at the front desk at the start of his shift. Normally when a guest requests to leave a room key for a visitor it is put in the computer under the guest's name and when the visitor shows up they are issued a card. Sometimes they make the key cards before the visitor shows up and then pass them on to employee taking over next shift.

4. On January 5, 2023, at approximately 4:13 p.m., Det Schwecke and I interviewed [redacted] via telephone. The following is a summary of our interview, for full details review the audio recording:

A. [redacted] was working as a night auditor on June 30, 2022, and started his shift at 11:00 p.m., the following morning his shift ended at 7:00 a.m.

B. He heard secondhand from [redacted] that she made a keycard for **KOHBERGER** that was made for [redacted] [redacted]. He doesn't remember for sure if he saw the keycard while he was working his shift on the 30th, but he does remember that no one came in that evening asking for a keycard to **KOHBERGER's** room.

5. On January 5, 2023, at approximately 3:53 p.m., Det Schwecke and I interviewed [redacted] via telephone. The following is a summary of our interview, for full details review the audio recording:

A. [redacted] has worked at the [redacted] [redacted] in Pullman, WA for eight years as the [redacted]

B. He had no interaction with **KOHBERGER** during his stay at the [redacted] [redacted]

C. When he came into work the next morning (July 1,2022) he remembered seeing a keycard at the front desk that had the name [redacted] written on it. At the time he was unaware of what guest had requested it.

D. Once **KOHBERGER's** name had been released as a suspect in the homicide case, [redacted] informed him that he had been a guest at the hotel and mentioned he was the one who had requested a keycard for someone named [redacted]

E. He remembers [redacted] fixing the overcharging of **KOHBERGER's** credit card when [redacted] made the mistake during his check-in.

6. I turned all evidence and audio of interviews over to the Moscow Police Department.

In August 2022, she met Xana Kernodle (Kernodle) and Kernodle's boyfriend, Ethan Chapin (Chapin).

Narrative

B. For the Fall 2022 semester, the five ([redacted] [redacted] Mogen, Goncalves, and Kernodle) became [redacted] at the [redacted] residence and quickly became good friends. Chapin was a regular at the residence which helped them to feel safe within the house.

C. Goncalves was a very funny person, a prankster, very hardworking, and a person with positive energy. Goncalves had been in a long-term relationship with [redacted] [redacted] but the two mutually separated, they shared the dog, Murphy. Goncalves may have been in a relationship with [redacted] [redacted] [redacted] [redacted] was Kernodle's [redacted]

D. Mogen was very loving, a genuine person, social, and outgoing. Mogen was in a good relationship with [redacted] [redacted] but there was a kiss between Mogen and [redacted] [redacted] while vacationing in Mexico.

E. Kernodle was very energetic, with positive energy, hardworking, nice, and genuine, she would tell "the absolute truth." Kernodle was "totally nice", but a fighter, and would address issues if needed. Kernodle was in a relationship with Chapin, and the two were very good together. Both Kernodle and Chapin were fun and the life of a party. Kernodle was close with Chapin's [redacted] [redacted]

F. Chapin was a social person, easygoing and easy to talk with, goofy, and likable. He and Kernodle were never far apart and had a great relationship. The [redacted] enjoyed having Chapin at the residence.

I. All the roommates enjoyed partying at the residence, at Greek functions, and elsewhere. [redacted] was regularly consumed at the residence by the roommates and others, and [redacted] was used by some.

J. The roommates had common friends with [redacted], [redacted] and [redacted].

L. Mogen and Kernodle worked at the [redacted] restaurant, Goncalves worked at home for a company, and Chapin, [redacted] and [redacted] were not employed.

M. [redacted] and her [redacted] would sometimes go to Pullman, WA for entertainment and food, but she couldn't recall going to the Washington State University (WSU) campus. She believed Kernodle had been to WSU to visit her [redacted] [redacted]

N. Before the murders, Goncalves had claimed to have seen a shadow (shadowy figure) watching her from the vegetated area behind the residence, which freaked her out. Goncalves had also told the roommates about a stalker at [redacted] in Moscow, ID.

O. When Mogen and Goncalves returned to the residence during the early morning hours on November 13, 2022, [redacted] and [redacted] joined the two in Goncalves's bedroom. The four were having fun and discussing their evening. Mogen repeatedly took Goncalves "Grub Truck" food, so they wanted to get more, but none of them could drive. [redacted] attempted to call [redacted] the Uber driver to see if he could grab more Grub Truck food, but [redacted] wasn't available.

Note: See [redacted] prior interviews for full details of the morning hours of November 13, 2022.

P. [redacted] doesn't know why her friends were murdered but speculated it could have been out of rejection or a hurt ego. Narrative

1. On Friday, December 2, 2022, at approximately 9:30 a.m., I facilitated entry into the residence by [redacted] [redacted] and [redacted] [redacted] from [redacted] so they could begin preparing estimates for biological and chemical remediation on behalf of the property owner. [redacted] and [redacted] both signed non-disclosure agreements before entering the residence and were monitored by me during their time at the crime scene. The signed non-disclosure agreements were provided to MPD.

2. While in the residence, I discovered that the thermostat/furnace was not working properly. The temperature in the house was approximately 45 degrees Fahrenheit. I attempted to reset the thermostat to 65 degrees. Additionally, I watered the live plants that I found in the residence and turned off or unplugged all unnecessary electronics in the house such as televisions and string lights.

3. At approximately 11:05 a.m., [redacted] and [redacted] completed their work. I secured the residence and we left.

4. On Saturday, December 3, 2022, I returned to the residence and discovered that the interior temperature had dropped to 42 degrees. Moscow Police Department (MPD) Captain (Cpt.) Roger Lanier contacted the homeowner and acquired space heaters to place in the residence. ISP Detective (Det.) Jake Schwecke and I placed heaters in the bathrooms, kitchen, and main floor. Additionally, we opened cabinets in areas that contained pipes to keep them from freezing.

5. On Monday, December 5, 2022, at approximately 12:45 p.m., I facilitated entry into the residence by [redacted] [redacted] of [redacted] to fix the thermostat/furnace on behalf of the property owner. I monitored [redacted] the entire time he was in the residence. He never left the bottom floor and did not observe any part of the crime scene.

6. At approximately 1:30 p.m., [redacted] completed his repairs. I left the space heaters in the residence on low in case the thermostat/furnace failed, then I secured the residence and we left.

Narrative

7. On Tuesday, December 6, 2022, I returned to the residence. The temperature was maintained at 70 degrees Fahrenheit. I removed the space heaters.

8. On Wednesday, December 7, 2022, I assisted the MPD with packing the victims' belongings at the residence and loading them onto a U-Haul truck to be moved to an off-sight location. MPD Chief James Fry and I worked together in KERNODLE's room to pack her personal belongings. Due to chemical and biological contamination, we were unable to pack all of the items located in her room. Chief Fry and I packed up most of the items in her closet and various items located in and around her desk area that appeared to be of financial or sentimental value, such as currency, graphing calculators, car keys, ID Cards, gift cards, and personal notes. I counted the currency (approximately $172.21 in cash and coins) found in a backpack and the desk drawer. I photographed the currency along with Kernodle's Arizona Driver License, University of Idaho ID card, a Chick-Fil-A gift card, and two Amazon gift cards and placed them into a box with her other belongings. The photographs were provided to MPD.

9. Chief Fry and I also packed up the personal belongings in MOGEN's room that did not appear to have chemical or biological contamination. We gathered items of perceived sentimental value such as her cowboy boots, wall art, personal notes, pictures, and a mirror.

10. Other MPD personnel packed the personal belongings found in the other rooms.

11. I assisted MPD with loading the boxes of personal belongings onto a truck which was ultimately moved to an offsite location to be returned to the family/owners.

Narrative

1. On January 26, 2023, ISP Det. Schwecke and I interviewed [redacted] at Washington State University in room 403 of the Lighty Services Building. The following is a summary of the interview, for full details review the audio recording.

A. She has worked at WSU in the [redacted] since [redacted].

B. Professors of WSU see graduate students three hours per week in class.

C. She teaches graduate-level [redacted], and undergraduate-level [redacted].

D. Her class, [redacted], was on Thursdays and she first had contact with **KOHBERGER** in that class on August 25, 2022.

E. Nothing stood out to her in her first interaction with **KOHBERGER** other than him "wanting to dominate the conversation."

F. The week immediately following the homicides, **KOHBERGER** was not in her class and sent an email about not being there. [redacted] will be providing a copy of the email as part of the administrative subpoena.

G. The paper **KOHBERGER** wrote for her class was on burglary. [redacted] will be providing a copy of the paper as part of the administrative subpoena.

H. She covered for another professor for a Tuesday class the week immediately following the homicides and **KOHBERGER** was later than usual for that class.

I. She noticed a bandage on **KOHBERGER's** middle and ring fingers of his right hand. **KOHBERGER** told her it was from a silly accident that happened indoors. She didn't think it happened indoors because it looked like it had been scraped on asphalt. She believed she observed this injury prior to the homicides, but wasn't certain.

J. **KOHBERGER** wanted to dominate conversations he participated in.

K. **KOHBERGER** was systematically late to her classes. One time he arrived on time and she told him, "Hey, you're not late today.", and he laughed awkwardly.

L. **KOHBERGER** cornered her in the hall the first week of classes because she had not given him one hundred percent for participation that week.

M. She would deliberately not call on **KOHBERGER** towards the end of class because he always wanted to talk and would "go on these monologues". **KOHBERGER** would correct other students which she believed was inappropriate since that is her job.

N. **KOHBERGER** seemed to correct his behavior throughout the course of the semester and was more contained by the end of the semester.

O. **KOHBERGER** would present his opinions and ideas as statements of fact.

P. She heard from one of her students that **KOHBERGER** was telling other students that because she is a [redacted] he knows better.

Q. One day a female grad student came running into her office crying. [redacted] went and checked on her and the student said that she had just left class because of an interaction with **KOHBERGER**. **KOHBERGER** had said something very sexist and the student called him out for "mansplaining". **KOHBERGER** stood his ground and kept speaking in a way that made the student feel she needed to stand up and leave the room.

R. The following are examples of stories involving **KOHBERGER** that she had not witnessed, but had heard secondhand:

a. **KOHBERGER** told a female student that was "both disabled and gay" that he would need his partner to be physically perfect and a disability would not be acceptable.

b. **KOHBERGER** once told a [redacted] student something like, "Oh, I could never understand, like, what your experience is like as a [redacted] woman." [redacted] referred to this as a positive interaction between **KOHBERGER** and the [redacted] student. This was the only positive story she remembered being told of **KOHBERGER**.

S. **KOHBERGER's** research interests were very much aligned with [redacted] and as such, they had many conversations that she did not want to label "positive", rather it was more of what you would expect between a grad student and their professor.

T. **KOHBERGER** kept telling her he wanted to study emotions and decision-making.

U. **KOHBERGER** read a lot of her research and when he was required for another class to do a paper on another faculty member, he picked one of her papers.

V. She felt **KOHBERGER** wanted to work with her, but never formally asked.

W. She did not remember the details of the story but recalled **KOHBERGER** had said something homophobic.

X. She was asked by staff to check in on [redacted] because **KOHBERGER** was harassing her.

Y. **KOHBERGER** would go into an office where several female grad students worked and physically block the door. Once in a while, she would hear one of the female grad students say, "I really need to get out of here.", and she would intercede by going into the office allowing the female student to leave.

Z. **KOHBERGER** really wanted to study burglars.

AA. **KOHBERGER** had strong feelings that regular burglars had nothing to do with sexually motivated burglars.

BB. **KOHBERGER** would show up anywhere from 10 minutes late, to an hour on one occasion. On that occasion, he brought a note from his professor. [redacted] will be providing a copy of the note as part of the administrative subpoena.

CC. All **KOHBERGER's** graduate-level classes are in the afternoon from 2:00-5:00 and there is only one per day. He would not have had any classes previous to hers unless he was acting in a Teacher's Assistant (TA) capacity.

DD. She checked with the professor **KOHBERGER** was a TA for and he told her he had advised **KOHBERGER** to leave his class early so he could be on time for her class. **KOHBERGER** continued to arrive late.

EE. **KOHBERGER** had three courses as part of his Ph.D., two with female professors and one with a male professor. Students in the same classes began taking a poll of when he was late to female-led classes versus the male-led class. He was systematically late to both female-led classes and not late once to the male-led class.

FF. **KOHBERGER** was obsessed with serial killers and would talk about it a lot in class.

GG. The week **KOHBERGER** was not in class, three female grad students approached her and said, "Oh my God, class was so much better today, like, just easier to navigate."

HH. The classroom was set up in a circle around a table and **KOHBERGER** would sit next to her every time.

II. She and her colleagues had a faculty meeting right before the Christmas break in which they discussed each of their students. **KOHBERGER** took up the most time in this meeting because he was highly problematic.

JJ. She told her colleagues, "He is smart enough that in four years we will have to give him a Ph.D." and "Mark my word, I work with predators, if we give him a Ph.D. that's the guy that in that many years when he is a professor, we will hear is harassing, stalking, and sexually abusing of his, I thought would be his, you know, his students at wherever university he ended."

KK. Because there was a performance issue in terms of his TA duties, she and a couple of other faculty members made the recommendation to cut his funding and get him out of the program.

LL. She felt he was stalking people.

MM. She would not share his dissertation as a backup solution for kicking him out.

NN. The room was divided on whether **KOHBERGER's** funding should be pulled or not.

OO. During her time at WSU, the discussion of cutting someone's funding to remove them from the program has never happened before. She knew of one student that had their funding pulled simply because they stopped showing up for classes.

PP. She saw **KOHBERGER** in the parking lot of Safeway late the night before the Christmas potluck. He was so lost in thought she waved at him for "literally two minutes" before she thought, "Okay, I don't think it's him". At some point, he saw her and the next day he came and apologized to her.

QQ. A female graduate student came to her sometime during September or October and reported that

Narrative

someone had broken into their apartment and stolen intimate items such as perfume and underwear and that she was very scared.

2. I copied audio recordings of the interview to a compact disc and processed it into evidence at the Moscow Police Department.

I learned several days later WSU would not respond to a search warrant from the State of Idaho. Arrangements were made through the Whitman County Prosecutor's Office to serve a Washington State warrant on behalf of the State of Idaho. I had no further involvement with that search warrant process.

Narrative

1. During the subsequent investigation following the homicide of Mogen, Goncalves, Kernodle, and Chapin on November 13, 2022, I reviewed several tips and contacted or attempted contact with several subjects. During this time **KOHBERGER** was identified as the suspected perpetrator and arrested. The following tips were evaluated by investigators, follow-up started, and some subjects contacted:

A. Serial Number 78: Per tip information, Reporting Party (RP) [redacted] [redacted] believed [redacted] [redacted] and [redacted] [redacted] were subjects who should be contacted due to their long history with [redacted] ([redacted]). [redacted] allegedly had previous weapon possession charges and drove a white sedan. Investigators discovered [redacted] had an active warrant and attempted multiple times to contact him but were ultimately unsuccessful. During that time **KOHBERGER** was identified as the primary suspect and arrested.

B. Serial Number 177, VCC#5135: Per tip information, RP [redacted] and RP [redacted] believed [redacted] [redacted] was a suspicious male who should be contacted due to his sporadic work activity and his wearing of a large belt knife. Multiple unsuccessful attempts were made to contact [redacted] during which time **KOHBERGER** was identified as the primary suspect and arrested.

C. Serial Number 954: Per tip information, RP [redacted] [redacted] and RP [redacted] [redacted] believed [redacted] [redacted] was a suspicious male who should be contacted due to his residence proximity to the homicides and suspicious activity, which included an incident where he allegedly offered to sell the RP "acid" and later arrived at their apartment uninvited with alcohol and had to be escorted from the residence. Multiple unsuccessful attempts were made to contact [redacted] during which time **KOHBERGER** was identified as the primary suspect and arrested.

D. Serial Number 1389: Per tip information, unknown RP believed [redacted] [redacted] was a subject who should be contacted due to his alleged "...narcissistic personality...", alcohol and drug use, and misogynistic view of women. Investigators began evaluating the tip, however, before [redacted] was contacted **KOHBERGER** was identified as the primary suspect and arrested.

E. Serial Number 8191: Per tip information, RP [redacted] [redacted] believed she had seen **KOHBERGER**'s profile on Tinder or Facebook. On January 18, 2023, I spoke with [redacted] by phone. [redacted] told me she believed she had seen **KOHBERGER**'s face on a dating app profile but couldn't remember which one. She also

Narrative

told me didn't have any interaction with the account or **KOHBERGER** , and she wasn't completely sure it was **KOHBERGER** because the profile name was not **KOHBERGER** 's name, but she couldn't remember the profile name.

F. Serial Number 8378: Per tip information, RP [redacted] [redacted] observed a vehicle matching the description of **KOHBERGER** 's near Diamond, Ohio. Rp's reported observed timeline and **KOHBERGER** 's timeline per his cellular telephone (cell phone) data didn't match. The RP reported seeing the vehicle at "mid-day", while **KOHBERGER** 's cell phone data showed him traveling past Diamond, Ohio on December 16, 2022 at 2:00 a.m.

G. VCC# 2976: Per tip information, RP [redacted] [redacted] believed her ex-husband [redacted] [redacted] should be investigated in relation to the homicides due to his alleged previous threats towards people and his [redacted] at the University of Idaho (U of I). Investigators began evaluating the tip, however, before [redacted] was contacted **KOHBERGER** was identified as the primary suspect and arrested.

H. VCC# 5450: Per tip information, RP [redacted] believed [redacted] was a suspicious male who should be contacted due to his alleged activity making [redacted] feel "...uncomfortable for years...", as well as one of his Facebook photos showed him wearing a face mask. Investigators began evaluating the tip, however, before [redacted] was contacted **KOHBERGER** was identified as the primary suspect and arrested.

2. On February 7, 2023, ISP Det. Jake Schwecke and I interviewed [redacted] [redacted] at the Moscow Police Department (MPD) regarding information received in serial number 3195. After being advised of the nature of the interview and that it would be recorded, [redacted] provided the following information:

A. He is a [redacted] at the University of Idaho (U of I), studying [redacted], and currently lives at [redacted] Moscow, Idaho.

Narrative

1. On January 19, 2023, I, Idaho State Police (ISP) Detective Leslie Lehman was asked to locate the owner of cellphone number [redacted]. The number was used to attempt access of the T-Mobile account owned by [redacted] [redacted] (DOB [redacted]/2003).

2. Research showed the most likely owner of the phone number was [redacted] (DOB [redacted]/1978). Law enforcement research showed an address at [redacted]n Post Falls, Idaho or [redacted], Post Falls, Idaho.

3. I visited the [redacted] on January 19, 2023. The owners of the three-unit complex were identified and none knew [redacted] The owner of Unit [redacted] passed on a stack of mail having been received in the last week at her unit and did not belong to her. I secured the mail, photographed the front of each envelope, and gave the mail to the U.S. Postal Service Inspector that works in the ISP District One office. Investigation would show the names listed on the envelopes were not tied to this case.

4. On February 1, 2023, I went to the [redacted] apartment in Post Falls, Idaho along with ISP Detective Gary Tolleson. There was no answer at the apartment, so I left my phone number and requested a return phone call. [redacted] called me later the same day confirming family members had located my business card at her apartment.

5. [redacted] confirmed her phone number was [redacted]-[redacted]-[redacted] and the provider was T-Mobile. [redacted] was calling me from the number. On December 3, 2022 her account, which she shares with eight other family members and is administered by her elderly father, was spoofed. Her elderly father answered a phish text from T-Mobile that exposed all the phone numbers on the account, including hers, to hackers. The account and numbers were locked down, but the entity that was using her number has continued to use it to contact people she does not know.

6. [redacted] has contacted the FCC and continues to reach out to T-Mobile. She forwarded me emails generated by those contacts. She also confirmed she was continuing to get angry text messages and voice mails from people who are receiving messages from her assigned number. She recognized the last defense for her and the other numbers on the account was to change the assigned phone numbers.

7. The emails connected to the investigation with [redacted] and the photos taken of the mail at [redacted] have been saved to a disc and will be provided to the Moscow Police Department to be attached to the case file under this supplement.

Narrative

1. **Tip Number 0763**: [redacted] (DOB [redacted]/1969). [redacted] works as an [redacted] at the [redacted] [redacted] [redacted] in Moscow, Idaho. She wrote several lengthy emails to the Moscow Police Department outlining her thoughts on a homeless man she had spoken to prior to the murders in Moscow. She said that this lengthy conversation took place out in front of her place of business, next to a Coke machine her son had placed there to for money. She believed this conversation took place on October 18th.

2. Detective Sergeant Van Leuven and I conducted several lengthy interviews with [redacted] [redacted] as well as other multiple interviews with persons supposedly associated with or have dealt with this homeless man [redacted] [redacted] thought was possibly involved.

3. Persons interviewed on this tip:

- [redacted]
- [redacted]
- [redacted]
- [redacted]
- [redacted]

4. This tip also led Detective Sergeant Van Leuven and I to interview the owner, of the [redacted] [redacted] [redacted] business located at [redacted], Moscow, Idaho. The owner is [redacted] [redacted] [redacted] (DOB [redacted]/1981).

5. **Tip number 0040**: [redacted] [redacted] emailed Moscow Chief of Police Fry. This was assigned to Detective Lehman and me. According to [redacted] a man named [redacted] who lived near her, had many cats at his home. Sometime in the past, [redacted] and [redacted] spoke about the cats. She described [redacted] as being "creepy", "rapey", and he had been walking in the neighborhood more than he usually does. [redacted] wrote that she was aware of [redacted] pulling a knife on someone at the [redacted] several years ago.

6. This led us to the [redacted], located at [redacted], Moscow. I telephoned the owner, [redacted] [redacted] He told me he had owned the [redacted] for over 16 years, and they used to be open at night but because of the fights and other disturbances he was no longer open at night. He did not remember a knife incident. He did tell us he had video of the street and the food truck (Grub Truck) where Maddie and Kaylee were seen on the night of the homicides. The [redacted] gave Detective Lehman a thumb drive of the videos.

7. **Tip number 4768**: [redacted] [redacted] [redacted] (DOB [redacted]/1996), lives in Moscow at [redacted] [redacted] This was sent in by [redacted] [redacted] [redacted] of [redacted] [redacted] [redacted] She thought he could be violent, and he owns knives. He is also in the National Guard.

8. ISP Detective Brady Walker telephoned his National Guard contact and got a second address for [redacted] [redacted], Moscow. They had no apartment number. This address is a large apartment complex. A vehicle description and license number of a vehicle registered to [redacted] was obtained. ISP Detective Cody Herman and I drove by both locations. No vehicle was spotted.

9. The next day Detective Alderson and I then discussed Email **Tip #4768**. Detective Alderson told me that [redacted] [redacted] goes to [redacted], and he has spoken to her in the past. Detective Alderson telephoned a [redacted] of [redacted] and got [redacted] [redacted] telephone number; he called her and left a voice message. [redacted] [redacted] and Detective Alderson spoke by telephone later in the week. She had no other information on [redacted] [redacted] than what

she called in.

10. During this time, **KOHBERGER** was identified as the primary suspect in the homicides and later arrested out of state.

11. **Tip number 4400:** This email tip is associated with multiple people. One is a [redacted] [redacted] and the other is with a [redacted] [redacted] email tips. They are all linked to tips:

#4119 from [redacted]
#3140 from [redacted]
#3235 from [redacted]
#4630 from [redacted]
#5613 from [redacted]
#3499 from [redacted]
#3638 from [redacted]
#2778 from [redacted].

12. All of the above tip's (4400) stem from a You Tube medium reading from a [redacted]" a [redacted] who led some viewers to believe that a [redacted] [redacted] [redacted] (DOB [redacted] 1998), a member of [redacted] family, was somehow involved in the homicides in Moscow.

13. The [redacted] family used to have a restaurant in Moscow called the [redacted] which used to be located next to [redacted] [redacted] restaurant. The viewers of the You Tube "reading" who called/emailed in the tips believed that [redacted] [redacted] had been involved in the Moscow homicides because he had a "fixation" with Kaylee. [redacted] [redacted] father, [redacted] [redacted] was a [redacted] of [redacted] at the [redacted].

14. Tip #3638 is a call in from his ([redacted] mother, [redacted] I telephoned [redacted] [redacted] and left a message. She telephoned me back and we discussed the on-line accusations about her son [redacted]

15. [redacted] told me that they used to own a restaurant in Moscow, but it had been closed for several years. Her son, [redacted] had gone to school in Bellingham, Washington and then had left to got to [redacted] in Vermont. He returned to Moscow and then he and his girlfriend had gone on vacation in Thailand before returning to Moscow. [redacted] has since moved to New York City and is working there.

16. I asked [redacted] [redacted] to call [redacted] and see if he would call me. She called me back and told me she had left a message to have him call me. [redacted] [redacted] also told me that another owner of a restaurant in Moscow, [redacted] [redacted] had to deal with similar online accusations against her son by people who had watched the '[redacted] [redacted] [redacted] YouTube video. The restaurant [redacted] owns is the [redacted] [redacted] located at [redacted] [redacted] in Moscow.

17. Later that day, I received a telephone call from [redacted] [redacted] He told me he had attended College in Bellingham, Washington from Fall of 2016 to Spring of 2021. He then moved to Vermont to work in the [redacted] until October of 2022. He moved back to Moscow and then moved to New York City after Thanksgiving of 2022. He now works manufacturing guitars in New York.

18. [redacted] told me he did not know any of the students who were murdered, and he didn't remember ever seeing any of them or meeting any of them.

I also conducted an interview at the Moscow Police Department located at 155 Southview in the city of Moscow, Latah County, Idaho.

Narrative

1. On January 13, 2023, ISP Det. Ryan O'Harra and I conducted an interview with [redacted] [redacted] ([redacted] at[redacted], Pullman, Washington. [redacted] is an [redacted]. The following is a summary of the interview, reference the audio interview recording for full details. [redacted] provided the following information:

A. She worked at WSU since [redacted]. Her contract with WSU is for [redacted]. She teaches two classes in the Fall Semester and two classes in the Spring Semester.

B. Her only contact with Bryan Kohberger (**KOHBERGER**) was at school designated events.

C. She first met him at school orientation, nothing stood out about **KOHBERGER** that she recalls.

D. She met and interacted with **KOHBERGER** at a second event, during October or November of 2022, a night out at the bar with graduate students. **KOHBERGER** asked her about her research interests and how it was practicing [redacted] None of their areas of interest in law overlapped.

E. As faculty they discuss graduate students, prior to going on break **KOHBERGER** was one of the main people of conversation. Specifically, his behavior around women, he was aggressive towards women and made them feel uncomfortable. The faculty discussed how they could intervene.

F. [redacted] [redacted] another teacher, came to her and complained about one of his TA's. No names were brought up, but it was regarding a TA making women uncomfortable. She recommended he document the issues in writing.

G. **KOHBERGER** was respectful during her conversations with him.

2. On January 13, 2023, ISP Det. Ryan O'Harra and I conducted an interview with [redacted] [redacted] ([redacted] at Moscow Police Department, Moscow, Idaho. [redacted] is a business consultant at [redacted]in Pullman, WA. Ferris attended a pool party at [redacted] located in Moscow, Idaho in July of 2022. [redacted] interacted

They shook hand and he had a very firm, dominant grip. He said he was new to town and went to school at WSU. It was a very bland conversation, and she wasn't interested in talking to him. He was in her vicinity and kept trying to join in conversations with her, she thought it was odd. He gave an "off" vibe and she kept her eye on him.

C. He seemed very used to being put off by women, he seemed ok with that. He made beelines to where he wanted to go. It seemed like he wanted to make friends but felt uncomfortable.

3. On January 17, 2023, ISP Det. Gideon Roberts and I conducted an interview with [redacted] [redacted] ([redacted] at [redacted], Pullman, Washington. She believes he told her his name was [redacted] He would ask her questions about her school program and psychology. He asked about the psychological assessments she was learning about, but she told him she wasn't interested in that area of study.

B. Her friend "[redacted] was at the register once when **KOHBERGER** came in and he asked for [redacted] by name. She was certain she never told **KOHBERGER** her name, and she doesn't wear a name tag, she was unaware how he knew her name. It seemed to her **KOHBERGER** knew what hours she worked and made remarks about her hours.

C. **KOHBERGER** would come in with a female [redacted], she doesn't know her name. She asked **KOHBERGER's** female friend where she was from, the female told her to guess. She guessed [redacted], and **KOHBERGER** remarked to the female, "See I told you she was smart." That statement seemed weird to her, because she didn't think much of **KOHBERGER,** but it seemed like he had been talking to the female about her.

D. She was always uninterested in talking with **KOHBERGER** and she would try to walk away, but he would just keep talking. She told a co-worker, [redacted] she was uncomfortable around **KOHBERGER** and [redacted] would let her know when he came in so she could avoid him.

E. She lives in [redacted] in Pullman, WA. There were a few times weird things happened around that time, but believes they are probably unrelated. She was home alone one night, changing in her room, and someone knocked on her window. She called her husband, and he came home from work. Another time, after she had started working at [redacted], she heard someone moving around on her porch at approximately 7:00 in the evening. Narrative

1. On March 1, 2023, at about 1:10 p.m., ISP Det. Schwecke and I interviewed [redacted] regarding his interactions with **KOHBERGER** . What follows is not intended to be an exact transcript of the interview. For further detail refer to the audio recording. After being advised of his Miranda Rights, confirming he had not been ordered to talk with us, advised of the purpose of the interview, and that the interview would be recorded, [redacted] provided the following information:

A. He couldn't remember the exact date, but he believed **KOHBERGER** had been placed in their pod a few days after New Year's Day.

B. After arriving in their pod, **KOHBREGER** immediately sat down and watched the news about his arrest, watching multiple channels that were covering the story. **KOHBERGER** said, "Wow, I'm on every channel."

C. **KOHBERGER** was very quiet, and it was very awkward having him in the pod.

Narrative

D. **KOHBERGER** was highly intelligent and analytical, always trying to figure out what you were doing, but didn't know common knowledge things, I.E. the difference between two muscle cars.

E. **KOHBERGER** eyes were "...creepy, I guess, but other than that, he seemed like a pretty normal guy...".

F. He didn't talk to **KOHBERGER** very much, but when he did, their conversation was casual small talk, never about **KOHBERGER** 's case.

G. **KOHBERGER** would use three standard-size bars of soap per week due to his hourlong showers and excessive hand washing. **KOHBERGER** 's hands were red from the amount of hand washing.

H. He was housed with **KOHBERGER** for about three weeks in total, before he was transferred.

I. **KOHBERGER** told him his favorite movie was "American Psycho" with Christian Bale.

2. At about 1:28 p.m., Det. Schwecke and I interviewed [redacted] regarding his interactions with **KOHBERGER** . What follows is not intended to be an exact transcript of the interview. For further detail refer to the audio recording. After being advised of his Miranda Rights, confirming he had not been ordered to talk with us, advised of the purpose of the interview, and that the interview would be recorded, [redacted] provided the following information:

A. He was housed with **KOHBERGER** from early January to February 15, 2023.

B. **KOHBERGER** enjoyed watching the news about his case unless it began talking about his family or friends, at which point he'd change the channel immediately.

C. As time continued, **KOHBERGER** stopped watching the news related to his case almost completely.

D. **KOHBERGER** analyzed everything. He wanted to know why people had preferences on anything. He '...psychoanalyzes everything."

E. They talked about his case sometimes, but never **KOHBERGER** 's case.

F. **KOHBERGER** spent most of his time on the communication tablet talking with people, typically his [redacted], who he told to retain an attorney after he had seen [redacted] on the news.

G. **KOHBERGER** washed his hands excessively, using three bars of soap per week, which caused his hands to always be red.

H. **KOHBERGER** showered every day and wanted new bedding and clothes every day.

I. **KOHBERGER** was very smart, easy to get along with, but was hard to talk to because he talked over him due to **KOHBERGER** 's vocabulary and topics of conversation. **KOHBERGER** also talked about his education a lot.

J. **KOHBERGER** loved baseball, with the Yankee's being his favorite team.

K. **KOHBERGER** also liked to watch CourtTV and was very interested in the Murdaugh trial.

3. Once the interviews were complete, I transferred the audio recording to a compact disc (CD) and processed it into MPD's evidence.

Narrative

1. On February 14, 2023, I, Detective Sergeant Van Leuven, interviewed [redacted] (DOB [redacted]-1979) regarding her interaction with Kootenai County Public Defender Ann Taylor. This interview was conducted at the Spokane County Jail where [redacted] was an inmate.

2. [redacted] advised she had met with a lawyer she believed to be Anne Taylor on multiple occasions when she was an inmate in the Kootenai County jail. This person was representing her on her recent charges involving controlled substances. She advised her last charge was approximately four days after her daughter, Xana A. Kernodle (DOB [redacted]/2002), had been murdered.

3. I showed her a photograph of Ann Taylor. She said this was not the person she knew as Ann Taylor. She described the lawyer she had met with as a white female in her thirty's who was approximately 5'6", 180 lbs. with shoulder length brown hair. [redacted] said she had never met the person in the picture I was showing her.

Narrative

4. I asked her where she had gotten the name Anne Taylor. She said someone had showed her a reddit thread where it stated her attorney was Anne Taylor. I told her that Anne Taylor was the head public defender for Kootenai County and her name would be on paperwork because it was her office that was defending her not necessarily Anne Taylor herself. [redacted] expressed regret in having confused the identity of the public defender she had met with.

5. I recorded this interview and will transmit a copy of this interview to the Moscow Police Department.

After 10 to 20 minutes there was an exchange that perturbed [redacted] [redacted] where KOHBERGER wouldn't get to the point and let [redacted]r go home. At one point KOHBERGER told [redacted] that he was "snarky." [redacted] become tired and frustrated and told KOHBERGER to leave his office and he did not. [redacted] got up and walked out of his office. He said KOHBERGER followed him out of his office and continued talking to him. [redacted] [redacted] said he walked down the hall to the main office where he knew KOHBERGER had some "run ins" with others.

5. After several late afternoon/evening encounters, [redacted] [redacted] wasn't sure if KOHBERGER was trying to curry favor or whether he was trying to control [redacted] [redacted] time. At some point [redacted] [redacted] concluded KOHBERGER was "power tripping" and by using [redacted] time and preventing him from leaving his office was a way of controlling [redacted] [redacted] [redacted] [redacted] advised that he has had over 8 [redacted] in the past and he has never had a problem with any of them.

6. [redacted] talked about KOHBERGER walking and talking with him as [redacted] [redacted] walked to his car. [redacted] remembered KOHBERGER bragging about outsmarting the parking regulations on campus.

7. [redacted] talked about difficulty in getting KOHBERGER to complete his tasks as a Teaching Assistant. [redacted] said he had been advised by department higher ups to be more direct in making his expectations clear to KOHBERGER.

8. [redacted] advised KOHBERGER's behavior didn't really change from the time before the homicides or after the homicides. [redacted] said he never received any direct complaints about KOHBERGER interacting with any of the undergraduate students in his capacity as a teaching assistant.

9. [redacted] further advised the female grad students didn't like KOHBERGER because he was that off putting. [redacted] said we should talk to a female front office staffer who was an undergrad student working on a work study program who had made complaints about KOHBERGER's behavior. [redacted] advised that he had second-hand information that he had made several of the female PhD students very uncomfortable because of interactions they had with KOHBERGER.

10. I asked [redacted] about which grad students we may want to interview that may have had a problem with Mister KOHBERGER. [redacted] advised that there were two students from [redacted] He said they were fellow PhD students named [redacted] (last name not said, later identified as [redacted] and [redacted] [redacted] Further [redacted] [redacted] advised that we should speak with faculty members [redacted] [redacted] and [redacted] who was the [redacted] of grad students.

11. I asked [redacted] if he had ever socialized with KOHBERGER. [redacted] advised that he had

Narrative

attended a mixer at the [redacted] where 20 to 25 people from the department attended. [redacted] [redacted] was accompanied by his wife, and he recalled nothing unusual during that mixer.

12. [redacted] [redacted] talked about the process by which KOHBERGER's behavior eventually led to his removal as a teaching assistant. [redacted] [redacted] advised he initially supported KOHBERGER until after a second event that [redacted] [redacted] could not remember the details of. [redacted] [redacted] advised KOHBERGER's removal was a result of a cumulative effect of his behavior.

13. After the homicides occurred [redacted] [redacted] said he did consider the possibility that KOHBERGER had committed the murders. [redacted] [redacted] characterized this as a "fleeting thought." [redacted] [redacted] considered KOHBERGER's power tripping/controlling tendencies in addition to being socially challenged. [redacted] [redacted] advised KOHBERGER had alienated or irritated several female PhD students as well as at least one female professor with his behavior. [redacted] [redacted] said KOHBERGER never discussed knives or edged weapons.

14. We asked [redacted] [redacted] about a survey KOHBERGER had conducted with person's who had committed crimes. [redacted] [redacted] said he was unaware of this and that we should contact [redacted] staffer [redacted] [redacted] about KOHBERGER's PhD activities.

15. [redacted] [redacted] talked about a conversation he had with KOHBERGER early on where they discussed the idea of sexual harassment. [redacted] [redacted] knew that KOHBERGER had alienated himself from the female grad students by this time (this included six or seven women). KOHBERGER came up with a line of thought where he said what if KOHBERGER had heard about [redacted] [redacted] behaving inappropriately with women and what would [redacted] [redacted] do to defend himself against a false allegation. [redacted] [redacted] found this line of thought to be troubling and thought KOHBERGER was trying to put himself in a position of power.

16. [redacted] said he did not remember any physical injuries visible on KOHBERGER after the homicides occurred.

17. This conversation was recorded, this recording was later provided to Moscow Police Department to be placed into evidence.

18. On January 3, 2023 Sergeant Stennett and I again spoke with [redacted] via telephone. [redacted] advised after thinking more about KOHBERGER he considered the issue about whether KOHBERGER was power tripping or just socially inept. He considered that it didn't matter. [redacted] talked about having coffee with a female staffer named [redacted] had concluded that KOHBERGER was power tripping. [redacted] [redacted] said he thought she was right on her opinion.

19. [redacted] said KOHBERGER told him that KOHBERGER lived near to where [redacted] would park while at work. [redacted] said he found that odd because after KOHBERGER was arrested and the media reported where KOHBERGER lived [redacted] advised that the building depicted by the media as KOHBERGER's residence was completely different than the one KOHBERGER had indicated to [redacted]

20. [redacted] also wanted to make it known that he was willing to assist the Latah County Prosecutor in this case if he could be of service.

21. I asked [redacted] about KOHBERGER's research work. [redacted] advised we follow up with the program director how oversaw KOHBERGER's research.

22. This conversation was recorded and placed on a disc with the other audio recordings from [redacted] interviews.

23. On January 11, 2023 FBI Special Agent Mark Zahaczewsky and I spoke with [redacted] at [redacted]. [redacted] advised he had spoken with people in the [redacted] about this incident. Specifically, he had spoken with [redacted] [redacted] [redacted] had reminded [redacted] about a test question regarding the difficulty in prosecuting rape crimes. [redacted] [redacted] had asked KOHBERGER to look at the question he had written and to make a revision to the question. When [redacted] [redacted] received the revised

question back from KOHBERGER, he found it to be useless because the language in the question would be triggering to many students. [redacted] [redacted] advised the language was dismissive of the victims. [redacted] [redacted] gave me a printout of his original question and the revised question KOHBERGER had produced and had given to [redacted] [redacted] on November 10, 2022. I also scanned these printouts and have placed them on the same disc that contains the audio recordings of this and the other [redacted] interviews.

24. We further discussed incidents with KOHBERGER that have already been covered in previous interviews. These topics included KOHBERGER's issues he had with females in the program as well as discussion regarding the process of this TA position being terminated. He discussed his past experience with TAs compared with current TAs. [redacted] discussed his opinion that KOHBERGER should have been kept on as a TA because [redacted] believed that [redacted] had an obligation to continue to honor their commitment in offering him a TA position. KOHBERGER relied on that commitment and if [redacted] was going to remove that from him [redacted] needed to make sure they had thoroughly documented the reasons why. [redacted] said he was concerned that removing KOHBERGER from the TA position without doing so would open [redacted] up to a civil lawsuit from KOHBERGER.

25. [redacted] talked about a situation where he was meeting wit[redacted] and KOHBERGER in his office in order to prepare final exam questions for his undergraduate class. KOHBERGER announced he had to have a zoom meeting with another student. [redacted] [redacted] assumed KOHBERGER was advising he had to leave for the meeting and could not help with the exam prep. Instead, KOHBERGER proceeded with the Zoom meeting in [redacted] office preventing [redacted] and [redacted] from preparing the exam. [redacted] [redacted] had to tell KOHBERGER to leave his office.

26. [redacted] advised [redacted] [redacted] had provided him with a slightly different version of the revised exam question referenced above. [redacted] did recall discussing this question with [redacted]

27. We discussed KOHBERGER's tendency to stare at people. [redacted] thought that KOHBERGER did this in a way to display power or dominance. [redacted] mentioned a senior named [redacted] [redacted] that complained that KOHBERGER starred at her a lot in class and made her feel uncomfortable.

28. [redacted] [redacted] advised he had not observed any inappropriate behavior from KOHBERGER aimed at any undergraduate students. He said he thought KOHBERGER did a good job in correcting poorly written answers and he had not observed bias or inappropriate tone in grading. One student had made a complaint about this, but [redacted] [redacted] did not see it.

29. Nothing further.

Narrative

1. On December 30, 2022, I, Detective Sergeant Van Leuven and Detective Sergeant Jess Stennett, interviewed [redacted] [redacted] (DOB [redacted]/1998) regarding her interactions

with Brian C. KOHBERGER (DOB [redacted]/1994).

2. [redacted] said the first time she met KOHBERGER was with another PhD student named [redacted]. [redacted] and [redacted] are friends who both came to [redacted] where they acquired their master's degrees. This meeting occurred at the graduate student orientation. KOHBERGER came up to them and [redacted] said she instantly had a bad feeling about him. [redacted] told [redacted] how she felt and [redacted] said to give him a chance.

3. [redacted] said she had confronted KOHBERGER early on about the way he was speaking to women. [redacted] said she noticed early on that KOHBERGER did not like people that were not of his demographic. She explained that there are a diverse class of different types of people in their class. On one day KOHBERGER was being rude to a deaf student named [redacted] [redacted] [redacted] said she called him out on how he spoke to her. [redacted] described how KOHBERGER's mannerisms also contributed to his rudeness. [redacted] further described that KOHBERGER would stare at people in an intimidating way. [redacted] said she would avoid sitting next to KOHBERGER in class. [redacted] told KOHBERGER that the way he was speaking was condescending and that he speaks that way to women and that it made her feel uncomfortable. Several of the students supported [redacted] in her rebuke of KOHBERGER. KOHBERGER responded to her by saying, "I care how you feel, but you are wrong."

4. Since that incident [redacted] said she has felt targeted by him. [redacted] became emotional at this point in the interview. [redacted] said KOHBERGER has since paid her a lot more attention. [redacted] said KOHBERGER has stood in a way that she couldn't get out of her desk and then started to talk to her. [redacted] said KOHBERGER would talk her into the ground about how she was wrong about whatever topic he was interested in. KOHBERGER would also come into her office and stand in the doorway and would not take any cues that she didn't want to talk with him.

5. KOHBERGER would try and talk to her about the Ted Bundy murders because he knew she was interested in true crime. He also name dropped a former professor of his named [redacted]. [redacted] admired [redacted] and wanted to meet her but not based on her association with KOHBERGER. [redacted] said if she was going to meet her it would be because of her own initiative not based on KOHBERGER. [redacted] said she was interested in the fact that since the Moscow murders, some people were comparing them to the Ted Bundy murders that occurred at a college sorority and that KOHBERGER wanted to talk about those murders with her. [redacted] said KOHBERGER studied sexual burglars and their motivations and decision making.

6. The [redacted] told [redacted] to start keeping track of KOHBERGER's behavior towards her. [redacted] made an informal report to the [redacted], but she didn't like the way they responded because she felt that they could not adequately from retaliation. [redacted] said she continued to report her experiences to the [redacted], as well as [redacted] the program chair and other professors about feeling unsafe. She said she recently wrote in a graduate questionnaire that she continued to feel targeted and didn't know how to handle the situation. [redacted] said they were required a discrimination training because of things that KOHBERGER had said unofficially.

7. KOHBERGER had asked [redacted] [redacted] if she would be comfortable procreating given the fact she had a disability.

8. [redacted] said she started keeping track of how often he was late to class. [redacted] said she kept track of the number of times that KOHBERGER aggressively stared at her during class. In one class she said he stared at her nine times. She described instances of KOHBERGER following her after class multiple times. [redacted] said KOHBERGER always seems to want to be in the general area of her and others in the program that did not want to have anything to do with him.

9. [redacted] talked about [redacted] student, [redacted] female, named [redacted] who recently had her apartment broken into. She complained to graduate housing, but they didn't help her. [redacted] said KOHBERGER took an interest in her. She said the reason this [redacted] and the other [redacted] talked to KOHBERGER was because they had difficulty understanding English and they seemed to be the only ones that would continue to talk with KOHBERGER. KOHBERGER went to the apartment and tried to support [redacted] This occurred toward the end of October.

Narrative

10. [redacted] said she has the sense that everything KOHBERGER does is very calculated. [redacted] said KOHBERGER is intimidated by her friend [redacted] because she stands up to him. When [redacted] is around KOHBERGER leaves [redacted] alone. When [redacted] leaves KOHBERGER then turns around and starts talking to [redacted] [redacted] said the way KOHBERGER behaves toward her is markedly different when [redacted] is not around. She talked about one day when [redacted] was gone, and KOHBERGER would not leave her alone and prevented her from leaving the class. [redacted] said she thought KOHBERGER's motivation was gratification he got from controlling her. He wants to be seen as the strongest, smartest, most important person in the room. She said their class has sat for hours in class listening to him arguing with the teacher about his project. KOHBERGER always wanted to talk about offender decision making. KOHBERGER gets very defensive when he feels like he is being questioned. On one occasion [redacted] had to cut him off when he was going on and on during one of his monologs. KOHBERGER responded that he felt it was rude when someone would interrupt him. [redacted] said KOHBERGER would use qualifying words in an effort to hide behind saying offensive things.

11. [redacted] said one time in November, she found KOHBERGER in her office; she felt uncomfortable and left. [redacted] shared an office with three other people and didn't feel like she should have told him not to be in her office. When she came back, KOHBERGER was in [redacted] office with his body turned toward [redacted] office. [redacted] later said KOHBERGER wasn't talking to her about anything important. [redacted] said when she came back, he asked her where she had been. She told him it was none of his business. [redacted] said KOHBERGER had bloody knuckles at the time. She said the wounds were "bad." [redacted] said KOHBERGER recently started wearing a giant puffy jacket even in class; she found this odd.

12. [redacted] said KOHBERGER said if he were to ever have a sexual partner, they would have to have no physical or mental disabilities, they would have to be strait and the opposite of gender non-conforming.

13. [redacted] discussed her beliefs that School Resource Officers were used to discriminate against minority populations in high schools. [redacted] said KOHBERGER disagreed and denied there are inequalities and said everyone was equal. [redacted] felt he was perpetuating the same myths she was trying to bring up.

14. [redacted] said some people in the program thought he might have autism. She thought KOHBERGER was a narcissist. [redacted] said KOHBERGER was a vegan.

15. [redacted] said KOHBERGER knew she was married because she had brought her husband to a get together BBQ. Her husband and KOHBERGER had a discussion at the BBQ. After this discussion, her husband told her that he did not like KOHBERGER and wanted her to be careful around him.

16. [redacted] said she would see KOHBERGER on a daily basis. [redacted] said in all the times she had interacted with KOHBERGER, he had never displayed empathy toward another person.

17. [redacted] was unaware of any reason for KOHBERGER to travel to Moscow or any other local towns in the area. [redacted] had heard that KOHBERGER was into boxing as a hobby.

18. [redacted] said when she first heard of the homicides in this case she wondered if it could have been KOHBERGER.

19. [redacted] said KOHBERGER was the only student in the class that believed in the death penalty. KOHBERGER asked her if her twelve-year-old daughter was raped and murdered if she would support the death penalty.

20. [redacted] noticed that KOHBERGER was regularly late for classes where a female is instructing and rarely when a male was instructing. [redacted] said that on one occasion KOHBERGER expressed to females in the class that once he was in the job market they would be "screwed" in competing against him for a job. [redacted] said she wanted to think he was just socially inept, but after knowing him, she believes that KOHBERGER always thinks he is the smartest person in the room and has expressed resentment or jealousy at their successes.

21. [redacted] said KOHBERGER is always the first person to express his support of police. [redacted] again mentioned her and KOHBERGER's disagreement about the value of SROs in schools.

22. [redacted] said she believed KOHBERGER's question about if someone else was also arrested after his own arrest was an attempt by him to throw people off and not that he had a friend or acquaintance. [redacted] said she

Narrative

had heard KOHBERGER had attended a mixer at the [redacted] that she did not attend. She noted she had been told that he had drank a bottle of wine by himself at this event.

23. [redacted] said she had not heard KOHBERGER discussing knives or how to cover your tracks at a crime scene. [redacted] said KOHBERGER has discussed theoretically about sexual burglars.

24.[redacted] said KOHBERGER is very nosy and tries to look at what other people are texting. [redacted] said her friend [redacted] had KOHBERGER over to her apartment on one occasion and told [redacted] that she thought KOHBERGER had gone through her medicine cabinet.

25. [redacted] said she had not heard KOHBERGER talk about offenders studying victim's behavior before committing a crime. [redacted] suggested we speak with [redacted] (spelling?) because [redacted] felt KOHBERGER would have discussed his interest in studying violent sexual crimes.

26. [redacted] said KOHBERGER committed these homicides because he wanted to know what it felt like to commit these crimes in relation to his studies and ultimately if he could get away with the crimes further supporting his belief that he was smarter than others. [redacted] said committing these crimes and his need to control others is consistent with his personality.

27. This interview was audio recorded. A copy of this recording will be transmitted to the Moscow Police Department to be placed into evidence.

28. Nothing further.

Narrative

1. I, Detective Sergeant Van Leuven, interviewed [redacted] (DOB [redacted]/2000) on several occasions beginning on November 15, 2022. This supplement adds the audio from those interviews into evidence.

2. I interviewed [redacted] at the Idaho State Police District One office on November 15, 2022. [redacted] was the ex-boyfriend of victim Kaylee J. Goncalves (DOB [redacted]/2001). [redacted] had been dating Kaylee since they were in high school and dated on and off for approximately 5 years. [redacted] said that they had broken up approximately 3 months earlier due to her taking a job in Austin and that it had been a mutual decision with no drama.

3. [redacted] advised that he was driving a [redacted] and [redacted]. He said that this vehicle was owned by Kaylee's parents, and they were allowing him to drive the vehicle.

4. [redacted] advised that he lived at [redacted] in Moscow with a number of roommates. [redacted] listed his roommates as [redacted] [redacted] and [redacted] I noted that the location of [redacted] apartment and the crime scene were near each other. I noted that [redacted] and his roommates were all members o[redacted] fraternity.

5. I asked [redacted] to describe his whereabouts and events leading up to the time that the homicides occurred. On Saturday, November 12, [redacted] advised that he was at work at the [redacted] [redacted] [redacted] between 2:30 p.m. and 10:30 p.m. working mostly in the kitchen. [redacted] drove home to the duplex and went upstairs where he found roommates [redacted] and [redacted] Also present was a friend who was not a roommate named [redacted] [redacted] [redacted] went downstairs changed into a sweatshirt, got a beer, and waited for a

sober driver, who was a [redacted] freshman, to come pick them up. [redacted] said that the sober driver arrived in what he thought was a black Nissan Xterra and took him, [redacted] and [redacted] to the Corner Club.

6. [redacted] said they arrived at the Corner Club around 11:00 p.m. He said the club was packed and that they were admitted in because his roommate [redacted] [redacted] was working at the club and let them in. [redacted] said he got into a confrontation with the [redacted] member named [redacted] because [redacted] had been messing with one of his friends. [redacted] friend, [redacted] [redacted] who was there, told [redacted] to layoff and [redacted] and [redacted] bought each other a shot.

7. [redacted] said he saw Kaylee at the club that night. It was not uncommon for Kaylee to be at the club. [redacted] said that he thought Kaylee was accompanied by [redacted] who was [redacted] girlfriend. [redacted] said he left at approximately 1:00 a.m. [redacted] said he, [redacted] and [redacted] were picked up from the club by [redacted] who was president of the [redacted] fraternity, and returned to their apartment. [redacted] said he had consumed 2 beers, 2 shots of tequila, one shot of Rumple Minze, and a 32-ounce tub of beer. [redacted] said after returning to the apartment he hung out with his roommates for a period of time, tried to throw up but couldn't and went to bed.

8. [redacted] said he woke around 11:30 a.m. the next day, Sunday, November 13, 2022. [redacted] said [redacted] [redacted] [redacted], and [redacted] came into the apartment and talked about cops being down the street near [redacted] house. He tried to call Kaylee on the phone but no answer. [redacted] said he walked down the street where Kaylee's apartment was and saw [redacted] who was Ethan Chapin's [redacted]. [redacted] said he asked one of the officers on scene to tell him what was going on and told an officer that his ex-girlfriend lived in the house. [redacted] said the police put him in the back of a patrol car for about 45 minutes. Also present sitting with [redacted] was another [redacted].[redacted] said [redacted] was a good friend of Kaylee's. At some point the University of Idaho put out a text, university wide, announcing a homicide had occurred.

9. At my request, [redacted] drew a sketch of Kaylee's apartment and labeled the rooms by the names of the persons he knew to be living in each room. I have attached these drawings to this supplement and will transfer them to the Moscow Police Department. I will also scan these sketches and place the scans on a disc to include the audio recordings of [redacted] interviews as well as other documents.

10. I asked [redacted] if he had any idea who could have been responsible for committing these homicides. [redacted] advised that he had seen a video from the Grub Truck on Main Street the night before showing a [redacted] member named [redacted] seeming to follow Kaylee and Maddie Mogen from the area of the Grub Truck before they went home. [redacted] also advised that he had heard from [redacted] that a man named [redacted] [redacted] has been acting predatory at the Corner Club the night before and that the Corner Club had kicked him out.

11. I asked [redacted] to describe what vehicles the four victims drove. [redacted] advised Maddie Mogen drove a white Chevy Cruze, Kaylee drove a silver Range Rover, Ethan drove a red Jeep Wrangler and Xana Kernodle drove a blue Honda Civic.

12. We took a break and [redacted] left the room to speak to his mother who was concerned about [redacted] Upon returning from speaking with his mother [redacted] said he did not want to continue the interview without a lawyer being present. We stopped the interview and [redacted] left.

13. [redacted] returned on November 17 accompanied by his attorney, Jed Nixon. After a brief recap of what we had discussed on November 15th, we resumed talking with [redacted] about his recollections of what had happened on the night the homicides occurred. [redacted] said that he, [redacted], and [redacted] got back to their apartment a little after 1:00 a.m. He said his bedroom was on the main floor. He said he hung out with his friends for 10 to 15 minutes. [redacted] advised he was drunk. I asked him to estimate on a scale of 1 out of 10 how drunk he was. [redacted] said he would put his level of intoxication at an 8 out of 10. [redacted] advised he had never experienced memory lapses, had never walked in his sleep and had never acted while asleep. [redacted] advised he went to bed at approximately 1:20 a.m. [redacted] said when he woke up the next day, he noticed that he had a number of missed calls from both Kaylee and Maddie. There was approximately 7 from Kaylee and 3 from Maddie. [redacted] said that he had had no argument with Kaylee the night before, and that there was no dispute, and no one was upset about

anything.

14. I noted in looking at phone records but there had been several text messages the night before between [redacted] and Kaylee. The last text message was from Kaylee to [redacted] at 2:15 a.m. telling him that she had his vape and that he could come pick it up at her house. I advised [redacted] that there appeared to be telephone call at 2:26 a.m. between [redacted] and Kaylee, that lasted approximately 17 minutes the night before. [redacted] said he did not recall the phone call and cannot explain it. [redacted] said maybe in his sleep he thought it was an alarm and he pushed the side button of the phone to turn the ringer off.

15. I have learned that [redacted] had been referred to the [redacted] because one of his professors was concerned about [redacted]. The [redacted] website states the mission of the [redacted] is to provide care and concern for students, faculty and staff who [redacted]. [redacted]. [redacted] said that he had been missing more classes than normal and that the breakup with Kaylee had been bothering him. He talked about her going to Texas and the fact that she initiated the breakup.

16. I asked [redacted] directly if he had committed these murders, he stated clearly that he did not. [redacted] consensually gave a DNA sample at my request. He also consensually gave his cell phone to be downloaded. I later took the DNA samples and transferred them to the custody of the Moscow Police Department. I took thumb drive containing the download from [redacted] phone and transferred that to the custody of the Moscow Police Department. [redacted] signed consent forms for both his DNA and for the download of his phone. I have scanned these forms and placed them on a disc which will be transmitted to the Moscow Police Department. I attached the original forms to this supplement.

17. The remainder of my conversation with [redacted] on November 17, 2022 involved victimology related questions. Please see the audio recording for more details.

18. I had a number of follow-up questions and interactions over the course of this investigation vital with [redacted] [redacted] was cooperative and helpful throughout.

19. On November 18, 2022, [redacted] consented to a search of his room, bathrooms, common areas and downstairs laundry of his apartment in Moscow. Forensic scientist Kerry Hogan, Idaho State police Detective Jeff Talbot and I entered the apartment at 21:17 on the 18th. After searching the areas [redacted] had consented to, we found a drop of possible blood on a wall of the entryway. A sample of this was collected. We also noticed what could have been 5 or 6 small drops or runs of blood on a kitchen wall. Samples were also collected. This search and collection of possible bullet drop samples was documented through photographs by forensic scientist Hogan. We left the apartment at 20:20. Documents related to the consent, including the consent form and maps and pictures prepared by [redacted] are included on the disc. The original documents will be attached to this supplement and transferred to the Moscow Police Department. The search was also documented by video recording. These recordings were placed on a disc and will be transferred to the Moscow Police Department.

20. I had additional follow up questions with [redacted] on November 18, 2022, November 21, 2022, and November 22, 2022. The conversations on the 21st and 22nd were recorded and are on the disc.

21. [redacted] advised that he and Kaylee were co-owners of a mini Goldendoodle dog named Murphy who was 11 months old. Murphy had been in the house with Kaylee and the others on the night the murders had occurred. On January 4, 2023, I contacted [redacted] through his attorney Jed Nixon and asked him to bring Murphy to the Idaho State police office in Coeur d'Alene so I could take samples of Murphy's hair. [redacted] brought the dog in, and I clipped samples from 3 places: the top of the head, the mid back, and from the chest area. The samples were transmitted to the Moscow Police Department on January 5, 2023 by Detective Tolleson.

Narrative

1. On December 30, 2022, Idaho State Police Detective Sergeant Jess Stennett and I, Detective Sergeant

Narrative

Michael Van Leuven, interviewed PhD student [redacted] (DOB [redacted] 1997) at Washington State University (WSU) in Pullman, Washington.

2. [redacted] advised she was a [redacted] and had completed her undergraduate degree also from [redacted] Her advisor was [redacted]; her mentor was [redacted] knew Bryan C. KOHBERGER (DOB [redacted]-1994) as a fellow PhD student. She first met him at the orientation. She has been in his office a few times. She also met him at a BBQ that the department had in August at [redacted] house.

3. [redacted] said KOHBERGER had tried to have personal conversations with her on a few occasions, asking questions like, where she lives, what kind of dog she owns. She said KOHBERGER would make self-aggrandizing comments. KOHBERGER liked to talk about sexual burglary because that was his field of study. KOHBERGER was interested in the emotions of what it felt like when committing a crime.

4. [redacted] said that by October KOHBERGER was having issues with other students in their PhD cohort and that he was talking to her more in her office. She described having to "clean up" a mess he and his fellow Teacher's Assistant had created working for [redacted]

5. [redacted] described conversations she had with KOHBERGER related to their studies of violent offenders. This included areas of study like sexual burglary, sexual assault, and forensic awareness. He talked about different emotions violent offenders might have. He discussed how offenders might avoid getting caught.

6. KOHBERGER had asked [redacted] if she was single. She discussed her relationship with her partner. He asked about other friends of hers and if she was interested in getting together outside of school. She said she was not interested. She said she had told him she had been [redacted], and he stated that he did not date, "broken women."

7. He had discussed how he had attended [redacted] and described it as a small rural college in Pennsylvania. He advised that he had been taught by police officers.

8. Referring to the Moscow homicides, KOHBERGER had stated that whoever had committed the homicides must have been pretty good. This conversation occurred approximately three weeks after the homicides occurred. They discussed the idea that students were getting ready to leave for the winter break right after when the homicides occurred and that this timing made it a good choice by the murder.

9. [redacted] did not know what kind of car KOHBERGER drove or if he even had a car. KOHBERGER never mentioned friends or family to her. He discussed liking to hang out in the forest. [redacted] found this odd because of the lack of forests in the area. [redacted] said KOHBERGER never discussed knives with her.

10. Regarding complaints of KOHBERGER's behavior - [redacted] said she had made a few complaints to [redacted]. She had been directed to copy her complaints to the [redacted] She was reluctant to do this because she had not had good experiences with the [redacted] in the past. [redacted] said KOHBERGER was insulted that the department had brought on two women to fix his grading work as a TA for [redacted].

11. She discussed finding KOHBERGER's reddit, discussing his research at [redacted]. She also said she had found his Soundcloud. The reddit included him surveying ex-convicts about their emotions when committing crimes.

12. After the homicides had occurred, he said he, "had a few scrapes right now." This statement was made at the Christmas party. She noticed that after the homicides KOHBERGER was at the office more. She observed him often in his office. She assumed he was coming back for the Spring semester because he had asked about a theory class that they would take in the spring.

13. [redacted] said she didn't observe anything specifically about KOHBERGER that pointed to the homicides besides his focus on policing and comments about women having a harder time getting a job as a professor especially when he hit the job market.

14. [redacted] said KOHBERGER had conflict with [redacted], questioning her immigration status and insinuating he was superior to her in his research abilities. [redacted] said KOHBERGER was always late when

there were female instructors. [redacted] said female students, [redacted]r had a white board in their office where they kept track of the number of times when KOHBERGER was late to class when female instructors were presenting or when he would cut off a female when she was speaking.

15. [redacted] said KOHBERGER was a vegan, a strong catholic and that he did not drink. [redacted] did not recall KOHBERGER having disparaging comments about members of the Greek system.

16. [redacted] said KOHBERGER enjoyed conflict and was disparaging toward women. [redacted] described an outburst KOHBERGER had regarding a grade he had received from [redacted]. [redacted] said in the approximately forty times she had been around KOHBERGER, she had never observed him exhibit empathy toward others.

17. [redacted] said KOHBERGER did not like the fact that she discounted the offender in studying sexual assault cases. He said she was being dismissive of the offender. He thought she should be focusing on the offender and what they left behind. He thought the offender had a stronger impact on the crime rather than the victim. She said he thought he was dismissing what she was doing just to argue. She said he was dismissive toward women and not men.

18. [redacted] said it did not cross her mind that KOHBERGER may have been responsible for the Moscow murders. [redacted] said KOHBERGER always seemed reclusive. She said he didn't get the hint that she wanted him to leave when he was in her office. She said she had to leave her office in order to get him to leave her office.

19. [redacted] said she thought KOHBERGER used the [redacted]. She further said the [redacted] had private lockers available to students that could be assigned individually. I later contacted the [redacted] to inquire if KOHBERGER had a locker there, they advised he did not.

20. [redacted] said she had never met anyone who acted in such a condescending manner and wondered why people in power in the department did not address his behavior. The way he spoke to females in the department was unsettling to them.

21. In reference to the Moscow homicides, he would say that it was horrible. In discussing whether the murderer would be caught, he said maybe it was a one and done type of thing. She said KOHBERGER sometimes discussed the evidence left behind at crimes and how an offender might mitigate against that by wearing gloves. These statements were related to her research work and not specific to the Moscow homicides. She said he did not discuss vehicles, surveillance or weapons that could be used but did talk about the time of day that offenders might choose.

22. She talked about how there were conversations about how KOHBERGER might be an incel (in celibate) in relation to his reddit page and his confrontation with [redacted] said KOHBERGER had a bad interaction regarding a front office undergrad staffer named [redacted] [redacted] mentioned problems [redacted] was having with KOHBERGER. [redacted] said students were told not leave [redacted] alone with KOHBERGER. [redacted] said undergraduate students. KOHBERGER was a TA for a 101 class. Three female students from that class told [redacted] that KOHBERGER was an awkward guy who would hang around and try to contribute to conversations that he was not a part of. [redacted] recalled one of these students was named [redacted]. [redacted] said no one wanted to talk to KOHBERGER or hang around him. Based on how he talks to women and treats women, people in the department thought he was a possible future rapist. [redacted] said she would not have pegged KOHBERGER for committing the Moscow homicides.

23. This interview was audio recorded. This recording was placed on a disc and will be transferred to the Moscow Police Department.

[redacted] provided his telephone and consented to a search of the phone, as well as providing us with the password for the phone. The phone was downloaded during the interview and returned back to [redacted] before he left. The consent form for the phone was scanned and the scan placed on a disc to be given to the Moscow Police Department. The original signed consent form will be transferred to the Moscow Police Department.

3. [redacted] also consented to giving us a sample of his DNA. I took the samples using buccal swabs. I transferred these swabs to the Moscow Police Department.

4. [redacted] removed his shirt and allowed us to look for any injuries he might have on his arms or torso; no injuries were observed.

5. This interview was recorded with both audio as well as video recordings. These recordings have been placed on a disc and that disc will be transferred to the Moscow Police Department.

6. [redacted] advised that he was a driver for both [redacted] as well as [redacted] He drove a [redacted] bearing Idaho license plate [redacted]. He said he's one of the only drivers in the area that serves Moscow.

7. We covered some biographical history regarding [redacted]

8. On Friday, November 11, 2022, [redacted] had worked until 3:00 a.m. He started driving again between 10:30 and 11:00 a.m. on the 12th. Beginning at 3:00 or 4:00 in the afternoon he had steady work until 3:00 or 4:00 in the morning. [redacted] advise his wife was not a fan of him staying out late driving, but that weekend she was out of town with her parents in Hayden, Idaho.

9. [redacted] advised that he had given Kaylee 10 to 15 rides since the last school year. [redacted] said he had also given Maddie rides but didn't know about Ethan and Xana. [redacted] said that around 10:00 p.m., Kaylee had texted asking for a ride to the Corner Club. [redacted] thought that there were 3 girls on that ride. [redacted] advised he drove them directly from the house where Kaylee lived to the club. He advised he had driven this route several times before. [redacted] said he doesn't remember what the conversation in the car was about on the way to the club. He said he has not heard or overheard any problems from the group of people that Kaylee is usually with. [redacted] said he tries his best not to be a creep. [redacted] said he got another text from Kaylee at 1:45 a.m. asking to be picked up at the Grub Truck. [redacted] said when he picked Kaylee and Maddie up at the Grub Truck, Kaylee sat in the front and Maddie sat in the back. [redacted] said he drove the two girls directly from the Grub Truck to their house. [redacted] said that Kaylee was a little more drunk than Maddie.

10. [redacted] said when he got to the house that the lights were on and that there were 4 cars parked in the driveway. He said he noticed a black SUV on the left side sticking out. He also said there was a silver car on the road. [redacted] did not notice anyone walking on the road. [redacted] watched the girls go into the house. [redacted] said on this occasion they didn't pay him for the ride. He said that was not unusual and that he expected that they would pay him later. [redacted] said he never gave rides for free and that there was always the understanding that they would pay. [redacted] said he has never been into the house or anyone 's house as a driver. [redacted] advised that the girls state of inebriation was "pretty standard." [redacted] said that this ride was "off the books" meaning that it was not managed through[redacted]. The girls had his number and contacted him directly. [redacted] said that 5 to 10% of the rides he gives are "off the books."

Narrative

11. [redacted] said he did not go back to the girls' residence that night. When asked to provide an alibi, [redacted] stated that he was home at the time of the homicides. [redacted] said he could support him being home at the time of the homicides by providing security camera footage from around his house showing his vehicles parked there and what time he got home. I asked him to provide a copy of this footage to the Moscow Police Department and he said he would. I was later advised that he had brought a copy of that footage into the Police Department and turned it over to them.

12. [redacted] said he first became aware of the homicides through the Vandal Alert text. [redacted] said he was shocked, that this kind of thing never happens in Moscow.

13. When asked if he had any idea who could have committed these crimes, [redacted] described an event that occurred approximately one month ago at the public restrooms downtown near Friendship Square. He said he stopped to use the bathroom at 1:30 to 2:30 a.m. and there was a thin-build, white male in his 30s with tattoos, approximately 5 feet 10 inches tall in the bathroom wearing a white tank top and sharpening a filet knife at the sink.

Narrative

1. Beginning on November 19, 2022, Idaho State Police Detective Gary Tolleson and I, Detective Sergeant Van Leuven, interviewed a number of people regarding a tip that had come in regarding information from a Moscow citizen named [redacted] (DOB [redacted] 1969).

2. [redacted] (DOB [redacted]-1989) contacted law enforcement to provide a tip about a woman named [redacted] ([redacted] [redacted] [redacted] said a man she worked with at the [redacted] in Moscow told her about a story he had heard from [redacted] about a man [redacted] had met prior to the homicides who might be the murderer. [redacted] forwarded a picture of a type written statement dated November 17, 2022 [redacted] had made regarding her memory of the conversation with the man. A scan of that written statement has been placed on a disc and will be transferred to the Moscow Police Department (MPD). The original statement will also be transferred to MPD.

3. In this written statement, [redacted] writes about a conversation she had with a stranger between three weeks and two months ago prior, in front of [redacted] business named [redacted] [redacted] described the man as a big guy, tall and burly with reddish brown hair. [redacted] said the man had purchased a soda from a vending machine in front of her business and that was where the conversation took place. [redacted] writes that this man said he was homeless, living out of his van and had recently been parking in front of the [redacted] and police had told him to park somewhere else. [redacted] wrote the man said he had been accused of shoplifting from the [redacted] that morning. [redacted] wrote that the man talked about a knife he had, how sharp it was and that she would be surprised how many people it could take out in a short time. [redacted] wrote the man then talked about a sorority girl who worked at a restaurant downtown who had snubbed him and that she would regret it. [redacted] further wrote the man said he knew the girl lived on the other side of the university to the south.

4. [redacted] agreed to an interview and came into the Moscow Police Department. [redacted] recounted verbally what she wrote in her written statement. [redacted] advised she had narrowed down the day she met the stranger as being October 18, plus or minus a couple of days.

5. In an attempt to identify the person [redacted] claimed to have spoken with, we conducted numerous interviews with people associated with the [redacted] to include [redacted] and [redacted] We queried Moscow Police Department records regarding the reported contact with the man in his van at the [redacted]. Through conversations with the [redacted] people as well as Moscow Police Department records, the occupant of the van was identified as [redacted]. [redacted] was well known to local law enforcement and was contacted in this case. When shown a photograph of [redacted]l, [redacted] said that was not the man she reported talking to in front of her business.

6. We also interviewed several people associated with the [redacted] including [redacted], manager [redacted] and manager [redacted]. None were aware of a shoplifting complaint as described by

Narrative

the stranger in [redacted] statement. [redacted] had mentioned she had suggested to the stranger that he contact the [redacted] next to hers in search of a job. We interviewed [redacted] [redacted] the owner of [redacted] [redacted] said he had never met the stranger but had heard about him from [redacted] All of these interviews were recorded as audio. This audio was placed on a disc and will be transferred to the Moscow Police Department. Please refer to this audio for more information regarding this line of investigation.

7. [redacted] advised there were security cameras showing the front of her business, but they were not working during the time she believed she had talked to the stranger.

8. Ultimately, we were able to obtain copies of video from the Latah County Department of Motor Vehicles which was located across the street from the [redacted]. One of the cameras covered the front of the [redacted] where [redacted] claimed the contact with the stranger occurred. After reviewing eleven days of daytime footage from this camera we found no footage that depicts [redacted] having a conversation with a man in front of her business consistent with her statements. This video was placed on a thumb drive and will be transferred to the Moscow Police Department.

9. [redacted] continued to contact me and Detective Tolleson on numerous occasions both via text as well as voicemail advising us of additional information she had recalled. I have placed the texts I received on the disc containing the audio mentioned previously. I also placed an email I received from [redacted] on 11-22-22 on the disc.

Narrative

1. On April 18, 2023, at about 3:15 p.m., ISP Det. O'Harra and I interviewed [redacted] regarding interactions with **KOHBERGER**. Listen to the audio recording for full details of the interview. After being advised of the purpose of the interview [redacted] provided the following information:

A. During the first semester of 2022, he was enrolled in [redacted] criminal justice course and **KOHBERGER** was a TA for the course.

B. He had very few interactions with **KOHBERGER**.

C. **KOHBERGER** was present the first or second day of the course to introduce himself but was absent a majority of the time.

D. He only remembered two notable interactions with **KOHBERGER**.

E. The first time was when he was meeting with [redacted] following an absence due to an unexpected family member's death. During that meeting, **KOHBERGER** was in the room but didn't say anything, which he thought was strange.

F. The second time was during a scheduled Zoom meeting between him, [redacted], and **KOHBERGER** . At the scheduled time, neither [redacted] nor **KOHBERGER** were on the call, so he sent an email inquiring if they were still available to meet. A short time later, **KOHBERGER** joined the Zoom meeting from [redacted] office, which he thought was strange. He was able to quickly decern [redacted] and **KOHBERGER** were "...not on good terms with each other..." in part by the way [redacted] was telling **KOHBERGER** to end the meeting. A short time after the Zoom meeting ended, he received an email from [redacted] advising him he ([redacted]) wasn't upset with his questions but instead, he ([redacted]r [redacted]) had "...other stuff going on...", which he assumed meant **KOHBERGER.**

G. He didn't have any other personal firsthand information to provide but he had heard from several other people of issues between [redacted] and **KOHBERGER** , however, he was unable to provide any names for follow up.

H. His impression of **KOHBERGER** was that **KOHBERGER** was "...standoffish...", "...a bit odd...", and "...just weird...".

2. The interview ended at about 3:15 p.m. I processed the recorded audio into evidence and transferred it to MPD Evidence Technician Tim Smallridge.

Narrative

1. On November 23, 2022, at approximately 10:00 a.m., ISP Det. O'Harra and I, Det. Powell reviewed security camera footage from [redacted] in their security room. A tip had been received that Goncalves had reported to her father [redacted]) that someone was following her while she was shopping at [redacted] on October 14, 2022. The footage we reviewed was dated October 14, 2022.

Narrative

A. During the review of the video footage Goncalves was seen entering [redacted] at 7:24 p.m. As she enters she passes two males and you can see them stare at her as she walks past them. The two males were later identified as [redacted] and [redacted]. Goncalves walks directly to the alcohol coolers and picks up a case of White Claw.

B. After picking up the White Claw, Goncalves walks to the self-check-out registers. [redacted] sees Goncalves walk past them and immediately starts to follow Goncalves. While she is checking out at the register [redacted] stands back watching her from a distance. Once Goncalves finishes checking out she leaves the store and walks towards her vehicle which is parked in the far east parking lot along Farm Road. [redacted] follows Goncalves to her car but doesn't make contact with her; he turns and walks back inside [redacted] and meets up with [redacted].

C. [redacted] and [redacted] finish their shopping and check out. As they are walking to the exit they pass the self-check-out registers and both stare at an unknown female checking out in the self-check-out. [redacted] walks outside and stands next to the pillars in front of [redacted] as [redacted] pushes their grocery cart to his vehicle, which is a [redacted]. Once the unknown female exits [redacted] and walks past [redacted], you can see him start to follow her. She seems to be aware he is following her and does a loop past her vehicle and then walks towards the vehicle she came in. [redacted] did not appear to make contact with her and continued towards [redacted] vehicle.

2. On December 1, 2022, ISP Det. William Adams (Adams), and I, interviewed [redacted] at his apartment [redacted] [redacted], Moscow, Idaho. This is a summary of the interview, for full details listen to the audio:

A. He identified his friend as [redacted]

B. He and [redacted] will go grocery shopping at [redacted] together on [redacted] after school. At times [redacted] will see a girl he wants to talk to and will sometimes follow a girl outside the store and try to talk to her outside. He will do this because he is really shy, and doesn't want to be rejected in front of his friends.

3. On December 1, 2022, ISP Det. Adams and I interviewed [redacted]

A. [redacted] has been a student at the [redacted] for almost two years.

B. Goes grocery shopping with [redacted] every [redacted] after school.

4. I showed [redacted] a clip from security camera footage of him following Kaylee Goncalves (Goncalves) out to her car when she was leaving [redacted]

A. [redacted] agreed that was him following Goncalves.

B. [redacted] followed her out of the store to try to talk with her and get her phone number. He was unaware of who she was, and according to him, he did not talk with her The reason he followed her outside instead of contacting her inside the store is that he gets embarrassed easily and did not want to be around his peers in case he got turned down.

C. [redacted] stated that after checking out that same evening he saw another girl he wanted to talk to that was checking out in the self check-out line. He waited outside by the pillars in front of [redacted] entrance until she walked out. He approached her and asked if she would like to talk, and she turned him down.

D. He was unaware of the homicides that occurred until late afternoon on November 13 around 1:00 p.m., after he saw an e-mail from the university. [redacted] denied knowing any of the students and had only seen them when a Go-Fund-Me account was sent out to all the [redacted] students. The night of the homicides he stated he was in his room, as he rarely ever goes anywhere, except to the gym and grocery store due to his schedule with school.

E. [redacted]**A** agreed to provide a DNA buccal swab. I donned nitrile gloves and used a sterile buccal swab on the inside of [redacted] cheek. I transported the swab back to MPD where I turned it over to evidence.

5. I made a copy of the interviews and placed them onto a compact disc and turned it over to evidence at MPD.

Report Title TIMED RUNS 1122 KING	Approving Officer 3249	Approval Date 07/27/2023	Approval Time 13:18:46

Summary Narrative

On November 21, 2022, I, Idaho State Police (ISP) Sergeant (Sgt.) Darren Gilbertson, conducted timed runs through the residence at 1122 King Road, Moscow, Idaho. Kaylee Goncalves (GONCALVES), Madison Mogen (MOGEN), Xana Kernodle (KERNODLE), and Ethan Chapin (CHAPIN) were murdered there during the early morning hours on November 13, 2022. Bryan C. Kohberger (**KOHBERGER**) was subsequently arrested and charged with four counts of First-Degree Murder. The purpose of the timed runs was to gain an understanding of the approximate time needed to have carried out the murders.

I was assigned and worked as the lead investigator, for the Idaho State Police, in assisting the Moscow Police Department (MPD) with the multiple homicides.

Narrative

1. Based upon the processing of the crime scene and evidence collected, investigators believed **KOHBERGER** drove to the area and parked at the back of the residence. There is a paved parking area directly to the south that overlooks the back of the residence. **KOHBERGER** most likely entered the residence through a sliding glass door located on the second level and rear of the residence and then proceeded as follows:

A. After entering through the sliding glass door, **KOHBERGER** walked through the kitchen area and to a set of stairs that led up to the third floor. **KOHBERGER** then went up the stairs to the third floor. At the top of the stairs and directly to the left side is a door which was GONCALVES's bedroom and to the right is a short hallway that ended into a bathroom and another door to MOGEN's bedroom. Most likely **KOHBERGER** checked GONCALVE's bedroom, saw it was empty, and then moved into MOGEN's bedroom where we believe both GONCALVES and MOGEN were asleep in MOGEN's bed. **KOHBERGER** murdered both of them in the bed.

B. **KOHBERGER** most likely went back down the stairs, walked through the second-floor living room, and then down the hallway which ended at KERNODLE's bedroom. Based on the evidence, KERNODLE was initially attacked just inside the bedroom near the entrance. KERNODLE fought the suspect in the bedroom area and was ultimately killed on the floor of the bedroom next to the bed. CHAPIN, who we believe was asleep, was murdered in the bed.

C. **KOHBERGER** left the bedroom area, walked back down the hallway, passed through the living room, kitchen, and exited through the sliding glass door leaving the door partly open. **KOHBERGER** then walked back to his vehicle and drove away from the area.

2. ISP Detective (Det.) Jeff Talbott and MPD Corporal (Cpl.) Brett Payne assisted with the timed runs. Cpl. Payne tracked the times for each run. Det. Talbott walked through the residence with me calling out the number of strikes to simulate the number of wounds to each victim, based on autopsy reports.

Narrative

3. I conducted two timed runs, the first being a quick as possible run and the second a slower, deliberate timed run.

4. During the first trial run, I began at the rear of the residence and came through the sliding glass door. I then quickly moved through the kitchen and up the stairs, I looked into the bedroom to the left and then moved down the hallway and into MOGEN's bedroom. I simulated the number of strikes that were inflicted upon MOGEN and GONCALVES. Det. Talbott counted and kept track in an attempt to re-create the movements and motions believed to have occurred based on the evidence collected and autopsy reports. I moved out of the bedroom, down the stairs, through the living room, down the hallway, and into KERNODLE's bedroom. Again, with the assistance of Det. Talbott, I simulated the number of strikes that were inflicted upon KERNODLE and CHAPIN. I then exited back down the hallway, through the living room, through the kitchen, and out the sliding glass door. Cpl. Payne reported a time of approximately one minute and thirty seconds (1:30) on the quick-as-possible timed run.

5. On the second run, slower and deliberate, I followed the same path throughout the residence but at a much slower methodical pace. I again entered through the rear sliding glass door, opening it slowly to make no noise while doing so. I then walked as quietly as I could through the kitchen and up the stairs attempting to make no noises. I looked into the first bedroom and then slowly moved down the hallway and into MOGEN's bedroom. Det. Talbott counted and kept track again as I re-created the movements and motions believed to have occurred inside the bedroom. I exited the bedroom, moved back down the stairs, through the living room, down the hallway, and into KERNODLE's bedroom. The movement to KERNODLE's bedroom was slower than the first run, but still somewhat quick. I again simulated the movements and motions that took place inside KERNODLE's bedroom. I then exited back down the hallway, through the living room, through the kitchen, and out the sliding glass door. Cpl. Payne reported a time of approximately two minutes and thirty-three seconds (2:33).

6. We additionally walked through simulated paths that **KOHBERGER** may have possibly taken from the vehicle to the back of the residence. The shortest and most direct path, going from the parking area, and moving east to west along the back of the house took approximately thirty (30) seconds. A second path, starting at the southern edge of the property and walking a fence line through some trees, and moving in a south-to-north direction towards the back of the house took approximately one minute (1:00). The times to make the same two paths at a running pace were approximately six to seven (6-7) seconds for the short path and ten to twelve (10-12) seconds for the longer path.

7. The timed runs revealed that it was possible for **KOHBERGER** to have carried out the murders in as few as two minutes and six seconds (2:06), going at a fast pace on the shortest route to the vehicle, or as much as three minutes and forty-five seconds (3:45), going at a slower pace on the longer route to the vehicle.

8. This concluded the simulated timed runs through the residence.

[redacted] appeared very conscious of how it may look if he was contacting female students. [redacted] stated he was not involved very much with the babysitting and did not handle any of the logistics of it. Outside of [redacted] had little to no contact with the other babysitters and told us he had met GONCALVES maybe two times. Any interactions he had with the babysitters was mostly in passing.

14. [redacted] confirmed [redacted] statements of how they knew GONCALVES and how the babysitting operation was performed. [redacted] explained that after games, he would meet with [redacted] at a location off campus. [redacted] told us that on the day of the incident, he was notified of the murders when he was already in the Kibbie Dome game planning for the next week. We asked [redacted] if he had seen any of the victims after the football game the night before they were found. He said he had not seen any of the victims after the game. I asked [redacted] what he did after the game. He stated he went to the Best Western (as is custom after games) with other [redacted] and then went home. I asked [redacted] what his contact was like with the [redacted]. He told me his phone was always on and that [redacted] could reach out to him if need be but that was not the standard. I asked if his phone was normally on "24/7." He said it was.

15. After explaining the totality of the circumstance and the link between him and GONCALVES, I asked [redacted] if he would be willing to provide a DNA sample. We explained the sample was going to be used to rule out or match a person to any evidence that may be obtained. We also explained the DNA sample would not be placed into the national database. He ultimately agreed and we obtained a sample from him. That sample was later given to the Moscow Police Department and processed according to their policy and procedures.

16. I also asked if [redacted] had any inappropriate relationships with any of the victims or students at the university. [redacted] denied any inappropriate relationships. There were no other tips or statements to say otherwise. [redacted] told me the only interaction he had with GONCALVES outside of babysitting was when she arrived at the house to watch the kids and she appeared hungover. He told us his wife took care of her. We concluded our interview with [redacted]

17. I submitted the audio recordings of the interviews into the ISP District One Evidence.

18. See audio recordings for further detail. End of Report.

Summary Narrative

On October 29, 2024, I, Idaho State Police (ISP) Detective Sergeant (Det. Sgt.) Darren Gilbertson, received a request from the Latah County Prosecutor's Office to follow up on a tip from [redacted] ([redacted]), who stated he had information on the quadruple homicides that occurred in Moscow, Idaho, on November 13, 2022.

Narrative

1. [redacted] is an Idaho State Correctional Institution inmate and was interviewed by Federal Bureau of Investigations (FBI) Special Agent (SA) Ryan P. O'Neil. [redacted] made numerous claims during the interview about the circumstances surrounding the murders and who was involved. He stated the house where the murders took place was a location where he provided, "security" to individuals who delivered unknown items to the house. He stated he did not know what they were delivering but understood that what they were doing was illegal. [redacted] referenced several individuals by nicknames but did not know any full legal names. His main associates were, '[redacted] and '[redacted]

2. On one of their trips, [redacted] stated they were leaving Lewiston and heading for Moscow, when a car crash happened in front of them. He stated the driver was ejected through the front windshield but survived. He stated he stopped at the crash and waited for police to arrive, spoke to them briefly and then continued to Moscow. He stated this happened at 3:00 AM, exactly 30 days before the murders. The murders occurred on November 13, 2022, which by his statement, would mean the accident occurred on October 13, 2022. I searched ISP District 2 calls from this date and did not locate any crashes that matched his description. I then contacted the Nez Perce County Sheriff's Department and requested they check to see if the Sheriff's Department or Lewiston Police Department (LPD) responded to any crashes on this date which matched his description. They could find no records of the Sheriff's Department or LPD responding to a crash matching the description. I requested they expand the search to October 12-14, 2022, and still did not find any matches.

3. [redacted] stated he was later punished by '[redacted] for stopping at the scene of the crash. He stated that '[redacted] broke both of his feet. He stated he was in jail from October 28, 2022, through December 9, 2022, in both Spokane County and Kootenai County. On October 31, 2024, Det. Brett Payne of the Moscow Police Department (MPD), contacted both the Spokane County and Kootenai County Sheriff's Departments. Spokane County stated [redacted] was arrested in Airway Heights, WA, on November 23, 2022, for assault. He was then transferred to Kootenai County for a warrant. Neither detention center had any records of [redacted] having broken feet. Kootenai County reported having [redacted] listed as having [redacted] [redacted] Additionally, the dates of his incarceration do not match what he stated in his interview with SA O'Neil.

Narrative

4. On October 31, 2024, I followed-up with SA O'Neil about the interview he conducted with [redacted] . SA O'Neil stated that he had a long history with [redacted] and that he used to work as in informant for him. He stated he eventually fired [redacted] as in informant because he was a pathological liar. SA O'Neil stated he continually sought out law enforcement to try to help himself out when he got into trouble, but he never had credible or reliable information. SA O'NEIL stated during the recent interview with [redacted] , he did not find him credible and did not believe anything that he said in the interview.

3. On May 1, 2025, I completed a report for tip #5231 and tip #2953 (supplement report 0202). On the same date, I also provided Lt. Gilbertson the audio files. Lt. Gilbertson subsequently turned the audio files over to Moscow Police Department.
